Federal Impeachments in History.

THE Constitution of the United States, Article II., Section IV., provides that civil officers of the United States may be removed from office on impeachment and conviction of treason, bribery or other high crimes and misdemeanors; that the House of Representatives has the sole power of impeachment, and the Senate the sole power to try impeachments; that the Vice-President shall preside at impeachments except when the President is tried, when the Chief Justice of the Supreme Court shall preside; and that two-thirds of the members present must vote for conviction before a person impeached shall be deemed guilty. Only nine persons have been impeached and tried before the Senate, and only two of them have been convicted. The record is as follows:

William Blount, Senator from Tennessee; impeached July 7, 1797, for conspiring to wage war with Spain in favor of Great Britain, to excite the Cherokee Indians against Spain, and to create disaffection among the Indians toward the United States; trial, December 17, 1798, to January 14, 1799; vote, 11 guilty, 14 not guilty; verdict, acquittal.

John Pickering, Judge of the District Court of the United States for the District of New Hampshire; impeached 1803 for drunkenness and disregard of the terms of the statutes; trial, March 3 to March 12, 1803; vote, 19 guilty, 7 not guilty; verdict, guilty; punishment, removal from office.

Samuel Chase, Associate-Justice of the Supreme Court of the United States; impeached 1804 for misconduct at trials of persons charged with breach of the Seditious Law; trial, November 30, 1804, to March 1, 1805; vote, 9 guilty, 30 not guilty, and 15 guilty, 19 not guilty, on different counts; verdict, acquittal.

James Peck, Judge of the District Court of the United States for the District of Missouri; impeached for tyrannous treatment of counsel, 1830; trial, May 11 to May 30, 1830, and from December 13, 1830, to January 31, 1831; vote, 21 guilty, 22 not guilty; verdict, acquittal.

West H. Humphreys, Judge of the District Court of the United States for the District of Tennessee; impeached 1862 for supporting the secession movement and unlawfully acting as Judge of the Confederate District Court; trial May 22 to June 26, 1862; vote, 32 guilty, 4 not guilty, and 38 guilty; verdict, guilty; punishment, removal from office.

Andrew Johnson, President of the United States; impeached for usurpation of the law, corrupt use of the veto power, interference at elections and high crimes and misdemeanors; trial, March 30 to May 26, 1868; vote, 35 guilty, 19 not guilty; verdict, acquittal.

William W. Belknap, Secretary of War of the United States; impeached for accepting bribes; trial, April 5 to August 1, 1876; vote, 5 guilty, 25 not guilty; verdict, acquittal.

Charles Swayne, Judge of the District Court of the United States for the District of Florida, impeached 1905 for misconduct in office; trial, February 6 to February 27, 1905; vote, 55 guilty, 37 not guilty; verdict, acquittal.

Robert W. Archbald, Associate Judge of the Commerce Court and previously United States District Judge for Middle Pennsylvania, was impeached by the House of Representatives July 11, 1912, on thirteen articles charging him with corrupt collusion with coal mine owners and railroad officials while in office. The Senate began his trial December 3, 1912, and it was in progress when the ALMANAC went to press.

Federal Employer's Liability Commission.

JOINT Resolution No. 41 passed by Congress and approved June 25, 1910, provided for the appointment of a commission to investigate the matter of employer's liability and workman's compensation, as follows:

Resolved by the Senate and House of Representatives of the United States of America in Congress assembled, That a commission be, and is hereby, created, consisting of two members of the Senate, to be appointed by the President of the Senate, and two members of the House of Representatives, to be appointed by the Speaker thereof, together with two persons to be selected by the President of the United States, for the purpose of making a thorough investigation of the subject of employer's liability and workman's compensation, said commission to submit a report through the President to the Congress of the United States not later than the first Monday in December, nineteen hundred and eleven; and any vacancy occurring on said commission shall be filled in the same manner as the original appointment.

To carry out the purpose of this resolution the commission hereby created is authorized to employ persons who are familiar with the subject, and take such other steps as are necessary to make a thorough examination in the matter.

In submitting its report the commission shall recommend to Congress such legislation as to the commission seems advisable.

All expenses of said commission, together with compensation to be fixed by the President for the two members of the commission to be appointed by the President, for all time in which said commission shall be actually engaged in this investigation, shall be paid out of any funds in the Treasury of the United States not otherwise appropriated, on a certificate of the chairman of said commission, who shall be selected from the membership of the commission named under this resolution, and the sum necessary for carrying out the provisions of this resolution is hereby appropriated: Provided, That the total expense authorized by this resolution shall not exceed the sum of fifteen thousand dollars, which shall include the compensation herein authorized.

To carry out and give effect to the provisions of this resolution, the commission hereby created shall have power to issue subpoenas, administer oaths, summon witnesses, require the production of books and papers, and receive testimony taken before any proper officer in any State or Territory of the United States.

	4. Ethel Geraldine Rockefeller, b. 1882; m. Marcellus Hartley Dodge, 1907		

* Previous ancestors:—John Rockefeller born in Germany in 1634. Johann Peter, his son, born in Germany in 1682. This man emigrated to America with his cousin Diell, and from these two all the Rockefellers in the country are descended. Peter Rockefeller, his son, born in S-gendorf, Germany, in 1711. He married Mary Bellis. William, their son, born in Amwell, N. J., in 1756. He married Christina Rockefeller, who was a daughter of Simons, who was a grand-daughter of Diell, the other emigrant. This marriage makes all the descendants of both Diell and Johann Peter related to the present John D. Godfrey, their son, born in Germantown, N. Y., Sept. 24, 1783. He married Lucy Avery.

THE MORGANS.

DESCENDANTS OF JUNIUS SPENCER MORGAN.

1. Jonathan Ogden Armour, b. 1863; m. Lolita Sheldon.	1. Lolita, b. 1896.		
2. Philip Danforth Armour, Jr., b. 1869; m. 1890; d. 1900.	1. Philip Danforth Armour, 3d, b. 1894. 2. Lester Armour, b. 1896.		

The American Bonapartes.

PRINCE JEROME BONAPARTE (King of Westphalia), born Ajaccio, Corsica, November 15, 1784; died at Ville Genlis, near Paris, June 24, 1860. Married, first, at Baltimore, Md., December 24, 1803, Elizabeth, daughter of William Patterson, Esq. She was born at Baltimore, February 6, 1785, and died in that city April 4, 1879. The issue of the marriage was:

Jerome Napoleon Bonaparte, born at Camberwell, England, July 7, 1805; died at Baltimore, Md., June 17, 1870. Married, November 3, 1829, Susan May, daughter of Benjamin Williams, who was born in Roxbury, Mass., but spent his life in Baltimore, Md. She was born April 2, 1812, and died September 13, 1881. The issue of the marriage was:

(1) Jerome Napoleon Bonaparte, born at Baltimore, Md., November 5, 1830; died at Beverly, Mass., September 3, 1893. He was educated at and graduated from West Point Military Academy, and served for two years in the American Army, entered the French Army in 1854, took part in the Crimean and Italian campaigns and resigned after seventeen years' service at the close of the Franco-German war, with the rank of Lieutenant-Colonel.

He was married September 7, 1871, to Caroline Le Roy, daughter of Samuel Appleton, granddaughter of Daniel Webster, and widow of Newbold Edgar. She died November 19, 1911. The issue of the marriage was:

(1) Louise Eugenie Bonaparte, born February 7, 1873. Married December 29, 1896, Comte Adam de Moltke-Huitfeldt, of Denmark, and has issue; (1) Marie Louise Caroline, born November 7, 1897; (2) Leon Charles Joseph, born November 14, 1898; (3) Jerome Eugene Otto, born January 14, 1902; (4) Adam Nicolas, born May 17, 1908; (5) Another son.

(2) Jerome Napoleon Bonaparte, born Paris, France, February 26, 1878. Harvard B. A. and Georgetown University. Lives in Washington, D. C. Unmarried.

(2) Charles Joseph Bonaparte, born at Baltimore, Md., June 9, 1851. Married September 1, 1875, Ellen Channing, daughter of Thomas Mills Day, of Hartford, Ct. No issue. Mr. Bonaparte is a Harvard B. A., 1871; LL. B., 1875; a lawyer. Was Secretary of the Navy from July 1, 1905, to December 17, 1906, and Attorney-General of the United States from December 17, 1906, to March 5, 1909.

One Hundred Years Ago.

 61. Rear-Admiral Hugo Osterhaus, Felix Adler, Duke of Sutherland, Bishop Beckwith, of Alabama; Congressman S. W. McCall, Digby Bell, actor; Senator Burton, of Ohio; Mayor Gaynor, of New York; Charles J. Bonaparte, Thomas F. Ryan, Perry Belmont.
 60. Ex-Vice-President Fairbanks, Lily Langtry, Edwin Markham, poet; John Bach McMaster, historian; Rev. Dr. Henry Van Dyke.

At what age does one become "old"? Five centuries ago a man was old at fifty. But the hale and hearty gentleman of to-day who has just turned sixty would probably protest against being classed among old people, even if famous. That his susceptibilities may not be wounded, therefore, a separating dash has been discreetly introduced after age sixty-five.

Death Roll of 1912.

- Age at death is given in parentheses; vocation, place, cause, and time of death when known follow:
- Alexander, William (59), reigning Grand Duke of Luxemburg, Luxemburg, February 26.

- Terrill, Joseph M. (51), former United States Senator from Georgia, twice Governor of Georgia, paralysis, Atlanta, Ga., November 17.
- Terry, Edward O'Connor (68), British actor, neuritis, Barnes, Surrey, England, April 2.
- Thomson, Clifford (79), insurance journalist, East Orange, N. J., September 29.
- Tinel, Edgar, Belgian composer and director of the Royal Conservatory of Music, October 28.
- Torrey, Bradford (70), naturalist, author, Santa Barbara, Cal., October 7.
- Torrey, Franklin (83), sculptor, heart disease, Florence, Italy, November 18.
- Tryon, James Rufus (75), Rear-Admiral, U. S. N. (retired), Brooklyn, N. Y., March 21.
- Utter, George H. (58), Representative in Congress from Rhode Island, former Governor of Rhode Island, gall stones, Westerly, R. I., November 3.
- Vander Pool, Dr. S. Oakley (59), senior medical director New York Life Insurance Co., heart disease, New York City.
- Vaniman, Melvin, balloonist, killed by explosion of dirigible "Akron," Atlantic City, N. J., July 2.
- Von Bieberstein, Baron Adolf Marschall (69), German diplomat, Badenweiler, Baden, September 24.
- Von Hahnke, Wilhelm (79), German Field Marshal, Berlin, Germany, February 8.
- Von Radowitz, Baron Joseph M. (73), German diplomat, Berlin, Germany, January 16.
- Walker, Daniel S. (75), journalist, Civil War General, Hoboken, N. J., June 4.
- Waller, Florence (50), actress, London, England, November 14.
- Warren, Henry W. (81), Bishop of the Methodist Episcopal Church, pneumonia, Denver, Col., July 23.
- Washburn, William Drew (81), flour manufacturer, former United States Senator from Minnesota, Minneapolis, Minn., July 29.
- Weaver, James Baird (79), People's Party Presidential candidate in 1880, Des Moines, Iowa, February 6.
- Wedmann, Louis, chess expert, Chicago, Ill., November 24.
- Welch, Albert, aviator, biplane accident, Washington, D. C., June 11.
- Wells, Almond B. (70), Brigadier-General, U. S. A. (retired), Washington, D. C., September 7.
- White, Sir George Stuart (77), Field Marshal, British Army, London, England, June 24.
- Wickliffe, Robert C. (38), Representative in Congress from Louisiana, railroad president, Washington, D. C., June 11.
- Wiley, Aquila (80), Brigadier-General, U. S. A. (retired), June 5.
- Wilson, James E. (52), actor, tuberculosis, New York City, March 19.
- Wilson, John L. (62), editor, former United States Senator from Washington State, angina pectoris, Washington, D. C., November 6.
- Winans, Ross R. (62), millionaire financier, debility, Baltimore, Md., April 25.
- Wright, Wilbur (45), inventor of the aeroplane, typhoid fever, Dayton, Ohio, May 30.
- Yeaman, Annie (77), actress, paralysis, New York City, March 3.
- Young, Lucien (60), Rear-Admiral, U. S. N., internal hemorrhages, New York City, October 2.

Perry's Victory Memorial and Centennial Celebration.

The commemoration of the one hundredth anniversary of Perry's victory on Lake Erie, by the erection of the Perry memorial at Put-In-Bay Island, Lake Erie, Ohio, and celebrations at that historic spot and in eleven cities during the Summer of 1913, from the Fourth of July to the fifth of October, is destined to become one of the greatest patriotic and educational enterprises ever undertaken in this or any other country. The movement began with legislation by the State of Ohio three years ago, since which time ten States have combined in it, as follows: Ohio, Pennsylvania, Michigan, Illinois, Wisconsin, New York, Rhode Island, Kentucky, Minnesota and Louisiana. These States have appointed commissioners, who, with the United States Commissioners appointed by President Taft, by authority of Congress, are organized under the name of the Interstate Board of the Perry's Victory Centennial Commissioners, with headquarters at Cleveland, Ohio. The general officers are: President-General, George H. Worthington, of Cleveland; First Vice-President-General, Henry Watterson, of Louisville, Ky.; Secretary-General, Webster P. Huntington, of Cleveland; Treasurer-General, A. E. Sisson, of Erie, Pa., and Auditor-General, Harry Cutler, of Providence, R. I. The United States Commissioners are Lieut.-Gen. Nelson A. Miles, U. S. A., Ret.; Rear-Admiral Charles E. Clark, U. S. N., Ret., and Gen. J. Warren Keffer, of Ohio. There are fifty-seven commissioners in all. Various States and the National Government have thus far appropriated \$508,000 for the memorial and celebration, and it is expected that not less than \$1,500,000 will be realized in all for both purposes.

The design for the Perry memorial was adopted in an open competition, said by competent authority to have been the largest ever held in this country. The award was made by the National Commission of Fine Arts at Washington, and the successful architects are Messrs. J. H. Freedlander and A. D. Seymour, Jr., of New York City. The memorial will cost approximately \$1,000,000, and will consist of a Doric column 367 feet high, in the centre of an immense plaza more than 700 feet long and 500 feet wide, at one extremity of which will be an historical museum containing a floor space of 3,000 square feet, and at the other a building emblematic of the 100 years of peace that have ensued between Great Britain and the United States since the war of 1812. It is also proposed to emphasize the international peace idea in all the centennial ceremonies, at Put-In-Bay and elsewhere.

Representatives of the various cities which will hold local celebrations during the Summer of 1913, acting as a joint committee, have agreed upon the following schedule of dates: Put-In-Bay (formal opening, one day only), July 4; Erie, Pa., week of July 6; Cleveland, week of July 13; Detroit, week of July 20; Toledo, week of July 27; Milwaukee and Green Bay, Wis., week of August 10; Chicago, week of August 17; Buffalo, week of September 1; Lorain, Ohio, September 5 and 6; Sandusky, Ohio, September 8, 9, 11 and 12; Put-In-Bay, September 10 and 13; Louisville, Ky., week of September 29.

The Interstate Board has organized a bureau of public subscriptions under the direction of Commissioner MacKenzie R. Todd, of Kentucky, with headquarters in the general offices at Cleveland, thus affording the public an opportunity to share directly in the construction of the memorial and the various patriotic and educational celebrations contemplated during the Summer of 1913.

San Diego Panama-California Exposition in 1915.

SAN DIEGO, California, has raised \$3,500,000 for a Panama-California Exposition to be held throughout the entire year of 1915. It is an exposition intended to especially exploit the resources, opportunities for development and possibilities for immigration, colonization and commerce of the Western States of the United States. It will be international in scope, and will have exhibits from all of the countries of the two Americas and from some of the European and Oriental countries. U. S. Grant, Jr., John D. Spreckels, Lyman D. Gage, A. G. Spalding, D. C. Collier, and other men of prominence are behind the enterprise. The President is Colonel D. C. Collier, of San Diego, and the Secretary is Winfield Hogaboon, of San Diego.

One of the spectacular features will be an elaborate exhibit showing the progress of man from primitive times down to 1915. Another great feature will be a floral and horticultural display with immense botanical gardens and groups of citrus and deciduous fruit trees in bearing, and an immense lath house—the largest ever built in the world—covered with flowering vines and surrounded by all of the tropical trees, plants and shrubs that are known to the botanical experts. There will be a special exhibit of such things as irrigation, reforestation, reclamation and all of the things that enter into the development of the West.

A number of States have already furnished appropriations for participation, and nearly one million dollars has been spent upon the grounds, which are embraced within an immense fourteen hundred-acre park, known as "Balboa Park," and lying in the very heart of the city of San Diego.

San Diego offers as a reason for holding this exposition in 1915, the fact that it is the first port of entry on United States soil north of the Pacific opening of the Panama Canal, and she desires to demonstrate to the world what possibilities lie in the vast region tributary to her as a commercial seaport, as well as what avenues of commerce may be developed with the countries North and South on the Pacific Coast, and with the Orient.

The exposition in its entirety will cost \$10,000,000, or more.

National Corn Exposition.

ORGANIZED and held annually under the direction of the National Corn Association. Association officers are: E. D. Funk, Shirley, Ill., President; E. G. Montgomery, Ithaca, N. Y., First Vice-President; George H. Stevenson, Columbia, S. C., Secretary and Treasurer and General Manager of the exposition. About thirty States are represented by Vice-Presidents.

The National Corn Exposition has been held four times. The first was in Chicago, 1907; the second and third in Omaha, Neb., in 1908 and 1909; and the fourth in Columbus, Ohio, 1911. The Fifth National Corn Exposition will be held at Columbia, S. C., January 27 to February 8, 1913. The headquarters of the exposition is this year at Columbia.

The slogan of the National Corn Exposition is the "Betterment of Agriculture." The exposition is composed of three prominent factors, (1) Educational exhibits from twenty-five to thirty State agricultural colleges and experiment stations, demonstrating experimental work, and principles and facts in agriculture. (2) Competitive exhibits from thirty or more States, selected from State contests. (3) Comprehensive and complete educational exhibits from the Federal Department of Agriculture, devoted to many phases of agricultural endeavor.

Three trophies are awarded, (1) Indiana Ten Ear Trophy, for best ten ears of corn, value \$1,000. (2) Colorado Oat Trophy, for best peck of oats, value \$1,500. (3) Kellogg Single Ear Trophy, for best single ear, value \$1,000.

Celebration of One Hundred Years of Peace.

It is proposed to celebrate in 1914-1915 the centennial of the Treaty of Ghent, marking one hundred years of peace between the United States and Great Britain. The matter was first discussed at the Harvard University Commencement of 1909, when the Hon. W. L. King, Minister of Labor of Canada, urged that a memorial be erected on the frontier at Niagara. Subsequently it was discussed at the Mohonk Peace Conference in May, 1910, and at a meeting on June 10 a temporary committee on organization, which later was made permanent, chose Andrew Carnegie Chairman; William H. Short, Secretary, 507 Fifth Avenue, New York City, and John A. Stewart, Chairman of an Executive Committee. Mayor Gaynor, of New York, in November, 1911, at the request of the Executive Committee, appointed a committee of arrangements composed of 136 prominent citizens to prepare for a celebration in the city of New York. Among the members of this committee are J. Pierpont Morgan, Chairman; August Belmont, John Claflin, George B. Cortelyou, John Drew, Cardinal Farley, Asa Bird Gardiner, George W. Perkins, William Rockefeller, Thomas F. Ryan, Nathan Straus, Henry W. Taft, Cornelius Vanderbilt, W. K. Vanderbilt, Charles F. Murphy and Harry Payne Whitney.

The National Committee, of which Andrew Carnegie is Chairman, will act in conjunction with similar organizations in Great Britain, Canada and other parts of the English-speaking world. A number of suggestions have been made regarding the nature of permanent memorials. One proposes a monument in the form of a water-gate to be erected at Detroit, Mich., and Windsor, Ont., on the American and Canadian sides of the Detroit River; another that an arch be placed on the Canadian frontier over the New York to Montreal Highway, now being constructed. It has also been advocated that a building be erected in the city of New York to be dedicated to the cause of peaceful progress in which international congresses and public meetings can be held.

A suggestion is made by Senator and ex-Secretary of State Elihu Root that for a given five minutes on February 15, 1915, the anniversary of the ratification by the British and American Governments of the treaty signed at Ghent, all human activities, so far as possible, shall absolutely cease, and that the 150,000,000 English-speaking people throughout the world "shall engage in silent prayer and contemplation."

Panama-Pacific International Exposition in 1915.

THIS Universal Exposition at San Francisco in 1915 is a distinctly national undertaking, determined upon by the Congress of the United States, and designated by the President of the United States, for the purpose of celebrating the opening of the Panama Canal, a national accomplishment that importantly affects the entire world. The exposition will open February 20 and close December 4, 1915—a period of nine months and thirteen days, extending from Winter to Winter. In assuming the burden and expense of this mammoth celebration in response to the call of the President and Congress, the people of California are discharging an important public duty and executing a national trust, the accruing benefits of which will be shared by every State in the Union and by the entire citizenship of the nation.

While this great inter-hemisphere waterway is a national project, it is nevertheless a world's asset, and the celebration of its opening will be participated in by all countries and all peoples. The exposition will constitute an international concourse of tremendous significance in its effect upon the natural productivity and commercial activity of all countries, and of the United States in particular.

In February, 1912, President Taft issued a proclamation announcing the holding of this great exposition and inviting the nations of the world to take part. He has also invited the representatives of foreign nations and their fleets to assemble in the harbor of Hampton Roads, Virginia, and proceed thence to Washington for a formal welcome by the President of the United States, who will accompany them back to Hampton Roads for a review of the assembled fleets as they start on their voyage via the Panama Canal to San Francisco. Within only eight months of the issuance of the President's invitation an unprecedented record had been established by the acceptance of twenty-one foreign countries, which declared their intention to participate. In a like period thirty-one States and Territories had also accepted the invitation to take part.

On October 14, 1911, in the presence of a great multitude, President Taft turned the first spadeful of earth at San Francisco for the exposition. The President, the Governor of California and the Mayor of San Francisco delivered addresses. The vessels of the Pacific fleet in the harbor joined in the celebration, and there was an extended military parade in the streets.

The exposition grounds contain 625 acres in the "Harbor View" section, forming a natural amphitheatre overlooking San Francisco Bay and its "Golden Gate" entrance from the Pacific. These grounds include part of the United States military reservations—the Presidio on one end and Fort Mason on the other. The grounds extend over two miles on the water front and are one-half mile wide. The exhibit palaces and temporary structures will be placed on leased land, while the foreign and State buildings will be located in the Presidio section. The exposition management will also erect a spacious auditorium of permanent character on land provided by the municipality in San Francisco's new civic centre at Van Ness Avenue and Market Street.

By July, 1913, each of the great exhibit palaces of the main group of exposition buildings will be under construction, and all of them will be completed before July, 1914—eight months in advance of the opening of the exposition. This will afford ample time for the setting and growth of the trees, shrubs, and vines which will be transplanted upon the exposition grounds. This early start in construction of the exposition will give it an incalculable advantage and greatly contribute to its prestige and success. It will serve to stimulate the entire work which is now, in all the important phases, relatively much further advanced than at other world's expositions. The construction to be undertaken by the various foreign countries and States of the Union will undoubtedly keep pace with the progress made upon the exhibit palaces.

The citizens of San Francisco subscribed \$7,000,000, and additional sums have been pledged. The State of California appropriated \$5,000,000, and the Municipal Government of San Francisco \$5,000,000, to the general fund of the exposition management. The fifty-eight counties of California are raising several million dollars for their individual representation on an elaborate scale. Large sums will likewise be expended by foreign countries and States of the Union for their official participation, and vast sums will also be spent by industrial and other concerns for private exhibits. The grand total will constitute an expenditure approximating \$50,000,000 for the Universal Exposition of 1915.

Celebration of the Three Hundredth Anniversary 653

OF THE SETTLEMENT OF MANHATTAN ISLAND, NEW YORK.

Manhattan Island was first settled by the Dutch in November, 1613, on a spot now covered by No. 41 Broadway. It is proposed to celebrate the three hundredth anniversary of this event, beginning in the summer of 1913 by a commercial, artistic and floral display, with a world's series of aquatic and other athletic sports, carnivals of various kinds and conventions of business and professional organizations. Mayor Gaynor has promised to appoint a committee of one hundred citizens to prepare for this celebration. Among the prominent citizens interested are President John Aspergen, of the New York Produce Exchange; President E. E. Martin, of the Merchants and Manufacturers' Exchange; President Luigi Solarli, of the Italian Chamber of Commerce; President William A. Camp, of the New York Fruit Exchange; President William N. Taylor, of the Maritime Association of the Port of New York; President Edmund Wetmore, of the Sons of the Revolution of New York; President Henry L. Bogart, of the Holland Society and E. H. Gary, Chairman of the Executive Committee of the United Steel Corporation.

National Rivers and Harbors Congress.

THE objects of this Congress shall be collection, preparation and presentation to the Congress of the United States such statistics and other information bearing upon the question of the improvement of the rivers and harbors of all the Nation as will secure for such purpose an annual appropriation by the said Congress of not less than fifty million dollars. To educate the people to the importance of the fact that the National Government, having assumed the control and improvement of the rivers and harbors of the country, is unequivocally bound to discharge these obligations promptly and by sound business methods, chief among which is the placing of annual appropriations for rivers and harbors on a parity with other great appropriation bills.

The membership of this Congress shall consist of commercial, manufacturing and kindred organizations, waterway improvement associations, corporations, companies, and individual citizens engaged or interested in commercial or industrial enterprises, who may subscribe to this constitution and contribute to the support and prosecution of the objects of the Congress. *President*—Hon. Joseph E. Ransdell, Lake Providence, La.

Food Facts in New York City.

THE New York State Food Investigating Commission's estimate in August, 1912, of the approximate quantities and retail values of some main food products annually consumed in New York City:

<table border="0" style="width: 100%; border-collapse: collapse;"> <tr><td>1. Beef and other meat food products—880,000,000 pounds at 20c.</td><td style="text-align: right;">\$176,000,000</td></tr> <tr><td>2. Dried cod.	07.0	15.0	114.2				

The higher the wholesaler's price the less the retailer's margin, the commission finds. It also points out the disproportionate profit on perishable stuff.

Game Laws of the

CLOSE SEASON FOR GAME

The following table shows the close season for all game in the United States, with the exception of mountain sheep and goat and a few unimportant species. Where no dates are given kind of game does not exist, or close season at all times. Local laws, where operative, should be consulted. The first date of the close season and the first date of the open season are given.

1 Elk only. 2 Cow and calf moose, all year. 3 Moose, caribou, bison or Buffalo, all the year. 4 Prairie chicken, close season all year. Oklahoma, Nov. 1-Sept. 1; Oregon, Oct. 15-Sept. 1. 5 Snipe—California, May 1-Nov. 15. Louisiana, Apr. 1-Sept. 15; New Hampshire, Dec. 1-Oct. 1; Pennsylvania, May 1-Sept. 1. 6 Female protected all the year. 7 Moose and antelope, males only, elk until 1915. 8 Rail—Connecticut, Jan. 1-Sept. 12. 9 Deer raised in private preserves may be killed at any time. 10 Certain species. 11 Deer raised in inclosure for market may be killed Oct. 1-Feb. 1. 12 Local exceptions. 14 Except Fentress County, Dec. 1-Jan. 1. 15 Plover—Kansas, May 1-Aug. 1; Missouri, Jan. 1-Sept. 1; Nebraska, Sept. 1-July 15; Except July. 19 Except Mar. 1-April 21; Sundays and Mondays are also closed seasons for ducks and other waterfowl. 21 Swan, all year; Duck, Jan. 1-Sept. 1. 23 Except June 15-Sept. 15. 27 Between Dec. 1 and Jan. 15 hunting with dog and ferret only. 28 Cock pheasant may be killed Nov. 1-Feb. 1, under permit. 29 Residents of the State may kill rabbits on their own land at any time. 30 Except July 1 to Sept. 2. Prohibitory laws against hunting doves and robins exist in nearly all States. Sale of game during close season is prohibited in most States. License fees from non-residents required in some States.

(a) Female deer and elk and deer without horns protected at all times. (b) Except deer without horns. Non-resident not permitted to kill. (d) Game animals or birds may be killed at any time for food or clothing by native Indians or Esquimaux, or by miners or explorers in need of food, but game so killed can not be shipped or sold.

*NEW YORK. Dates for deer hunting apply to Adirondack region only; rest of State no open season. (Exceptions). Ulster, Orange and Sullivan Counties, Nov. 16-Nov. 1. Fawns at all times. Hunting with dogs, traps, or devices of any kind prohibited.

WILD BIRDS—Catching, killing, or the possession of live or dead, and robbing of nests prohibited at all times—except English sparrow, crane, hawk, crow, owl, and blackbird.

Hunting and shooting on Sunday prohibited. Export of game or birds taken in the State is prohibited.

FISH LAWS, NEW YORK STATE, OPEN SEASON.

Trout—May 1 to August 31. Minimum length, six inches. Not more than ten pounds of trout may be taken or transported by one person in one day. Trout must not be taken by any other method than angling.

Several States, 1913.

IN THE UNITED STATES.

Open season may be found by reversing dates. The difficulty of securing absolute accuracy in a table of this kind is very great, and absence in laws of many States of express legislation as to inclusion or exclusion of date upon which seasons open and close makes exactness almost an impossibility. Compiled and corrected to October 1, 1912.

Lake Trout and Whitefish.—Lake trout not less than fifteen inches in length, and whitefish not less than twelve inches in length, may be taken and possessed from April 1 to September 30, both inclusive. Osego whitefish, commonly called Otsego bass, not less than nine inches in length, may be taken and possessed from January 1 to October 31, both inclusive. A person may take by angling not to exceed ten lake trout in one day, but whenever two or more persons are angling from the same boat they may take not to exceed fifteen in one day. Whitefish may be taken in any number or quantity. Lake trout and whitefish may be taken in Lakes Erie and Ontario in any number or quantity at any time, and when so taken may be possessed.

Black Bass.—June 16 to November 30, inclusive. Minimum length, ten inches. Limit per day to one person, fifteen; to a boat, two or more persons twenty-five; bass must not be taken by any other method than angling.

Pickereel and Pike.—May 1 to March 1, inclusive. Pike, minimum length, ten inches. Pickereel, minimum length (St. Lawrence River), twenty inches.

Pike Perch.—Not less than twelve inches in length may be taken and possessed in any number or quantity from May 1 to March 1, both inclusive.

Maselonge.—June 16 to December 31, inclusive. Must not be taken through the ice. Minimum length, twenty-four inches.

Striped Bass less than twelve inches in length shall not be intentionally taken or possessed.

Smelt or Icefish.—Smelt or icefish not less than six inches in length may be taken from the inland waters of the State in any number or quantity at any time.

Frogs.—Bullfrogs, green frogs and spring frogs, may be taken in any manner, possessed, bought and sold from June 1 to March 31, both inclusive. They shall not be taken, possessed, bought or sold at any other time.

(Long Island, Open Season.)
Trout.—April 1 to August 31, inclusive.
Rainbow Trout.—April 16 to September 30, inclusive.

NOTE.—The State Fish and Game Laws apply where not in conflict with the Long Island provisions.

* Population of Registration London in 1911, was: 4,522,964, and with metropolitan and city police districts, 7,252,963. Population of Greater New York and its Westchester and New Jersey suburbs in 1910 was 6,501,178. † Estimated population with suburbs by provisional count 1910 was 3,400,000. ‡ With suburbs. § American Consul Report.

Note.—The population of Chinese cities other than Canton, Peking, and Shanghai is omitted, because reports respecting it are utterly untrustworthy. There are forty or more Chinese cities whose inhabitants are numbered by rumor at from 200,000 to 1,000,000 each, but no official censuses have ever been taken, and setting aside consideration of the Oriental tendency to exaggeration, there is reason to believe that the estimates of population in many instances covered districts of country bearing the same names as the cities, instead of definite municipalities.

Population of the United States

* Total population, including population of Indian Territory and Indian reservations, which were specially enumerated in 1890.

† Decrease.

‡ Includes the population of Indian Territory, which was 392,060 in 1900 and 180,182 in 1890.

Urban and Rural Population of United States.

THE Census Bureau, for purposes of discussion, has defined urban population generally as that residing in cities and other incorporated places of 2,500 inhabitants or more.

STATE OR TERRITORY.	URBAN TERRITORY IN 1910.			RURAL TERRITORY IN 1910.			Total. 1910.

Sex Distribution of the Population of the United States.

(Preliminary Thirteenth Census Statistics Issued by the Census Bureau, October 11, 1912.)

THE population of the United States (exclusive of Alaska, Hawaii, Porto Rico and other non-contiguous possessions) comprised in 1910, according to the last Federal Census, 47,332,277 males and 44,639,989 females, or 106 males to every 100 females; in 1900 there were 104.4 males to every 100 females. These figures are contained in a statement issued by Director Durand of the Bureau of the Census, Department of Commerce and Labor. The figures are preliminary and subject to revision.

In the negro population males are outnumbered by females in a ratio of 98.9 to 100. Among the Chinese in this country males outnumber females by more than 14 to 1, and among the Japanese by about 7 to 1. The Indians show a small excess of males, 103.5 to 100 females.

In most European countries females outnumber males; the number of males to 100 females according to recent censuses being 93.6 in England, 96.7 in France, 96.9 in the German Empire, 96.4 in Switzerland, 99 in Italy, 96.7 in Austria, 99.1 in Hungary, and 98.9 in Russia.

Males increased more rapidly than females in the United States from 1900 to 1910. The former increased 21.9 per cent.; females 20.1 per cent. Little change occurred in the sex ratio for the native population, but among the foreign-born white the number of males per 100 females increased from 117.4 in 1900 to 129.2 in 1910.

Tabular summaries follow showing sexes by divisions and States for the total population (Table 1); and by divisions and by States of the Southern divisions for whites and negroes separately (Table 2), and by principal cities for the total population (Table 3):

Foreign-Born White Males of Voting Age IN CONTINENTAL UNITED STATES, AND THE NUMBER WHO ARE NATURALIZED.

PRELIMINARY THIRTEENTH CENSUS STATISTICS ISSUED BY THE CENSUS
BUREAU OCTOBER 7, 1912.

ACCORDING to the last census, taken as of April 15, 1910, the number of foreign-born white males of voting age, that is, 21 and over, in the United States (not including Alaska, Hawaii, Porto Rico, or other outlying territory) was 6,646,817. Of this number, 3,034,117, or 45.6 per cent., were naturalized.

The following summary table shows the distribution of these foreign-born white males by divisions, with the number and percentage naturalized for each division:

DIVISION.	FOREIGN-BORN WHITE MALES, 21 YEARS OF AGE AND OVER.			
	Total.	Per Cent. in each Division.	Naturalized.	Per Cent. Naturalized.
United States*.....	6,646,817	100.0	3,034,117	45.6
The North.....	5,511,869	82.9	2,526,749	45.8
New England.....	796,847	12.0	323,994	40.7
Middle Atlantic.....	2,272,271	34.2	879,348	38.7
East North Central.....	1,573,343	23.7	812,489	51.6
West North Central.....	869,408	13.1	510,918	58.8
The South.....	368,913	5.6	157,854	42.8
South Atlantic.....	150,665	2.3	61,134	40.6
East South Central.....	46,308	0.7	25,955	56.0
West South Central.....	171,940	2.6	70,765	41.2
The West.....	766,035	11.5	349,514	45.6
Mountain.....	257,537	3.9	113,670	44.1
Pacific.....	508,498	7.7	235,844	46.4

* Exclusive of Alaska, Hawaii, Porto Rico and all other outlying territory.

Approximately nine-tenths (89.4 per cent.) of the foreign-born white males of voting age were of European origin, 9.8 per cent. were natives of American countries other than the United States, and 0.8 per cent. were natives of other countries. Very nearly one-half (3,310,930) were natives of the countries grouped in the accompanying table under the heading "Northwest Europe," and of these approximately two-thirds (2,151,421, or 65 per cent.) were naturalized. Of the 2,631,458 natives of the countries comprising the southern and eastern divisions of Europe, taken together, 581,306, or 22.1 per cent., were naturalized. The countries of low percentages in the table are generally countries from which recent immigration has largely come, the lowness of the percentages being partially due to the fact that naturalization implies a minimum residence within the country of five years.

PLACE OF BIRTH.	FOREIGN-BORN WHITE MALES, 21 YEARS OF AGE AND OVER.			PLACE OF BIRTH.	FOREIGN-BORN WHITE MALES, 21 YEARS OF AGE AND OVER.		
	Total.	Naturalized.			Total.	Naturalized.

Commission Government of Cities in United States.

The government of a city by a commission, instead of by a Mayor and other city officials, was first instituted in Galveston, Texas, in 1901. Its usual form provides for the election of a certain number of commissioners from the city at large, who, in turn, elect one of their number to act as Mayor and divide with each other the administration of the city departments. One commissioner may take charge of the police department, a second of the fire department, a third of the health department, and so on. A limited number of members of the commission, usually only five, has been the customary practice, in order to concentrate responsibility of government. Another object in limiting the number of commissioners is to secure a "short ballot." The commission movement has had added to it, in the case of some cities, the Initiative, the Referendum and the Recall. In some cases, no recognition is given to political primaries or political parties; candidates for the office of commissioner being nominated by certificate.

The cities which have adopted the commission form of government are as follows:

ALABAMA. Birmingham. Cordova. Hartsville. Huntsville. Mobile. Montgomery. Sheffield. Talladega. Tuscaloosa.	Anthony. Arkansas City Caldwell. Chanute. Cherryvale. Coffeeville. Council Grove. Dodge City. Emporia. Eureka. Girard. Holtan. Hutchinson. Independence. Iola. Junction City. Kansas City. Kingman. Leavenworth Manhattan. Marion. Neodesha. Newton. Olathe. Parsons. Pittsburg. Pratt. Appleton. Eau Claire. Janesville. Menominee. Oshkosh. Portage. Rice Lake. Superior. WYOMING. Sheridan.

* The act in relation to Pittsburgh passed by the Pennsylvania Legislature leaves the Mayor at the head of the city government and abolishes the Board of Aldermen, substituting a council of nine members. The Mayor, with approval of the council, selects the heads of administrative departments.

† Executive and legislative power lodged in the Mayor and four Commission Councilmen.

District of Columbia		July 16, 1790—Mar. 3, '91	Hawaii		April 30, 1900.
Alaska		July 27, 1868.			

* Date when admission took effect is given from U. S. Census reports. In many instances the act of admission by Congress was passed on a previous date.

NEW POSSESSIONS.—A government for Porto Rico was established by the Fifty-sixth Congress. The Philippines are under a provisional civil government, Guam and Tutuila under Governors, and the Isthmian Canal Zone under a Commission, all appointed by the President. Porto Rico is represented in the Congress of the United States by a Commissioner, and the Philippines by two Commissioners elected respectively by the people thereof.

JUSTICES OF THE SUPREME COURT.

The salaries of Justices of the Supreme Court are: First and Second Districts, \$17,500; remaining Districts, \$7,200; but non-resident Justices, sitting in the Appellate Divisions of the First and Second Departments, receive the same compensation as the Justices in those Departments; if assigned to duty in the First and Second Districts, other than in the Appellate Division, their additional compensation is \$10 per day.

Mayors of the City of New York.

BEFORE the Revolution the Mayor was appointed by the Governor of the Province; and from 1784 to 1820 by the Appointing Board of the State of New York, of which the Governor was the chief member. From 1820 to the amendment of the Charter, in 1830, the Mayor was appointed by the Common Council. In 1893 the term of the first Mayor of Greater New York (Van Wyck) began.

Treasurers of the United States.

CONTINENTAL TREASURER—The germ of the Treasury Department was planted when, on July 29, 1775, the Continental Congress appointed two Treasurers. The appointments were Michael Hillegas and George Clymer. The latter soon resigned to accept his seat as delegate to the Congress. Mr. Hillegas discharged the duties of Treasurer until September 11, 1789. The Treasury Department was organized under the act of September 2, 1789. Strictly speaking, it was reorganized, for the department, under various names, had been in existence since 1755. The Constitution went into effect March 4, 1789. Washington was inaugurated as the first President of the United States April 30, 1789. It will thus be seen that Mr. Hillegas was Treasurer for nearly five months after the inauguration of Washington, and for nine days after the Treasury Department was organized under the Constitution.

National Platforms of Political Parties in 1912.

NATIONAL PLATFORM OF THE DEMOCRATIC PARTY ADOPTED AT BALTIMORE, MD., JULY 2, 1912.

We, the representatives of the Democratic party of the United States, in national convention assembled, reaffirm our devotion to the principles of Democratic government formulated by Thomas Jefferson and enforced by a long and illustrious line of Democratic Presidents.

Tariff Reform—We declare it to be a fundamental principle of the Democratic party that the Federal Government, under the Constitution, has no right or power to impose or collect tariff duties except for the purpose of revenue, and we demand that the collection of such taxes shall be limited to the necessities of government, honestly and economically administered.

The high Republican tariff is the principal cause of the unequal distribution of wealth; it is a system of taxation which makes the rich richer and the poor poorer; under its operations the American farmer and the laboring man are the chief sufferers; it raises the cost of the necessities of life to them, but does not protect their product or wages. The farmer sells largely in free markets and buys almost entirely in the protected markets. In the most highly protected industries, such as cotton and wool, steel and iron, the wages of the laborers are the lowest paid in any of our industries. We denounce the Republican pretence on that subject and assert that American wages are established by competitive conditions and not by the tariff.

We favor the immediate downward revision of the existing high, and, in many cases, prohibitive tariff duties, insisting that material reductions be speedily made upon the necessities of life. Articles entering into competition with trust-controlled products and articles of American manufacture which are sold abroad more cheaply than at home, should be put upon the free list.

We recognize that our system of tariff taxation is intimately connected with the business of the country, and we favor the ultimate attainment of the principles we advocate by legislation that will not injure or destroy legitimate industry.

We denounce the action of President Taft in vetoing the bills to reduce the tariff in the cotton, woolen, metals and chemical schedules and the farmers' free list bill, all of which were designed to give immediate relief to the masses from the exactions of the trusts.

The Republican party, while promising tariff revision, has shown by its tariff legislation that such revision is not to be in the people's interest, and, having been faithless to its pledges of 1908, it should not longer enjoy the confidence of the Nation. We appeal to the American people to support us in our demand for a tariff for revenue only.

High Cost of Living—The high cost of living is a serious problem in every American home. The Republican party in its platform attempts to escape from responsibility for present conditions by denying that they are due to a protective tariff. We take issue with them on this subject and charge that excessive prices result in a large measure from the high tariff laws enacted and maintained by the Republican party and from trusts and commercial conspiracies fostered and encouraged by such laws, and we assert that no substantial relief can be secured for the people until import duties on the necessities of life are materially reduced and these criminal conspiracies broken up.

Anti-Trust Law—A private monopoly is indefensible and intolerable. We therefore favor the vigorous enforcement of the criminal as well as the civil law against trusts and trust officials, and demand the enactment of such additional legislation as may be necessary to make it impossible for a private monopoly to exist in the United States.

We favor the declaration by law of the conditions upon which corporations shall be permitted to engage in interstate trade, including, among others, the prevention of holding companies, of interlocking directors, of stock watering, of discrimination in price, and the control by any one corporation of so large a proportion of any industry as to make it a menace to competitive conditions.

We condemn the action of the Republican Administration in compromising with the Standard Oil Company and the Tobacco Trust and its failure to invoke the criminal provisions of the anti-trust law against the officers of those corporations after the court had declared that, from the undisputed facts in the record, they had violated the criminal provisions of the law.

We regret that the Sherman Anti-Trust law has received a judicial construction depriving it of much of its efficacy, and we favor the enactment of legislation which will restore to the statute the strength of which it has been deprived by such interpretation.

Rights of the States—We believe in the preservation and maintenance in their full strength and integrity of the three co-ordinate branches of the Federal Government—the executive, the legislative, and the judicial—each keeping within its own bounds, and not encroaching upon the just powers of either of the others.

Believing that the most efficient results under our system of government are to be attained by the full exercise by the States of their reserved sovereign powers, we denounce as usurpation the efforts of our opponents to deprive the States of any of the rights reserved to them, and to enlarge and magnify by indirection the powers of the Federal Government.

We insist upon the full exercise of all the powers of the Government, both State and National, to protect the people from injustice at the hands of those who seek to make the Government a private asset in business. There is no twilight zone between the Nation and the State in which exploiting interests can take refuge from both. It is as necessary that the Federal Government shall exercise the powers reserved to them, but we insist that Federal remedies for the regulation of interstate commerce and for the prevention of private monopoly shall be added to, and not substituted for, State remedies.

Income Tax and Popular Election of Senators—We congratulate the country upon the triumph of two important reforms demanded in the last National platform, namely, the amendment of the Federal Constitution authorizing an income tax and the amendment providing for the popular election of Senators, and we call upon the people of all the States to rally to the support of the pending proposition and secure their ratification.

Publicity of Campaign Contributions—We note with gratification the unanimous sentiment in favor of publicity before the election of campaign contributions—a measure demanded in our National platform of 1908, and at that time opposed by the Republican party, and we commend the Democratic House of Representatives for extending the doctrine of publicity to recommendations, verbal and written, upon which Presidential appointments are made, to the ownership and control of newspapers and to the expenditures made by and in behalf of those who aspire to Presidential nominations, and we point for additional justification for this legislation to the enormous expenditures of money in behalf of the President and his predecessor in the recent Presidential contest for the Republican nomination for President.

Presidential Primaries—The movement toward more popular government should be promoted through legislation in each State which will permit the expression of the preference of the electors for National candidates at Presidential primaries.

We direct that the National Committee incorporate in the call for the next nominating convention a requirement that all expressions of preference for Presidential candidates shall be given and the selection of delegates and alternates made through a primary election conducted by the

party organization in each State where such expression and election are not provided for by State law. Committeemen who are hereafter to constitute the membership of the Democratic National Committee, and whose election is not provided for by law, shall be chosen in each State at such primary elections, and the service and authority of committeemen, however chosen, shall begin immediately upon the receipt of their credentials respectively.

Campaign Contributions—We pledge the Democratic party to the enactment of a law prohibiting any corporation from contributing to a campaign fund and any individual from contributing any amount above a reasonable maximum.

Term of President—We favor a single Presidential term, and to that end urge the adoption of an amendment to the Constitution making the President of the United States ineligible for reelection, and we pledge the candidate of this convention to this principle.

Record of the Democratic Congress—At this time, when the Republican party after a generation of unlimited power in its control of the Federal Government, is rent into factions, it is opportune to point to the record of accomplishment of the Democratic House of Representatives in the Sixty-second Congress. We indorse its action and we challenge comparison of its record with that of any Congress which has been controlled by our opponents.

We call the attention of the patriotic citizens of our country to its record of efficiency, economy and constructive legislation.

It has, among other achievements, revised the rules of the House of Representatives so as to give to the representatives of the American people freedom of speech and of action in advocating, proposing, and perfecting remedial legislation. It has passed bills for the relief of the people and the development of our country; it has endeavored to revise the tariff taxes downward in the interest of the consuming masses and thus to reduce the high cost of living; it has proposed an amendment to the Federal Constitution providing for the election of United States Senators by the direct vote of the people; it has secured the admission of Arizona and New Mexico as two sovereign States; it has required the publicity of campaign expenses, both before and after election, and fixed a limit upon the election expenses of United States Senators and Representatives.

It has also passed a bill to prevent the abuse of the writ of injunction; it has passed a law establishing an eight-hour day for workmen on all National public works; it has passed a resolution which forced the President to take immediate steps to abrogate the Russian treaty, and it has passed the great supply bills which lessen waste and extravagance and which reduce the annual expenses of the Government by many millions of dollars.

We approve the measure reported by the Democratic leaders in the House of Representatives for the creation of Council of a National Defence which will determine a definite naval programme with a view to increased efficiency and economy. The party that proclaimed and has always enforced the Monroe doctrine and was sponsor for the new navy will continue faithfully to observe the constitutional requirements to provide and maintain an adequate and well-proportioned navy sufficient to defend American policies, protect our citizens, and uphold the honor and dignity of the Nation.

Republican Extravagance—We denounce the profligate waste of money wrung from the people by oppressive taxation through the lavish appropriations of recent Republican Congresses, which have kept taxes high and reduced the purchasing power of the people's toil. We demand a return to that simplicity and economy which befits a democratic government and a reduction in the number of useless offices, the salaries of which drain the substance of the people.

Railroad, Express Companies, Telegraph and Telephone Lines—We favor the efficient supervision and rate regulation of railroads, express companies, telegraph and telephone lines engaged in interstate commerce. To this end we recommend the valuation of railroads, express companies, telegraph and telephone lines by the Interstate Commerce Commission, such valuation to take into consideration the physical value of the property, the original cost, the cost of reproduction, and any element of value that will render the valuation fair and just.

We favor such legislation as will effectually prohibit the railroads, express, telegraph and telephone companies from engaging in business which brings them into competition with the shippers or patrons, also legislation preventing the overissue of stocks and bonds by interstate railroads, express companies, telegraph and telephone lines, and legislation which will assure such reduction in transportation rates as conditions will permit, care being taken to avoid reduction that would compel a reduction of wages, prevent adequate service, or do injustice to legitimate investments.

Banking Legislation—We oppose the so-called Aldrich bill, or the establishment of a Central bank, and we believe the people of the country will be largely freed from panics and consequent unemployment and business depression by such a systematic revision of our banking laws as will render temporary relief in localities where such relief is needed, with protection from control or domination by what is known as the Money Trust.

Banks exist for the accommodation of the public and not for the control of business. All legislation on the subject of banking and currency should have for its purpose the securing of these accommodations on terms of absolute security to the public and of complete protection from the misuse of the power that wealth gives to those who possess it.

We condemn the present methods of depositing Government funds in a few favored banks, largely situated in or controlled by Wall Street, in return for political favors, and we pledge our party to provide by law for their deposit by competitive bidding in the banking institutions of the country, National and State, without discrimination as to locality upon approved securities, and subject to the control of the Government.

Rural Credits—Of equal importance with the question of currency reform is the question of rural credits or agricultural finance. Therefore we recommend that an investigation of agricultural credit societies in foreign countries be made, so that it may be ascertained whether a system of rural credits may be devised suitable to conditions in the United States, and we also favor legislation permitting National banks to loan a reasonable proportion of their funds on real estate security.

We recognize the value of vocational education, and urge Federal appropriations for such training, and extension teaching in agricultural co-operation with the several States.

Waterways—We renew the declaration in our last platform relating to the conservation of our natural resources, and the development of our waterways. The present devastation of the Lower Mississippi Valley accentuates the movement for the regulation of river flow by additional bank and levee protection below, and the diversion, storage and control of the flood waters above, and their utilization for beneficial purposes in the reclamation of arid and swamp lands, and development of waterpower, instead of permitting the floods to continue as heretofore, agents of destruction.

We hold that the control of the Mississippi River is a National problem; the preservation of the depth of its waters for the purpose of navigation, the building of levees to maintain the integrity of its channel, and the prevention of the overflow of the land and its consequent devastation, resulting in the interruption of interstate commerce, the disorganization of the mail service, and the enormous loss of life and property, impose an obligation which alone can be discharged by the general government.

To maintain an adequate depth of water the entire year, and thereby encourage water transportation, is a consummation worthy of legislative attention and presents an issue National in its

character. It calls for prompt action on the part of Congress, and the Democratic party pledges itself to the enactment of legislation leading to that end.

We favor the co-operation of the United States and the respective States in plans for the comprehensive treatment of all waterways, with a view of co-ordinating plans for channel improvement with plans for drainage of swamps and overflowed lands, and to this end we favor the appropriation by the Federal Government of sufficient funds to make surveys of such lands, to develop plans for drainage of such lands, and to supervise the work of construction.

We favor the adoption of a liberal and comprehensive plan for the development and improvement of our inland waterways, with economy and efficiency, so as to permit their navigation by vessels of standard draught.

Post Roads—We favor National aid to State and local authorities in the construction and maintenance of post roads.

Rights of Labor—We repeat our declarations of the platform of 1908, as follows:

"The courts of justice are the bulwarks of our liberties, and we yield to none in our purpose to maintain their dignity. Our party has given to the bench a long line of distinguished justices who have added to the respect and confidence in which this department must be jealously maintained. We resent the attempt of the Republican party to raise a false issue respecting the judiciary. It is an unjust reflection upon a great body of our citizens to assume that they lack respect for the courts.

"It is the function of the courts to interpret the laws which the people enact, and if the laws appear to work economical, social or political injustice, it is our duty to change them. The only basis upon which the integrity of our courts can stand is that of unswerving justice and protection of life, personal liberty and property. If judicial processes may be abused, we should guard them against abuse.

"Experience has proved the necessity of a modification of the present law relating to injunction, and we reiterate the pledges of our platforms of 1896 and 1904 in favor of a measure which passed the United States Senate in 1896, relating to contempt in Federal Courts and providing for trial by jury in cases of indirect contempt.

"Questions of judicial practice have arisen, especially in connection with industrial disputes. We believe that the parties to all judicial proceedings should be treated with rigid impartiality and that injunctions should not be issued in any case in which an injunction would not issue if no industrial dispute were involved.

"The expanding organization of industry makes it essential that there should be no abridgement of the right of the wage-earners and producers to organize for the protection of wages and the improvement of labor conditions, to the end that such labor organizations and their members should not be regarded as illegal combinations in restraint of trade."

We pledge the Democratic party to the enactment of a law creating a Department of Labor, represented separately in the President's Cabinet, in which department shall be included the subject of mines and mining.

We pledge the Democratic party, so far as the Federal jurisdiction extends, to an employees' compensation law providing adequate indemnity for injury to body or loss of life.

Conservation of National Resources—We believe in the conservation and the development, for the use of all the people, of the natural resources of the country. Our forests, our sources of water supply, our arable and our mineral lands, our navigable streams, and all the other material resources with which our country has been so lavishly endowed, constitute the foundation of our National wealth. Such additional legislation as may be necessary to prevent their being wasted or absorbed by special or privileged interests should be enacted and the policy of their conservation should be rigidly adhered to.

The public domain should be administered and disposed of with due regard to the general welfare. Reservations should be limited to the purposes which they purport to serve and not extended to include land wholly unsuited thereto. The unnecessary withdrawal from sale and settlement of enormous tracts of public land, upon which tree growth never existed and cannot be promoted, tends only to retard development, create discontent, and bring reproach upon the policy of conservation.

The Public Lands—The public land laws should be administered in a spirit of the broadest liberality toward the settler exhibiting a bona fide purpose to comply therewith, to the end that the invitation of this Government to the landless should be as attractive as possible; and the plain provisions of the forest reserve act permitting homestead entries to be made within the National forests should not be nullified by administrative regulations which amount to a withdrawal of great areas of the same from settlement.

Immediate action should be taken by Congress to make available the vast and valuable coal deposits of Alaska under conditions that will be a perfect guaranty against their falling into the hands of monopolizing corporations, associations, or interests.

Our Mineral Resources—We rejoice in the inheritance of mineral resources unequalled in extent, variety or value, and in the development of a mining industry unequalled in its magnitude and importance. We honor the men who, in their hazardous toil underground, daily risk their lives in extracting and preparing for our use the products of the mines, so essential to the industries, the commerce, and the comfort of the people of this country. And we pledge ourselves to the extension of the work of the Bureau of Mines in every way appropriate for National legislation, with a view of safeguarding the lives of the miners, lessening the waste of essential resources, and promoting the economic development of mining, which, along with agriculture, must, in the future, even more than in the past, serve as the very foundation of our National prosperity and welfare and our international commerce.

Agriculture—We believe in encouraging the development of a modern system of agriculture and a systematic effort to improve the conditions of trade in farm products so as to benefit both the consumers and producers. And as an efficient means to this end we favor the enactment by Congress of legislation that will suppress the pernicious practice of gambling in agricultural products by organized exchanges or others.

Merchant Marine—We believe in fostering by constitutional regulation of commerce, the growth of a merchant marine, which shall develop and strengthen the commercial ties which bind us to our sister republics to the South, but without imposing additional burdens upon the people and without bounties or subsidies from the public treasury.

We urge upon Congress the speedy enactment of laws for the greater security of life and property at sea, and favor the repeal of all laws and the abrogation of so much of our treaties with other nations as provide for the arrest and imprisonment of seamen charged with desertion or with violation of their contract of service. Such laws and treaties are un-American, and violate the spirit, if not the letter, of the Constitution of the United States.

Panama Canal—We favor the exemption from tolls of American ships engaged in coastwise trade passing through the Panama Canal.

We also favor legislation forbidding the use of the Panama Canal by ships owned or controlled by railroad carriers engaged in transportation competitive with the canal.

Pure Food and Public Health—We reaffirm our previous declarations advocating the

union and strengthening of the various governmental agencies relating to pure foods, quarantine, vital statistics and human health. Thus united and administered without partiality to or discrimination against any school of medicine or system of healing, they would constitute a single health service, not subordinated to any commercial or financial interests, but devoted exclusively to the conservation of human life and efficiency. Moreover, this health service should co-operate with the health agencies of our various States and cities without interference with their prerogatives, or with the freedom of individuals to employ such medical or hygienic aid as they may see fit.

Civil Service Law—The law pertaining to the civil service should be honestly and rigidly enforced, to the end that merit and ability should be the standard of appointment and promotion, rather than service rendered to a political party; and we favor a reorganization of the civil service with adequate compensation commensurate with the class of work performed for all officers and employes; we also favor the extension to all classes of civil service employes of the benefits of the provisions of the Employers' Liability act; we also recognize the right of direct petition to Congress by employes for the redress of grievances.

Law Reform—We recognize the urgent need of reform in the administration of civil and criminal law in the United States, and we recommend the enactment of such legislation and the promotion of such measures as will rid the present legal system of the delays, expense and uncertainties incident to the system as now administered.

The Philippines—We reaffirm the position thrice announced by the Democracy in national convention assembled against a policy of Imperialism and colonial exploitation in the Philippines or elsewhere. We condemn the experiment in Imperialism as an inexcusable blunder which has involved us in enormous expense, brought us weakness instead of strength, and laid our Nation open to the charge of abandonment of the fundamental doctrine of self-government.

We favor an immediate declaration of the Nation's purpose to recognize the independence of the Philippine Islands as soon as a stable government can be established, such independence to be guaranteed by us until the neutralization of the Islands can be secured by treaty with other powers. In recognizing the independence of the Philippines, our Government should retain such land as may be necessary for coaling stations and naval bases.

Arizona and New Mexico—We welcome Arizona and New Mexico to the sisterhood of States, and heartily congratulate them upon their auspicious beginning of great and glorious careers. **Alaska**—We demand for the people of Alaska the full enjoyment of the rights and privileges of a territorial form of government, and we believe that the officials appointed to administer the Government of all our Territories and the District of Columbia should be qualified by previous bona fide residence.

The Russian Treaty—We commend the patriotism of the Democratic members of the Senate and House of Representatives which compelled the termination of the Russian Treaty of 1832, and we pledge ourselves anew to preserve the sacred rights of American citizenship at home and abroad. No treaty should receive the sanction of our Government which does not recognize that equality of all of our citizens, irrespective of race or creed, and which does not expressly guarantee the fundamental right of expatriation.

The constitutional rights of American citizens should protect them on our borders and go with them throughout the world, and every American citizen residing or having property in any foreign country is entitled to and must be given the full protection of the United States Government, both for himself and his property.

Parcels Post and Rural Delivery—We favor the establishment of a parcels post or postal express, and also the extension of the rural delivery system, as rapidly as practicable.

Panama Canal Exposition—We hereby express our deep interest in the great Panama Canal Exposition to be held in San Francisco in 1915, and favor such encouragement as can be properly given.

Protection of National Uniform—We commend to the several States the adoption of a law making it an offence for the proprietors of places of public amusement and entertainment to discriminate against the uniform of the United States similar to the law passed by Congress applicable to the District of Columbia and the Territories in 1911.

Pensions—We renew the declaration of our last platform relating to a generous pension policy.

Rule of the People—We call attention to the fact that the Democratic party's demand for a return to the rule of the people, expressed in the National platform four years ago, has now become the accepted doctrine of a large majority of the electors. We again remind the country that only by the larger exercise of the reserved power of the people can they protect themselves from the misuse of delegated power and the usurpation of governmental instrumentalities by special interests. For this reason the national convention insisted on the overthrow of Cannonism and the inauguration of a system by which United States Senators could be elected by direct vote. The Democratic party offers itself to the country as an agency through which the complete overthrow and extirpation of corruption, fraud and machine rule in American politics can be effected.

Our platform is one of principles which we believe to be essential to our National welfare. Our pledges are made to be kept when in office as well as relied upon during the campaign, and we invite the co-operation of all citizens, regardless of party, who believe in maintaining unimpaired the institutions and traditions of our country.

NATIONAL PLATFORM OF THE REPUBLICAN PARTY ADOPTED AT CHICAGO, ILL., JUNE 22, 1912.

The Republican party assembled by its representatives in national convention, declares its unchanging faith in government of the people, by the people, for the people. We renew our allegiance to the principles of the Republican party and our devotion to the cause of Republican institutions established by the fathers.

It is appropriate that we should now recall with a sense of veneration and gratitude the name of our first great leader, who was nominated in this city, and whose lofty principles and superb devotion to his country are an inspiration to the party he honored—Abraham Lincoln. In the present state of public affairs we should be inspired by his broad statesmanship and by his tolerant spirit toward men.

The Republican party looks back on its record with pride and satisfaction, and forward to its new responsibilities with hope and confidence. Its achievements in government constitute the most luminous pages in our history. Our greatest National advance has been made during the years of its ascendancy in public affairs. It has been genuinely and always a party of progress; it has never been either stationary or reactionary. It has gone from the fulfillment of one great pledge to the fulfillment of another in response to the public need and to the popular will.

Government of Laws, Not of Men—We believe in our self-controlled representative democracy, which is a government of laws, not of men, and in which order is the prerequisite of progress.

The principles of constitutional government, which make provision for orderly and effective expression of the popular will, for the protection of civil liberty and the rights of men, and for the

interpretation of the law by an untrammelled and independent judiciary, have proved themselves capable of sustaining the structure of a Government which, after more than a century of development, embraces 100,000,000 of people, scattered over a wide and diverse territory, but bound by common purpose, common ideals, and common affection to the Constitution of the United States.

Under the Constitution and the principles asserted and vitalized by it, the United States has grown to be one of the great civilized and civilizing powers of the earth. It offers a home and an opportunity to the ambitious and the industrious from other lands. Resting upon the broad basis of a people's confidence and a people's support, and managed by the people themselves, the Government of the United States will meet the problems of the future as satisfactorily as it has solved those of the past.

The Party's Programme—The Republican party is now, as always, a party of advanced and constructive statesmanship. It is prepared to go forward with the solution of those new questions which social, economic, and political development have brought into the forefront of the Nation's interest. It will strive, not only in the Nation but in the several States, to enact the necessary legislation to safeguard the public health; to limit effectively the labor of women and children; to protect wage-earners engaged in dangerous occupations; to enact comprehensive and generous workman's compensation laws in place of the present wasteful and unjust system of employers' liability, and in all possible ways to satisfy the just demand of the people for the study and solution of the complex and constantly changing problems of social welfare.

In dealing with these questions it is important that the rights of every individual to the freest possible development of his own powers and resources and to the control of his own justly acquired property, so far as those are compatible with the rights of others, shall not be interfered with or destroyed. The social and political structure of the United States rests upon the civil liberty of the individual; and for the protection of that liberty the people have wisely, in the National and State institutions, put definite limitations upon themselves and upon their governmental officers and agencies. To enforce these limitations, to secure the orderly and coherent exercise of governmental powers, and to protect the rights of even the humblest and least favored individual are the function of independent courts of justice.

To Uphold Courts—The Republican party reaffirms its intention to uphold at all times the authority and integrity of the courts, both State and Federal, and it will ever insist that their powers to enforce their process and to protect life, liberty and property shall be preserved inviolate. An orderly method is provided under our system of government by which the people may, when they choose, alter or amend the constitutional provisions which underlie that government. Until these constitutional provisions are so altered or amended in orderly fashion, it is the duty of the courts to see to it that when challenged they are enforced.

That the courts, both Federal and State, may bear the heavy burden laid upon them to the complete satisfaction of public opinion, we favor legislation to prevent long delays and the tedious and costly appeals which have so often amounted to a denial of justice in civil cases and to a failure to protect the public at large in criminal cases.

Since the responsibility of the judiciary is so great, the standards of judicial action must be always and everywhere above suspicion and reproach. While we regard the recall of judges as unnecessary and unwise, we favor such action as may be necessary to simplify the process by which any judge who is found to be derelict in his duty may be removed from office.

Together, with peaceful and orderly development at home, the Republican party earnestly favors all measures for the establishment and protection of the peace of the world and for the development of closer relations between the various nations of the earth. It believes most earnestly in the peaceful settlement of international disputes and in the reference of all justiciable controversies between nations to an international court of justice.

Monopoly and Privilege—The Republican party is opposed to special privilege and to monopoly. It placed upon the statute book the Interstate Commerce act of 1887, and the important amendments thereto, and the Anti-Trust act of 1890, and it has consistently and successfully enforced the provisions of these laws. It will take no backward step to permit the re-establishment in any degree of conditions which were intolerable.

Experience makes it plain that the business of the country may be carried on without fear or without disturbance and at the same time without resort to practices which are abhorrent to the common sense of justice. The Republican party favors the enactment of legislation supplementary to the existing Anti-Trust act, which will define as criminal offences those specific acts that uniformly mark attempts to restrain and to monopolize trade, to the end that those who honestly intend to obey the law may have a guide for their action and that those who aim to violate the law may the more surely be punished.

The same certainty should be given to the law prohibiting combinations and monopolies that characterizes other provisions of commercial law, in order that no part of the field of business opportunity may be restricted by monopoly or combination, that business success honorably achieved may not be converted into crime, and that the right of every man to acquire commodities, and particularly the necessities of life, in an open market, uninfluenced by the manipulation of trust or combination, may be preserved.

Federal Trade Commission—In the enforcement and administration of Federal laws governing interstate commerce and enterprises impressed with a public use engaged therein, there is much that may be committed to a Federal Trade Commission, thus placing in the hands of an administrative board many of the functions now necessarily exercised by the courts. This will promote promptness in the administration of the law and avoid delays and technicalities incident to court procedure.

The Tariff—We reaffirm our belief in a protective tariff. The Republican tariff policy has been of the greatest benefit to the country, developing our resources, diversifying our industries, and protecting our workmen against competition with cheaper labor abroad, thus establishing for our wage-earners the American standard of living. The protective tariff is so woven into the fabric of our industrial and agricultural life that to substitute for it a tariff for revenue only would destroy many industries and throw millions of our people out of employment. The products of the farm and of the mine should receive the same measure of protection as other products of American labor.

We hold that the import duties should be high enough, while yielding a sufficient revenue, to protect adequately American industries and wages. Some of the existing import duties are too high and should be reduced. Readjustment should be made from time to time to conform to changing conditions and to reduce excessive rates, but without injury to any American industry. To accomplish this correct information is indispensable. This information can best be obtained by an expert commission, as the large volume of useful facts contained in the recent reports of the Tariff Board has demonstrated. The pronounced feature of modern industrial life is its enormous diversification. To apply tariff rates justly to these changing conditions requires closer study and more scientific methods than ever before. The Republican party has shown by its creation of a Tariff Board its recognition of this situation and its determination to be equal to it. We condemn the Democratic party for its failure either to provide funds for the continuance of this board or to make some other provision for securing the information requisite for intelligent tariff legislation. We

protest against the Democratic method of legislating on these vitally important subjects without careful investigation.

We condemn the Democratic tariff bills passed by the House of Representatives of the Sixty-second Congress as sectional, as injurious to the public credit, and as destructive of business enterprise.

Cost of Living.—The steadily increasing cost of living has become a matter not only of National but of world-wide concern. The fact that it is not due to the protective tariff system is evidenced by the existence of similar conditions in countries which have a tariff policy different from our own, as well as by the fact that the cost of living has increased while rates of duty have remained stationary or been reduced. The Republican party will support a prompt scientific inquiry into the causes which are operative, both in the United States and elsewhere, to increase the cost of living. When the exact facts are known, it will take the necessary steps to remove any abuses that may be found to exist in order that the cost of the food, clothing, and shelter of the people may in no way be unduly or artificially increased.

Banking and Currency.—The Republican party has always stood for a sound currency and for safe banking methods. It is responsible for the resumption of specie payments, and for the establishment of the gold standard. It is committed to the progressive development of our banking and currency systems. Our banking arrangements to-day need further revision to meet the requirements of current conditions. We need measures which will prevent the recurrence of money panics and financial disturbances and which will promote the prosperity of business and the welfare of labor by producing constant employment. We need better currency facilities for the movement of crops in the West and South. We need banking arrangements under American auspices for the encouragement and better conduct of our foreign trade. In attaining these ends, the independence of individual banks, whether organized under National or State charters, must be carefully protected and our banking and currency system must be safeguarded from any possibility of domination by sectional, financial or political interests.

It is of great importance to the social and economic welfare of this country that its farmers have facilities for borrowing easily and cheaply the money they need to increase the productivity of their land. It is as important that financial machinery be provided to supply the demand of farmers for credit as it is that the banking and currency systems be reformed in the interests of general business. Therefore, we recommend and urge an authoritative investigation of agricultural credit societies and corporations in other countries, and the passage of State and Federal laws for the establishment and capable supervision of organizations having for their purpose the loaning of funds to farmers.

The Civil Service.—We reaffirm our adherence to the principle of appointment to public office based on proved fitness, and tenure during good behavior and efficiency. The Republican party stands committed to the maintenance, extension, and enforcement of the Civil Service law, and it favors the passage of legislation empowering the President to extend the competitive service as far as possible, the equitable retirement of disabled and superannuated members of the civil service, in order that a higher order of efficiency may be maintained.

Employers' Liability.—We favor the amendment of the Federal employé's liability law so as to extend its provision to all Government employés, as well as to provide a more liberal scale of compensation for injury and death.

Campaign Contributions.—We favor such additional legislation as may be necessary more effectually to prohibit corporations from contributing funds, directly or indirectly, to campaigns for the nomination or election of the President, the Vice-President, Senators and Representatives in Congress. We heartily approve the recent act of Congress requiring the fullest publicity in regard to all campaign contributions, whether made in connection with primaries, conventions or elections.

Conservation of Natural Resources.—We rejoice in the success of the distinctive Republican policy of the conservation of our natural resources, for their use by the people without waste and without monopoly. We pledge ourselves to a continuance of such a policy.

Acquisition of Public Lands.—We favor such fair and reasonable rules and regulations as will not discourage or interfere with actual bona fide homeseekers, prospectors, and miners in the acquisition of public lands under existing laws.

Parcels Post.—In the interest of the general public, and particularly of the agricultural or rural communities, we favor legislation looking to the establishment, under proper regulations, of a parcels post, the postal rates to be graduated under a zone system in proportion to the length of carriage.

Protection of American Citizens.—We approve the action taken by the President and the Congress to secure with Russia, as with other countries, a treaty that will recognize the absolute right of expatriation, and that will prevent all discrimination of whatever kind between American citizens, whether native born or alien, and regardless of race, religion, or previous political allegiance. The right of asylum is a precious possession of the people of the United States, and it is to be neither surrendered nor restricted.

The Navy.—We believe in the maintenance of an adequate navy for the National defence, and we condemn the action of the Democratic House of Representatives in refusing to authorize the construction of additional ships.

Merchant Marine.—We believe that one of the country's most urgent needs is a revived merchant marine. There should be American ships, and plenty of them, to make use of the great American interoceanic canal now nearing completion.

Flood Prevention in the Mississippi Valley.—The Mississippi River is the Nation's drainage ditch. Its flood-waters, gathered from thirty-one States and the Dominion of Canada, constitute an overpowering force which breaks the levees and pours its torrents over many million acres of the richest land in the Union, stopping mails, impeding commerce, and causing great loss of life and property. These floods are National in scope, and the disasters they produce seriously affect the general welfare. The States unaided cannot cope with this giant problem; hence, we believe the Federal Government should assume a fair proportion of the burden of its control so as to prevent the disasters from recurring.

Reclamation of Arid Lands.—We favor the continuance of the policy of the Government with regard to the reclamation of arid lands, and for the encouragement of the speedy settlement and improvement of such lands; we favor an amendment to the law that will reasonably extend the time within which the cost of any reclamation project may be repaid by the landowners under it.

Rivers and Harbors.—We favor a liberal and systematic policy for the improvement of our rivers and harbors. Such improvements should be made upon expert information and after a careful comparison of cost and prospective benefits.

Alaska.—We favor a liberal policy toward Alaska, to promote the development of the great resources of that district, with such safeguards as will prevent waste and monopoly. We favor the opening of the coal lands to development through a law leasing the lands on such terms as will invite development and provide fuel for the navy and the commerce of the Pacific Ocean, while retaining title in the United States to prevent monopoly.

Porto Rico.—We ratify in all its particulars the platform of 1908 respecting citizenship for the people of Porto Rico.

Philippine Policy—The Philippine policy of the Republican party has been and is inspired by the belief that our duty toward the Filipino people is a National obligation which should remain entirely free from partisan politics.

Immigration—We pledge the Republican party to the enactment of appropriate laws to give relief from the constantly growing evil of induced or undesirable immigration, which is inimical to the progress and welfare of the people of the United States.

Safety at Sea—We favor the speedy enactment of laws to provide that seamen shall not be compelled to endure involuntary servitude and that life and property at sea shall be safeguarded by the ample equipment of vessels with life-saving appliances and with full complements of skilled, able-bodied seamen to operate them.

Republican Accomplishment—The approaching completion of the Panama Canal, the establishment of a Bureau of Mines, the institution of postal savings banks, the increased provision made in 1912 for the aged and infirm soldiers and sailors of the Republic and for their widows, and the vigorous administration of the laws relating to pure food and drugs all mark the successful progress of Republican administration and are additional evidence of its effectiveness.

Economy and Efficiency—We commend the earnest effort of the Republican Administration to secure greater economy and increased efficiency in the conduct of Government business; extravagant appropriations and the creation of unnecessary offices are an injustice to the taxpayer, and a bad example to the citizen.

Civic Duty—We call upon the people to quicken their interest in public affairs, to condemn and punish lynchings and other forms of lawlessness, and to strengthen in all possible ways a respect for law and the observance of it. Indifferent citizenship is an evil from which the law affords no adequate protection and for which legislation can provide no remedy.

Arizona and New Mexico—We congratulate the people of Arizona and New Mexico upon the admission of those States, thus merging in the Union in final and enduring form the last remaining portion of our continental territory.

Republican Administration—We challenge successful criticism of the sixteen years of Republican administration under Presidents McKinley, Roosevelt and Taft. We heartily reaffirm the indorsement of President McKinley contained in the platform of 1900 and of 1904 and that of President Roosevelt contained in the platform of 1904 and 1908.

We invite the intelligent judgment of the American people upon the Administration of William H. Taft. The country has prospered and been at peace under his Presidency. During the years in which he had the co-operation of a Republican Congress an unexampled amount of constructive legislation was framed and passed in the interest of the people and in obedience to their wish. That legislation is a record on which any Administration might appeal with confidence to the favorable judgment of history.

We appeal to the American electorate upon the record of the Republican party and upon this declaration of its principles and purposes. We are confident that under the leadership of the candidates here to be nominated our appeal will not be in vain; that the Republican party will meet every just expectation of the people whose servant it is; that under its administration and its laws our nation will continue to advance; that peace and prosperity will abide with the people, and that new glory will be added to the great Republic.

NATIONAL PLATFORM OF THE PROGRESSIVE PARTY ADOPTED AT CHICAGO, ILL., AUGUST 7, 1912.

Declaration of Principles—The conscience of the people, in a time of grave national problems, has called into being a new party, born of the Nation's awakened sense of injustice.

We of the Progressive party here dedicate ourselves to the fulfillment of the duty laid upon us by our fathers to maintain that government of the people, by the people and for the people whose foundations they laid.

We hold, with Thomas Jefferson and Abraham Lincoln, that the people are the masters of their Constitution to fulfil its purposes and to safeguard it from those who, by perversion of its intent, would convert it into an instrument of injustice. In accordance with the needs of each generation, the people must use their sovereign powers to establish and maintain equal opportunity and industrial justice, to secure which this Government was founded and without which no republic can endure.

This country belongs to the people who inhabit it. Its resources, its business, its institutions and its laws should be utilized, maintained or altered in whatever manner will best promote the general interest. It is time to set the public welfare in the first place.

The Old Parties—Political parties exist to secure responsible government and to execute the will of the people. From these great tasks both the old parties have turned aside. Instead of instruments to promote the general welfare, they have become the tools of corrupt interests, which use them impartially to serve their selfish purposes. Behind the ostensible government sits enthroned an invisible government, owing no allegiance and acknowledging no responsibility to the people. To destroy this invisible government, to dissolve the unholy alliance between corrupt business and corrupt politics, is the first task of the statesmanship of the day.

The deliberate betrayal of its trust by the Republican party, the fatal incapacity of the Democratic party to deal with the new issues of the new time, have compelled the people to forge a new instrument of government through which to give effect to their will in laws and institutions.

Unhindered by tradition, uncorrupted by power, undismayed by the magnitude of the task, the new party offers itself as the instrument of the people to sweep away old abuses, to build a new and nobler commonwealth.

Covenant With the People—This declaration is our covenant with the people, and we hereby bind the party and its candidates in State and Nation to the pledges made herein.

Rule of the People—The Progressive party, committed to the principle of government by a self-controlled democracy expressing its will through representatives of the people, pledges itself to secure such alterations in the fundamental law of the several States and of the United States as shall insure the representative character of the Government. In particular the party declares for direct primaries for the nomination of State and National officers, for nation-wide preferential primaries for candidates for the Presidency, for the direct election of United States Senators by the people; and we urge on the States the policy of the short ballot, with responsibility to the people secured by the initiative, referendum and recall.

Constitution Should Be Easily Amended—The Progressive party, believing that a free people should have the power from time to time to amend their fundamental law so as to adapt

It progressively to the changing needs of the people, pledges itself to provide a more easy and expeditious method of amending the Federal Constitution.

Nation and State—Up to the limit of the Constitution, and later by amendment of the Constitution, if found necessary, we advocate bringing under effective national jurisdiction those problems which have expanded beyond reach of the individual States.

It is as grotesque as it is intolerable that the several States should by unequal laws in matter of common concern become competing commercial agencies, barter the lives of their children the health of their women and the safety and wellbeing of their working people for the benefit of their financial interests.

The extreme insistence on States' rights by the Democratic party in the Baltimore platform demonstrates anew its inability to understand the world into which it has survived or to administer the affairs of a union of States which have in all essential respects become one people.

Social and Industrial Reform—The supreme duty of the Nation is the conservation of human resources through an enlightened measure of social and industrial justice. We pledge ourselves to work unceasingly in State and Nation for:

Effective legislation looking to the prevention of industrial accidents, occupational diseases, overwork, involuntary unemployment, and other injurious effects incident to modern industry.

The fixing of minimum safety and health standards for the various occupations, and the exercise of the public authority of State and Nation, including the Federal control over interstate commerce and the taxing power, to maintain such standards.

The prohibition of child labor.

Minimum wage standards for working women, to provide a "living scale" in all industrial occupations.

The prohibition of night work for women and the establishment of an eight-hour day for women and young persons.

One day's rest in seven for all wage-workers.

The eight-hour day in continuous twenty-four hour industries.

The abolition of the convict contract labor system; substituting a system of prison production for governmental consumption only and the application of prisoners' earnings to the support of their dependent families.

Publicity as to wages, hours and conditions of labor; full reports upon industrial accidents and diseases and the opening to public inspection of all tallies, weights, measures and check systems on labor products.

Standards of compensation for death by industrial accident and injury and trade diseases which will transfer the burden of lost earnings from the families of working people to the industry, and thus to the community.

The protection of home life against the hazards of sickness, irregular employment and old age through the adoption of a system of social insurance adapted to American use.

The development of the creative labor power of America by lifting the last load of illiteracy from American youth, and establishing continuation schools for industrial education under public control and encouraging agricultural education and demonstration in rural schools.

The establishment of industrial research laboratories to put the methods and discoveries of science at the service of American producers.

We favor the organization of the workers, men and women, as a means of protecting their interests and of promoting their progress.

Regulation of Interstate Corporations—We believe that true popular government, justice and prosperity go hand in hand, and, so believing, it is our purpose to secure that large measure of general prosperity which is the fruit of legitimate and honest business, fostered by equal justice and by sound progressive laws.

We demand that the test of true prosperity shall be the benefits conferred thereby on all the citizens, not confined to individuals or classes, and that the test of corporate efficiency shall be the ability better to serve the public; that those who profit by control of business affairs shall justify that profit and that control by sharing with the public the fruits thereof.

We therefore demand a strong national regulation of interstate corporations. The corporation is an essential part of modern business. The concentration of modern business, in some degree, is both inevitable and necessary for national and international business efficiency. But the existing concentration of vast wealth under a corporate system, unguarded and uncontrolled by the Nation, has placed in the hands of a few men enormous, secret, irresponsible power over the daily life of the citizen—a power unsufferable in a free government and certain of abuse.

This power has been abused in monopoly of national resources, in stock watering, in unfair competition and unfair privileges, and, finally, in sinister influences on the public agencies of State and Nation. We do not fear commercial power, but we insist that it shall be exercised openly, under publicity, supervision and regulation of the most efficient sort, which will preserve its good while eradicating and preventing its evils.

To that end we urge the establishment of a strong Federal Administrative Commission of high standing, which shall maintain permanent active supervision over industrial corporations engaged in interstate commerce, or such of them as are of public importance, doing for them what the Government now does for the national banks, and what is now done for the railroads by the Interstate Commerce Commission.

Such a commission must enforce the complete publicity of those corporate transactions which are of public interest; must attack unfair competition, false capitalization and special privilege, and by continuous trained watchfulness guard and keep open equally to all the highways of American commerce. Thus the business man will have certain knowledge of the law and will be able to conduct his business easily in conformity therewith, the investor will find security for his capital, dividends will be rendered more certain and the savings of the people will be drawn naturally and safely into the channels of trade.

Under such a system of constructive regulation legitimate business, freed from confusion, uncertainty and fruitless litigation, will develop normally in response to the energy and enterprise of the American business man.

Commercial Development—The time has come when the Federal Government should co-operate with manufacturers and producers in extending our foreign commerce. To this end we demand adequate appropriations by Congress and the appointment of diplomatic and consular officers solely with a view to their special fitness and worth, and not in consideration of political expediency.

It is imperative to the welfare of our people that we enlarge and extend our foreign commerce. We are pre-eminently fitted to do this because, as a people, we have developed high skill in the art of manufacturing; our business men are strong executives, strong organizers. In every way possible our Federal Government should co-operate in this important matter.

Any one who has had opportunity to study and observe first hand Germany's course in this respect must realize that their policy of co-operation between Government and business has in comparatively few years made them a leading competitor for the commerce of the world. It should

be remembered that they are doing this on a National scale and with large units of business, while the Democrats would have us believe that we should do it with small units of business, which would be controlled, not by the National Government, but by forty-nine conflicting sovereignties. Such a policy is utterly out of keeping with the progress of the times and gives our great commercial rivals in Europe—hungry for international markets—golden opportunities of which they are rapidly taking advantage.

The Tariff—We believe in a protective tariff which shall equalize conditions of competition between the United States and foreign countries, both for the farmer and the manufacturer, and which shall maintain for labor an adequate standard of living. Primarily the benefit of any tariff should be disclosed in the pay envelope of the laborer. We declare that no industry deserves protection which is unfair to labor or which is operating in violation of Federal law. We believe that the presumption is always in favor of the consuming public.

We demand tariff revision because the present tariff is unjust to the people of the United States. Fair dealing toward the people requires an immediate downward revision of those schedules wherein duties are shown to be unjust and excessive.

We pledge ourselves to the establishment of a non-partisan scientific Tariff Commission, reporting both to the President and to either branch of Congress, which shall report first, as to the costs of production, efficiency of labor, capitalization, industrial organization and efficiency, and the general competitive position in this country and abroad of industries seeking protection from Congress. Second, as to the revenue-producing power of the tariff and its relation to the resources of government; and, thirdly, as to the effect of the tariff on prices, operations of middlemen, and on the purchasing power of the consumer.

We believe that this commission should have plenary power to elicit information, and for this purpose to prescribe a uniform system of accounting for the great protected industries. The work of the commission should not prevent the immediate adoption of acts reducing these schedules generally recognized as excessive.

We condemn the Payne-Aldrich bill as unjust to the people. The Republican organization is in the hands of those who have broken, and cannot again be trusted to keep, the promise of necessary downward revision. The Democratic party is committed to the destruction of the protective system through a tariff for revenue only—a policy which would inevitably produce widespread industrial and commercial disaster.

Reciprocity With Canada—We demand the immediate repeal of the Canadian reciprocity act.

High Cost of Living—The high cost of living is due partly to world-wide and partly to local causes; partly to natural and partly to artificial causes. The measures proposed in this platform on various subjects, such as the tariff, the trusts and conservation, will of themselves remove the artificial causes. There will remain other elements, such as the tendency to leave the country for the city, waste, extravagance, bad system of taxation, poor methods of raising crops and bad business methods in marketing crops. To remedy these conditions requires the fullest information and, based on this information, effective Government supervision and control to remove all the artificial causes. We pledge ourselves to such full and immediate inquiry and to immediate action to deal with every need such inquiry discloses.

Improvement of the Currency—We believe there exists imperative need for prompt legislation for the improvement of our national currency system. We believe the present method of issuing notes through private agencies is harmful and unscientific. The issue of currency is fundamentally a Government function and the system should have as basic principles soundness and elasticity. The matter should be lodged with the Government and should be protected from domination or manipulation by Wall Street or any special interests.

We are opposed to the so-called Aldrich currency bill because its provisions would place our currency and credit system in private hands, not subject to effective public control.

Conservation of Natural Resources—The natural resources of the Nation must be promptly developed and generously used to supply the people's needs, but we cannot safely allow them to be wasted, exploited, monopolized or controlled against the general good. We heartily favor the policy of conservation and we pledge our party to protect the National forests without hindering their legitimate use for the benefit of all the people. Agricultural lands in the National forests are, and should remain, open to the genuine settler. Conservation will not retard legitimate development. The honest settler must receive his patent promptly without hindrance, rule or delays.

We believe that the remaining forests, coal and oil lands, water powers and other natural resources still in State or National control (except agricultural lands) are more likely to be wisely conserved and utilized for the general welfare if held in the public hands.

In order that consumers and producers, managers and workmen, now and hereafter, need not pay toll to private monopolies of power and raw material, we demand that such resources shall be retained by the State or Nation and opened to immediate use under laws which will encourage development and make to the people a moderate return for benefits conferred.

In particular we pledge our party to require reasonable compensation to the public for water power rights hereafter granted by the public. We pledge legislation to lease the public grazing lands under equitable provisions now pending which will increase the production of food for the people and thoroughly safeguard the rights of the actual homesteaders. Natural resources whose conservation is necessary for the National welfare should be owned and controlled by the Nation.

Waterways—The rivers of the United States are the natural arteries of this continent. We demand that they shall be opened to traffic as indispensable parts of a great nation-wide system of transportation in which the Panama Canal will be the central link, thus enabling the whole interior of the United States to share with the Atlantic and Pacific seaboard in the benefit derived from the canal.

It is a national obligation to develop our rivers, and especially the Mississippi and its tributaries, without delay, under a comprehensive general plan covering each river system, from its source to its mouth, designed to secure its highest usefulness for navigation, irrigation, domestic supply, water power and the prevention of floods. We pledge our party to the immediate preparation of such a plan, which should be made and carried out in close and friendly co-operation between the Nation, the state, and the cities affected.

Under such a plan the destructive floods of the Mississippi and other streams, which represent a vast and needless loss to the Nation, would be controlled by forest conservation and water storage at the headwaters, and by levees below, land sufficient to support millions of people would be reclaimed from the deserts and swamps, water power enough to transform the industrial standing of whole States would be developed, adequate water terminals would be provided, transportation would revive, and the railroads would be compelled to co-operate as freely with the boat lines as with each other.

The equipment, organization and experience acquired in constructing the Panama Canal soon will be available for the lakes-to-the-gulf deep waterway and other portions of this great work, and should be utilized by the Nation in co-operation with the various States, at the lowest net cost to the people.

Panama Canal—The Panama Canal, built and paid for by the American people, must be used primarily for their benefit. We demand that the canal shall be so operated as to break the transportation monopoly now held and misused by the transcontinental railroads by maintaining sea competition with them; that ships directly or indirectly owned or controlled by American railroad corporations shall not be permitted to use the canal, and that American ships engaged in coastwise trade shall pay no tolls.

The Progressive party will favor legislation having for its aim the development of friendship and commerce between the United States and Latin-American nations.

Alaska—The coal and other natural resources of Alaska should be opened to development at once. They are owned by the people of the United States and are safe from monopoly, waste or destruction only while so owned. We demand that they shall neither be sold nor given away except under the homestead law, but while held in Government ownership shall be opened to use promptly upon liberal terms requiring immediate development.

Thus the benefit of cheap fuel will accrue to the Government of the United States and to the people of Alaska and the Pacific coast; the settlement of extensive agricultural lands will be hastened; the extermination of the salmon will be prevented, and the just and wise development of Alaskan resources will take the place of private extortion or monopoly.

We demand also that extortion or monopoly in transportation shall be prevented by the prompt acquisition, construction or improvement by the Government of such railroads, harbor, and other facilities for transportation as the welfare of the people may demand.

We promise the people of the Territory of Alaska the same measure of local self-government that was given to other American Territories, and that Federal officials appointed there shall be qualified by previous bona fide residence in the Territory.

Woman Suffrage—The Progressive party, believing that no people can justly claim to be a true democracy which denies political rights on account of sex, pledges itself to the task of securing equal suffrage to men and women alike.

Corrupt Election Practices—We pledge our party to legislation that will compel strict limitation of all campaign contributions and expenditures, and detailed publicity of both before as well as after primaries and elections.

Publicity and Public Service—We pledge our party to legislation compelling the registration of lobbyists; publicity of committee hearings, except on foreign affairs, and recording of all votes in committee; and forbidding Federal appointees from holding office in State or National political organizations or taking part as officers or delegates in political conventions for the nomination of elective State or National officials.

Popular Review of Judicial Decisions—The Progressive party demands such restriction of the power of the courts as shall leave to the people the ultimate authority to determine fundamental questions of social welfare and public policy. To secure this end, it pledges itself to provide:

First—That when an act passed under the police power of the State is held unconstitutional under the State Constitution by the courts, the people, after an ample interval for deliberation, shall have an opportunity to vote on the question whether they desire the act to become law, notwithstanding such decision.

Second—That every decision of the highest Appellate Court of a State declaring an act of the Legislature unconstitutional on the ground of its violation of the Federal Constitution shall be subject to the same review by the Supreme Court of the United States as is now accorded to decisions sustaining such legislation.

Administration of Justice—The Progressive party, in order to secure to the people a better administration of justice, and by that means to bring about a more general respect for the law and the courts, pledges itself to work unceasingly for the reform of legal procedure and judicial methods.

We believe that the issuance of injunctions in cases arising out of labor disputes should be prohibited when such injunctions would not apply when no labor disputes existed.

We also believe that a person cited for contempt in labor disputes, except when such contempt was committed in the actual presence of the court or so near thereto as to interfere with the proper administration of justice, should have a right to trial by jury.

A Department of Labor—We pledge our party to establish a department of labor, with a seat in the Cabinet, and with wide jurisdiction over matters affecting the conditions of labor and living.

Country Life—The development and prosperity of country life are as important to the people who live in the cities as they are to the farmers. Increase of prosperity on the farm will favorably affect the cost of living and promote the interests of all who dwell in the country and all who depend upon its products for clothing, shelter and food.

We pledge our party to foster the development of agricultural credit and co-operation, the teaching of agriculture in schools, agricultural college extension, the use of mechanical power on the farm and to re-establish the country life commission, thus directly promoting the welfare of the farmers and bringing the benefits of better farming, better business and better living within their reach.

National Health Service—We favor the union of all the existing agencies of the Federal Government dealing with the public health into a single National Health Service, without discrimination against or for any one set of therapeutic methods, school of medicine or school of healing, with such additional powers as may be necessary to enable it to perform efficiently such duties in the protection of the public from preventable disease as may be properly undertaken by the Federal authorities. Including the executing of existing laws regarding pure food; quarantine and cognate subjects; the promotion of appropriate action for the improvement of vital statistics and the extension of the registration area of such statistics, and co-operation with the health activities of the various States and cities of the Nation.

Patents—We pledge ourselves to the enactment of a patent law which will make it impossible for patents to be suppressed or used against the public welfare in the interest of injurious monopolies.

Interstate Commerce Commission—We pledge our party to secure to the Interstate Commerce Commission the power to value the physical property of railroads. In order that the power of the commission to protect the people may not be impaired or destroyed, we demand the abolition of the Commerce Court.

Good Roads—We recognize the vital importance of good roads, and we pledge our party to foster their extension in every proper way, and we favor the early construction of National highways. We also favor the extension of the rural free delivery service.

Inheritance and Income Tax—We believe in a graduated inheritance tax as a National means of equalizing the obligations of holders of property to Government, and we hereby pledge our party to enact such a Federal law as will tax large inheritances, returning to the States an equitable percentage of all amounts collected. We favor the ratification of the pending amendment to the Constitution giving the Government power to levy an income tax.

Peace and National Defence—The Progressive party deprecates the survival in our civilization of the barbaric system of warfare among nations, with its enormous waste of resources even in time of peace, and the consequent impoverishment of the life of the toiling masses. We

pledge the party to use its best endeavors to substitute judicial and other peaceful means of settling international differences.

We favor an international agreement for the limitation of naval forces. Pending such an agreement, and as the best means of preserving peace, we pledge ourselves to maintain for the present the policy of building two battleships a year.

Protection of American Citizens Abroad—We pledge our party to protect the rights of American citizenship at home and abroad. No treaty should receive the sanction of our Government which discriminates between American citizens because of birthplace, race or religion, or that does not recognize the absolute right of expatriation.

Immigration—Through the establishment of industrial standards we propose to secure to the able-bodied immigrant and to his native fellow workers a larger share of American opportunity. We denounce the fatal policy of indifference and neglect which has left our enormous immigrant population to become the prey of chance and cupidity. We favor Governmental action to encourage the distribution of immigrants away from the congested cities, to rigidly supervise all private agencies dealing with them and to promote their assimilation, education and advancement.

Pensions—We pledge ourselves to a wise and just policy of pensioning American soldiers and sailors and their widows and children by the Federal Government.

And we approve the policy of the Southern States in granting pensions to the ex-Confederate soldiers and sailors and their widows and children.

Parcels Post—We pledge our party to the immediate creation of a parcels post, with rates proportionate to distance and service.

The Civil Service Law—We condemn the violations of the Civil Service law under the present Administration, including the coercion and assessment of subordinate employes, and the President's refusal to punish such violation after a finding of guilty by his own commission; his distribution of patronage among subservient Congressmen, while withholding it from those who refuse support of administration measures; his withdrawal of nominations from the Senate until political support for himself was secured, and his open use of the offices to reward those who voted for his re-nomination.

To eradicate these abuses we demand not only the enforcement of the Civil Service act in letter and spirit, but also legislation which will bring under the competitive system postmasters, collectors, marshals and all other non-political officers, as well as the enactment of an equitable retirement law, and we also insist on continuous service during good behavior and efficiency.

Government Business Organization—We pledge our party to readjustment of the business methods of the National Government and a proper co-ordination of the Federal bureaus which will increase the economy and efficiency of the Government service, prevent duplications and secure better results to the taxpayers for every dollar expended.

Supervision Over Investments—The people of the United States are swindled out of many millions of dollars every year through worthless investments. The plain people, the wage-earners and the men and women with small savings have no way of knowing the merit of concerns sending out highly colored prospectuses offering stock for sale, prospectuses that make big returns seem certain and fortunes easily within grasp.

We hold it to be the duty of the Government to protect its people from this kind of piracy. We therefore demand wise, carefully thought-out legislation that will give us such Governmental supervision over this matter as will furnish to the people of the United States this much needed protection, and we pledge ourselves thereto.

Conclusion—On these principles and on the recognized desirability of uniting the progressive forces of the Nation into an organization which shall unequivocally represent the progressive spirit and policy, we appeal for the support of all American citizens, without regard to previous political affiliations.

NATIONAL PLATFORM OF THE PROHIBITION PARTY ADOPTED AT ATLANTIC CITY, N. J., JULY 11, 1912.

The Prohibition party of the United States of America in convention at Atlantic City, N. J., July 11, 1912, recognizing God as the source of all governmental authority, makes the following declaration of principles:

The alcoholic drink traffic is wrong, the most serious drain upon the Nation's wealth and resources, detrimental to the general welfare, destructive of the inalienable rights of life, liberty and the pursuit of happiness, and, therefore, all laws taxing or licensing a traffic that produces crime, poverty and political corruption and spreads disease and death should be repealed. To destroy such a traffic there must be elected to power a political party which will administer the government from the standpoint that the alcoholic drink traffic is a crime and not a business, and we pledge that the manufacture, importation, exportation, transportation and sale of alcoholic beverages shall be prohibited.

We favor:

The election of United States Senators by direct vote of the people.

Presidential terms of six years, and one term only.

Uniform marriage and divorce laws.

The extermination of polygamy and the complete suppression of the traffic in girls.

Suffrage for women upon the same terms as to men.

Court review as to post-office and other departmental decisions and orders; the establishment of postal savings banks, the extension of the rural delivery and the establishment of an efficient parcels post, and add the following planks:

The protection of one day in seven as a day of rest.

The absolute protection of the rights of labor without impairment of the rights of capital.

The settlement of all international disputes by arbitration.

The initiative, referendum and recall.

The tariff is a commercial question and should be fixed on the basis of accurate knowledge secured by a permanent omnipartisan Tariff Commission with ample powers.

The abolition of child labor in the mines, workshops and factories, with the rigid enforcement of laws now flagrantly violated.

Equitable graduated income and inheritance taxes.

Conservation of our mineral and forest reserves, reclamation of arid and waste lands and we urge that all mineral and timber lands and water powers now owned by the Government to be held perpetually and leased for revenue purposes.

Clearly defined laws for the regulation and control of corporations transacting an interstate business.

Greater efficiency and economy in Government service.

To the fundamental principles the National Prohibition party renews its long allegiance and on these issues invite the co-operation of all citizens to the end that the true object of popular government may be attained; i. e., equal and exact justice to all.

NATIONAL PLATFORM OF THE SOCIALIST PARTY ADOPTED AT INDIANAPOLIS, IND., MAY 16, 1912.

The representatives of the Socialist party in National Convention at Indianapolis, declare that the capitalist system has outgrown its historical function, and has become utterly incapable of meeting the problems now confronting society. We denounce this outgrown system as incompetent and corrupt and the source of unspeakable misery and suffering to the whole working class.

Under this system the industrial equipment of the Nation has passed into the absolute control of a plutocracy which exacts an annual tribute of millions of dollars from the producers. Unafraid of any organized resistance, it stretches out its greedy hands over the still undeveloped resources of the Nation—the land, the mines, the forests and the water powers of every State in the Union.

In spite of the multiplication of labor-saving machines and improved methods in industry which cheapen the cost of production, the share of the producers grows ever less, and the prices of all the necessities of life steadily increase. The boasted prosperity of this Nation is for the owning class alone. To the rest it means only greater hardship and misery. The high cost of living is felt in every home. Millions of wage-workers have seen the purchasing power of their wages decrease until life has become a desperate battle for mere existence.

Multitudes of unemployed walk the streets of our cities or trudge from State to State awaiting the will of the masters to move the wheels of industry.

The farmers in every State are plundered by the increasing prices exacted for tools and machinery and by extortionate freight rates and storage charges.

Capitalism Denounced—Capitalist concentration is mercilessly crushing the class of small business men and driving its members into the ranks of propertyless wage-workers. The overwhelming majority of the people of America are being forced under a yoke of bondage by this soulless industrial despotism.

It is this capitalist system that is responsible for the increasing burden of armaments, the poverty, slums, child labor, most of the insanity, crime and prostitution, and much of the disease that afflicts mankind.

Under this system the working class is exposed to poisonous conditions, to frightful and needless perils to life and limb, is walled around with court decisions, injunctions and unjust laws, and is preyed upon incessantly for the benefit of the controlling oligarchy of wealth. Under it also, the children of the working class are doomed to ignorance, drudging toil and darkened lives.

In the face of these evils, the most manifest to all thoughtful observers are appalled at them, the legislative representatives of the Republican and Democratic parties remain the faithful servants of the oppressors. Measures designed to secure to the wage-earners of this Nation as humane and just treatment as is already enjoyed by the wage-earners of all other civilized nations have been smothered in committee without debate, and laws ostensibly designed to bring relief to the farmers and general consumers are juggled and transformed into instruments for the exaction of further tribute. The growing unrest under oppression has driven these two old parties to the enactment of a variety of regulative measures, none of which has limited in any appreciable degree the power of the plutocracy, and some of which have been perverted into means for increasing that power. Anti-trust laws, railroad restrictions and regulations, with the prosecutions, indictments and investigations based upon such legislation, have proved to be utterly futile and ridiculous.

Nor has this plutocracy been seriously restrained or even threatened by any Republican or Democratic executive. It has continued to grow in power and insolence alike under the administrations of Cleveland, McKinley, Roosevelt and Taft.

In addition to this legislative juggling and this executive connivance, the courts of America have sanctioned and strengthened the hold of this plutocracy as the Dred Scott and other decisions strengthened the slave power before the civil war.

We declare, therefore, that the longer sufferance of these conditions is impossible, and we purpose to end them all. We declare them to be the product of the present system in which industry is carried on for private greed, instead of for the welfare of society. We declare, furthermore, that for these evils there will be an adequate remedy, and no substantial relief except through socialism, under which industry will be carried on for the common good and every worker receive the full social value of the wealth he creates.

Society is divided into warring groups and classes, based upon material interests. Fundamentally, this struggle is a conflict between the two main classes, one of which, the capitalist class, owns the means of production, and the other, the working class, must use these means of production on terms dictated by the owners.

The capitalist class, though few in numbers, absolutely controls the Government—legislative, executive and judicial. This class owns the machinery of gathering and disseminating news through its organized press. It subsidizes seats of learning—the colleges and schools—and even religious and moral agencies. It has also the added prestige which established customs give to any order of society, right or wrong.

The working class, which includes all those who are forced to work for a living, whether by hand or brain, in shop, mine or on the soil, vastly outnumbers the capitalist class. Lacking effective organization and class solidarity, this class is unable to enforce its will. Given such class solidarity and effective organization, the workers will have the power to make all laws and control all industry in their own interest.

All political parties are the expression of economic class interests. All other parties than the Socialist party represent one or another group of the ruling capitalist class. Their political conflicts reflect merely superficial rivalries between competing capitalist groups. However they result, these conflicts have no issue of real value to the workers. Whether the Democrats or Republicans win politically, it is the capitalist class that is victorious economically.

Socialism the Expression of the Workers—The Socialist party is the political expression of the economic interests of the workers. Its defeats have been their defeats and its victories their victories. It is a party founded on the science and laws of social development. It proposes that, since all social necessities to-day are socially produced, the means of their production and distribution shall be socially owned and democratically controlled.

In the face of the economic and political aggressions of the capitalist class the only reliance left the workers is that of their economic organizations and their political power. By the intelligent and class-conscious use of these, they may resist successfully the capitalist class, break the fetters of wage slavery, and fit themselves for the future society, which is to displace the capitalist system. The Socialist party appreciates the full significance of class organization and urges the wage-earners, the working farmers and all other useful workers everywhere to organize for economic and political action, and we pledge ourselves to support the toilers of the fields as well as those in the shops, factories and mines of the Nation in their struggles for economic justice.

In the defeat or victory of the working class party in this new struggle for freedom lies the defeat or triumph of the common people of all economic groups, as well as the failure or the triumph of popular government. Thus the Socialist party is the party of the present-day revolution, which marks the transition from economic individualism to socialism, from wage slavery to free co-operation, from capitalist oligarchy to industrial democracy.

Working Programme—As measures calculated to strengthen the working class in its fight for the realization of its ultimate aim, the Co-operative Commonwealth, and to increase its power of resistance against capitalist oppression, we advocate and pledge ourselves and our elected officers to the following programme:

Collective Ownership—First: The collective ownership and democratic management of railroads, wire and wireless telegraphs and telephones, express service, steamboat lines and all other social means of transportation and communication and of all large-scale industries.

Second: The immediate acquirement by the municipalities, the States or the Federal Government of all grain elevators, stock yards, storage warehouses, and other distributing agencies, in order to reduce the present extortionate cost of living.

Third: The extension of the public domain to include mines, quarries, oil wells, forests and water power.

Fourth: The further conservation and development of natural resources for the use and benefit of all the people:

(a) By scientific forestation and timber protection.

(b) By the reclamation of arid and swamp tracts.

(c) By the storage of flood waters and the utilization of water power.

(d) By the stoppage of the present extravagant waste of the soil and of the products of mines and oil wells.

(e) By the development of highway and waterway systems.

Fifth: The collective ownership of land wherever practicable, and in cases where such ownership is impracticable, the appropriation by taxation of the annual rental value of all land held for speculation or exploitation.

Sixth: The collective ownership and democratic management of the banking and currency system.

Unemployment—The immediate Government relief of the unemployed by the extension of all useful public works. All persons employed on such works to be engaged directly by the Government under a work day of not more than eight hours and at not less than the prevailing union wages. The Government also to establish employment bureaus; to lend money to States and municipalities, without interest, for the purpose of carrying on public works, and to take such other measures within its power as will lessen the widespread misery of the workers caused by the misrule of the capitalist class.

Industrial Demands—The conservation of human resources, particularly of the lives and well-being of the workers and their families:

First: By shortening the work day in keeping with the increased productiveness of machinery.

Second: By securing to every worker a rest period of not less than a day and a half in each week.

Third: By securing a more effective inspection of workshops, factories and mines.

Fourth: By forbidding the employment of children under sixteen years of age.

Fifth: By abolishing the brutal exploitation of convicts under the contract system and prohibiting the sale of goods so produced in competition with other labor.

Sixth: By forbidding the interstate transportation of the products of child labor, of convict labor and of all uninspected factories and mines.

Seventh: By abolishing the profit system in Government work, and substituting either the direct hire of labor or the awarding of contracts to co-operative groups of workers.

Eighth: By establishing minimum wage scales.

Ninth: By abolishing official charity and substituting a non-contributory system of old-age pensions, a general system of insurance by the State of all its members against unemployment and invalidism and a system of compulsory insurance by employers of their workers, without cost to the latter, against industrial diseases, accidents and death.

Political Demands—First: The absolute freedom of press, speech and assemblage.

Second: The adoption of a graduated income tax, the increase of the rates of the present corporation tax and the extension of inheritance taxes, graduated in proportion to the value of the estate and to nearness of kin—the proceeds of these taxes to be employed in the socialization of industry.

Third: The gradual reduction of all tariff duties, particularly those on the necessities of life. The Government to guarantee the re-employment of wage-earners who may be disemployed by reason of changes in tariff schedules.

Fourth: The abolition of the monopoly ownership of patents and the substitution of collective ownership, with direct rewards to inventors by premiums or royalties.

Fifth: Unrestricted and equal suffrage for men and women.

Sixth: The adoption of the initiative, referendum and recall and of proportional representation, nationally as well as locally.

Seventh: The abolition of the Senate and of the veto power of the President.

Eighth: The election of the President and Vice-President by direct vote of the people.

Ninth: The abolition of the power usurped by the Supreme Court of the United States to pass upon the constitutionality of the legislation enacted by Congress. National laws to be repealed only by act of Congress or by a referendum vote of the whole people.

Tenth: The abolition of the present restrictions upon the amendment of the Constitution, so that that instrument may be made amendable by a majority of the voters in a majority of the States.

Eleventh: The granting of the right of suffrage in the District of Columbia with representation in Congress and a democratic form of municipal government for purely local affairs.

Twelfth: The extension of democratic government to all United States territory.

Thirteenth: The enactment of further measures for general education and particularly for vocational education in useful pursuits. The Bureau of Education to be made a department.

Fourteenth: The enactment of further measures for the conservation of health. The creation of an independent Bureau of Health, with such restrictions as will secure full liberty to all schools of practice.

Fifteenth: The separation of the present Bureau of Labor from the Department of Commerce and Labor and its elevation to the rank of a department.

Sixteenth: Abolition of all Federal District Courts and the United States Circuit Courts of Appeals. State courts to have jurisdiction in all cases arising between citizens of the several States and foreign corporations. The election of all judges for short terms.

Seventeenth: The immediate curbing of the power of the courts to issue injunctions.

Eighteenth: The free administration of justice.

Nineteenth: The calling of a convention for the revision of the Constitution of the United States.

Such measures of relief as we may be able to force from capitalism are but a preparation of the workers to seize the whole powers of government, in order that they may thereby lay hold of the whole system of socialized industry and thus come to their rightful inheritance.

Democratic National and State Committees.

DEMOCRATIC NATIONAL COMMITTEE.

(Appointed by or subsequent to the Democratic National Convention at Baltimore, Md., July, 1912.)

Chairman.....	W. M. F. McCOMBS, New York City.	Missouri.....	F. H. Goltra.....	St. Louis.
Secretary.....	Jas. E. Davies.....	Montana.....	J. Bruce Kremer.....	Butte.

* B. J. Vincent recommended by State Convention; State Delegation, at Atlantic City, substituted name of Mr. Atwood; National Committee referred matter back to State.

Socialist Labor Party National Executive Committee.

PAUL AUGUSTINE, National Secretary, 28 City Hall Place, New York City. The National Executive Committee is composed of Olive M. Johnson, Fruitvale, Cal.; F. H. Kuchenbecker, Chicago, Ill.; Ernst Viewegh, Indianapolis, Ind.; James H. Arnold, Louisville, Ky.; Arthur E. Reimer, South Boston, Mass.; E. Sherman, Rockville, Ct.; Paul Dinger, Detroit, Mich.; L. Gunther, Colorado Springs, Col.; Godfrey Kinder, Newport News, Va.; Samuel Johnson, St. Paul, Minn.; John C. Butterworth, Paterson, N. J.; Henry J. Poelling, St. Louis, Mo.; John Kircher, Cleveland, Ohio; Boris Reinstein, Buffalo, N. Y.; Fannie Chernin, El Paso, Tex.; A. L. Briarcliff, Seattle, Wash.; Albert Schnabel, Milwaukee, Wis.; Willial H. Thomas, Buena Vista, Pa.

The party is organized in local organizations known as "sections," such sections existing in thirty States. Seven persons, five of whom must be actual wage-workers, may form a section, providing they acknowledge the platform, constitution and resolutions of the Socialist Labor Party and do not belong to any other political party. But if more than seven propose to organize a section then at least three-fourths must be actual wage-workers. In places where no section exists, or where none can be formed, any person complying with the aforesaid provisions may become a member-at-large upon application to the National Executive Committee. Sections are not permitted to charge initiation fees. All questions of importance arising within the party are decided by general vote. At each meeting of the section a chairman is elected, and the same rule holds good with all standing committees.

Socialist Party National Committee.

JOHN M. WORK, Acting National Secretary, 111 No. Washington Street, Chicago. This organization, known nationally as the Socialist Party, is officially known as the Social Democratic Party in Wisconsin, and the Public Ownership Party in Minnesota, to conform to the election laws in those States. The National Executive Committee is composed of seven members, elected by a National referendum of party members. The National Secretary is elected in like manner. The term of office is one year. The following are the members of the National Executive Committee: Victor L. Berger, Milwaukee, Wis.; Morris Hillquit, New York, N. Y.; Job Harriman, Los Angeles, Cal.; Wm. D. Hayward, Denver, Col.; Alexander Irvine, Los Angeles, Cal.; Kate Richards O'Hare, St. Louis, Mo.; John Spargo, Old Bennington, Vt. The National Committee is composed of representatives from each organized State or Territory, of which there are 47. Representation is as follows: The National Committee consists of the State Secretaries of all organized States and Territories, or such other person as the members of the party in the State elect by referendum vote, with one additional member from each State or Territory for every three thousand members in good standing in such State or Territory. For the purpose of determining the representation to which each State or Territory may be entitled, the National Secretary computes the beginning of each calendar year the average dues-paying membership of such State or Territory for the preceding year. Three years consecutive membership in the party is necessary to qualify for membership in the National Committee.

Qualifications for Voting in Each State of the Union.

(Communicated to THE WORLD ALMANAC and corrected to date by the Attorneys-General of the respective States.)

In all the States except California, Colorado, Idaho, Utah, Washington and Wyoming the right to vote at general elections is restricted to males of 21 years of age and upward. Women are entitled to vote at school elections in several States. (See article entitled "Woman Suffrage.")

States.	Requirements as to Citizenship.	PREVIOUS RESIDENCE REQUIRED.				Persons Excluded from Suffrage.

* Australian Ballot law or a modification of it in force. † Indian must have severed tribal relations. § One year's residence in the United States prior to election required. (a) Women can vote in school elections. (c) Ministers in charge of an organized church and teachers of public schools are entitled to vote after six months' residence in the State. (d) Actual residence in the precinct or district required. (e) Who has paid six months before election any poll-tax then due, and can read and write any section of the State Constitution, or can show that he owns and has paid all taxes due the previous year on property in the State assessed at \$300 or more. (f) Or convicted of bribery, embezzlement of public funds, treason, forgery, perjury, felony, and petty larceny, duellists and abettors, unless pardoned by Legislature. (g) Or persons non compos mentis, sentence to State Prison for one year or more takes away right to vote until restored by General Assembly, under guardianship. (h) And those unable to read and write English. (j) No soldier, seaman, or marine deemed a resident because stationed in the State. (l) Thirty days in election district. (m) In cities of 10,000 or more inhabitants all persons exempt from payment of poll tax must procure certificate of exemption from county tax collector and have their names placed on list of qualified voters in said city. (n) Must be resident of county to vote for county officers. (o) All persons unable to read and write, and whose ancestor was not entitled to vote prior to Jan. 1, 1867. (p) Unless restored to civil rights. (q) Except Federal and Confederate ex-soldiers. (r) Those unable to read and write State Constitution. (s) The general law does not apply always to villages organized under special charters.

In Virginia—Voting qualifications. All persons who six months before the election have paid their State poll-taxes for the three preceding years. Also any person who served in time of war in the army or navy of the United States, of the Confederate States, or of any State of the United States or of the Confederate States.

Residents of the District of Columbia never had the right to vote therein for national officers, or on other matters of national concern, after the Territory embraced in it was ceded to the United States and became the seat of the general government.

Requirements Regarding Registration of Voters.

(Continuation of "Qualifications for Voting," on preceding pages.)

THE registration of voters is required in the States of Alabama, Arizona, California, Colorado, Connecticut, Delaware, Florida, Georgia, Idaho, Indiana, Iowa, Kentucky, Louisiana, Maine, Maryland, Massachusetts, Michigan, Minnesota, Mississippi (four months before election), Missouri, Montana, Nebraska, Nevada, New Hampshire, New Jersey, New Mexico, New York, North Carolina, North Dakota, Oklahoma, Oregon, Pennsylvania (in cities), South Carolina, South Dakota, Tennessee, Utah, Vermont, Virginia, Washington, West Virginia, Wisconsin and Wyoming.

In Ohio it is required in cities of 11,800 to 100,000 population in Presidential years; annually in cities of 100,000 or over.

In Illinois registration of voters is required by law. In all incorporated cities, villages and towns, which have adopted the Election Commissioner act of the State, persons not registered are not entitled to vote; but elsewhere generally they can vote if not registered by swearing in their votes, and producing one witness, a householder and registered voter of the voting district, as to their qualifications as electors severally.

In Iowa in cities having 3,500 inhabitants. In Nebraska in cities of over 7,000 inhabitants. In Kentucky in all cities of the first, second, third and fourth classes, in Kansas in cities of the first and second classes, in North Dakota in cities and villages of 800 inhabitants and over, in Ohio in cities of the first and second classes.

In Missouri it is required in cities of 100,000 inhabitants and over. In Oklahoma it is required in all cities of the first class. In Rhode Island non-taxpayers are required to register yearly before June 30. The registration of voters is not required in Arkansas or Texas.

Woman Suffrage.

IN the United States women possess suffrage upon equal terms with men at all elections in Wyoming, established in 1869; in Colorado, in 1893; in Utah, in 1896; in Idaho, in 1896; in Washington in 1910, and in California in 1912; and in the November elections in 1912 constitutional amendments granting suffrage to women were adopted in Arizona, Kansas and Oregon, making nine States in all in which it is recognized. In Michigan the demand of the woman suffragists for a recount of the vote in November, 1912, on the equal suffrage amendment was granted December 2d by the Wayne County board of election canvassers. The returns in the State indicated it was voted down by about 600.

Woman suffrage amendments to State constitutions were also voted upon in 1912 in Ohio and Wisconsin, and were defeated.

In 1912 resolutions to submit woman suffrage amendments to the Constitution to the vote of the people were defeated in the Legislatures of Massachusetts, New Jersey, New York and Virginia; in the Constitutional Convention of New Hampshire, and in the State primaries of Illinois.

School suffrage for women prevails in some form in thirty-two States, as follows: Arizona, California, Colorado, Connecticut, Delaware, Florida, Iowa, Illinois, Indiana, Idaho, Kansas, Kentucky, Michigan, Massachusetts, Minnesota, Mississippi, Montana, Nebraska, New Hampshire, New Jersey, New Mexico, New York, North Dakota, Oklahoma, Oregon, Ohio, South Dakota, Utah, Vermont, Washington, Wyoming and Wisconsin. In 1912 a school suffrage resolution was defeated in the Louisiana Legislature.

In 1887 Montana gave tax-paying women the right to vote on questions submitted to taxpayers; in 1894 bond suffrage was given to women in Iowa; in 1898 the women of Minnesota were given the right to vote for library trustees, and in the same year Louisiana gave women taxpayers the right to vote in person or by proxy on all questions of taxation. In 1908 Michigan adopted a constitutional amendment providing for tax-paying suffrage for women taxpayers.

In 1901 the New York Legislature passed a law providing that "a woman who possesses the qualifications to vote for village or for town officers, except the qualification of sex, who is the owner of property in the village assessed upon the last preceding assessment roll thereof, is entitled to vote upon a proposition to raise money by tax or assessment."

In Great Britain women can vote for all officers except members of Parliament. The extension of woman suffrage to Parliamentary elections was defeated in 1912.

In Australia and New Zealand women have full suffrage; also in the Isle of Man and Iceland. They have tax-paying parliamentary suffrage in Sweden and Norway.

Women have municipal suffrage in Ontario, Nova Scotia, Manitoba, Quebec, British Columbia, and the Northwest Territory, in Iceland, Denmark and Sweden. In France women engaged in commerce have the right to vote for Judges of the Tribunal of Commerce. Women have some voting privileges in Cape Colony.

The International Woman Suffrage Alliance is composed of National Woman Suffrage Associations composed of twenty-two nations. Its officers are: President, Carrie Chapman Catt, New York; Vice-President, Millicent Garrett Fawcett, London; Second Vice-President, Annie Farnhjeltn, Finland; Treasurer, Mrs. Stanton Coit, London; Secretaries—First, Miss Martina Kramers, Holland, Mrs. Anna Lindemann, Germany; Miss Signe Bergman, Sweden.

The officers of the National American Woman Suffrage Association are: Rev. Anna Howard Shaw, Moynan, Pa., President; Jane Adams, Hull House, Chicago, Ill., First Vice-President; Anita Whitney, San Francisco, Second Vice-President; Mary W. Deinet, 505 Fifth Ave., New York City, Corresponding Secretary; Mrs. Susan W. Fitzgerald, 7 Greenough Ave., Jamaica Plain, Mass., Recording Secretary; Mrs. Stanley McCormick, 393 Commonwealth Ave., Boston, Mass., Treasurer; Mrs. James Lees Laidlaw, 2 Madison Ave., N. Y., First Auditor; Mrs. Joseph Bowen, 1430 Astor St., Chicago, National Headquarters, 505 Fifth Ave., New York City.

The New York State Association Opposed to Woman Suffrage has its central office in New York City. Its officers are as follows: Miss Alice H. Cliftenden, President; Mrs. Fritz Achelis, First Vice-President; Mrs. Eliza Root, Mrs. Richard Watson Gilder, Mrs. Francis M. Scott, Miss Eleanor G. Hewitt, Mrs. George D. Miller, and Mrs. William P. Northrup, Vice-Presidents; Mrs. Charlton T. Lewis, Treasurer; Mrs. M. E. Loomis, Secretary; Engineering Societies Building, 29 West 39th St., New York City. There are also organizations in Massachusetts, Illinois, Oregon, Iowa, Washington, California, Pennsylvania and Maryland.

These are also organizations in Massachusetts, Illinois, Oregon, Iowa, Washington, California, Pennsylvania and Maryland. These are founded with the object of testifying to legislative committees and through the medium of the public press that the opposition to woman suffrage is based upon what is claimed to be "the intelligent conviction of the majority of representative women in all lines of social, industrial, and domestic progress." Pamphlets with information as to the objects of the association may be had from the Secretary.

National Democratic League of Clubs.

PRESIDENT, Perry Belmont, New York City; Secretary, William C. Liller, Indianapolis, Ind.; Treasurer, Frank S. Clark, Indianapolis, Ind.

The National Democratic League of Clubs is engaging actively in the work of adding to the Democratic vote in the nation. Its labors are purely a party work, aiming simply at the increase of Democratic strength. The League exists as a vote-getting auxiliary of the regular Democratic organizations, and its success depends upon the hearty co-operation of Democrats throughout the country. It is the aim and endeavor of the National Democratic League of Clubs to aid in work of organization and to help the regular organizations to achieve greater success.

The League is a union or federation of Democratic clubs and associations, in all parts of the country. It is now in its fifth year. At the bi-annual meeting held in Washington, D. C., December 3-4, 1912, thirty-three States of the Union were represented. Its management is intrusted to a board of directors composed of some of the foremost men in the party, who take an active interest in its success.

The National Democratic League of Clubs is not organized for the purpose of either advocating or opposing any Democrat before he shall have been chosen by the constituted bodies or of furthering the interests of any man or set of men, before being indorsed by the party, but for the attainment and preservation of unity, the upbuilding of the party, and the promotion of its principles and welfare. Nor is it intended that any club or the League of Clubs shall usurp the functions of the several State, county or district committees, but rather work in harmony and in co-operation with them.

The National Democratic League of Clubs aims:

To make loyal Democrats of young men who are about to cast their first votes.

To explain clearly to the foreign-born voters the practical helpfulness and patriotic purposes of the Democratic party, and to enlist the new-made citizen in its ranks, thus making them good Democrats and therefore better Americans.

To confirm in the wavering an inclination toward Democracy and to make a habit of party fealty.

To preach early and late, day in and day out, the politics of Jefferson and Jackson.

To enlist voters, regardless of previous party affiliations, in the cause of Democracy, by every honorable means.

State Leagues or Federations of Democratic clubs, co-operating with the National League, have been organized in forty of the States and have a membership in excess of 875,000. Affiliated clubs have been organized in every State.

The League has headquarters in Indianapolis, Ind., and at Washington, D. C.

National Republican League of the United States.

THE National Republican League of the United States was organized in Chickering Hall, New York City, December 15-17, 1887, by delegates from about 350 Republican clubs of the United States, assembled in national convention, pursuant to a call issued by the Republican Club of New York City. It is composed of the Republican clubs of the United States, organized by States and united in a national organization. Its purpose is "Organization and Education." It aims to enlist recruits for the Republican party, particularly the younger men and the "first voters." National conventions have since been held at Baltimore, 1889; Nashville, 1890; Cincinnati, 1891; Buffalo, 1892; Louisville, 1893; Denver, 1894; Cleveland, 1895; Milwaukee, 1896; Detroit, 1897; Omaha, 1898 (biennial sessions afterward); St. Paul, 1900; Chicago, 1902; Indianapolis, 1904; Philadelphia, 1906; Cincinnati, 1908; New York, 1910. At the close of the campaign of 1908, the League, including the Taft campaign clubs, comprised approximately 4,000 clubs, with a membership of 1,500,000. Officers—President, John Hays Hammond, Gloucester, Mass.; Secretary-Treasurer D. B. Atherton, Washington, D. C.

The New York Democratic League.

At a conference of Democrats of the State of New York, held at Saratoga, September 10, 1909, the New York Democratic League was organized and the following platform of principles was enunciated:

Equal and uniform taxation, taking no more money from the people than the just needs of government economically administered requires.

The abandonment at the earliest moment practicable of our imperialistic venture in the Philippine Islands, first safeguarding their independence by sufficient guarantees.

Steady adherence to the principle of home rule and local self-government by the State and each of its political subdivisions.

Rigid economy in Government expenditures.

Enforcement of Federal and State laws against criminal trusts and combinations in restraint of trade.

Election of United States Senators by the direct vote of the people.

Reform in our registration and in enrolment laws, so that personal registration and enrolment shall be required in every political subdivision of the State. Reform in our methods of election, so that each elective officer shall be the separate, deliberate and intelligent selection of the voters of the State.

Reform in our methods of nominating candidates for public office, so that nominating conventions shall be composed of representatives directly chosen by the members of the party.

Reform in our primary laws, so as to give to every citizen greater direct influence in naming candidates for office and surrounding the primaries with such safeguards as will insure their honesty and providing the necessary time and legal machinery to insure the choice of a majority of the voters being respected and enforced in convention and committee.

No interference with the personal liberty of any citizen except such as is essential to secure the equal rights of all the citizens.

Taxation of corporations by the States alone.

A constitutional amendment authorizing the levy of a Federal income tax.

At a conference held in Rochester, September 28, 1910, the League reaffirmed above declaration of principles, and in addition declared itself in favor of direct nominations. The following were officially declared to be the purposes of the organization: 1. To spread the knowledge of fundamental Democratic or liberal principles. 2. To stimulate interest in the Democratic party organization as the best and most natural means of carrying those principles into effect. 3. To bring back into the party in this State, Democrats who for any cause have in recent years been dissatisfied or discouraged and have therefore ceased to take an active part in the party organization. 4. To aid in the nomination and election of such Democrats as worthily represent the liberal principles of Democracy. 5. To aid in the selection of such men to direct the party organization as represent the character and intelligence of the party.

Chairman, Thomas M. Osborne, of Auburn; Vice-Chairman, John K. Sague, Poughkeepsie, N. Y.; Secretary, Francis A. Willard, of Albany; Treasurer, William Gorham Rice, of Albany. There is an executive committee of fifteen members, with the four general officers as members *ex-officio*.

Political National Conventions.

(For Presidential Conventions prior to 1908, see 1912 ALMANAC.)

1908.

DEMOCRATIC NATIONAL CONVENTION.

The Democratic National Convention was held at Denver, Col., July 7-10. Nominations were made July 10. William J. Bryan, of Nebraska, was nominated on the first ballot, the vote being: Bryan, 892½; John A. Johnson, of Minnesota, 46.

REPUBLICAN NATIONAL CONVENTION.

The Republican National Convention met at Chicago, Ill., June 16. One ballot was cast, July 19, as follows:

CANDIDATES.	First Ballot.	CANDIDATES.	First Ballot.
Total vote.....	979	Joseph G. Cannon, Ill.....	58
Necessary to a choice.....	490	Charles W. Fairbanks, Ind.....	40
William H. Taft, Ohio.....	702	Robert M. LaFollette, Wis.....	25
Philander C. Knox, Pa.....	68	Joseph B. Foraker, Ohio.....	16
Charles E. Hughes, N. Y.....	67	Theodore Roosevelt, N. Y.....	3

PROHIBITION PARTY NATIONAL CONVENTION.

The Prohibition Party National Convention was held at Columbus, Ohio, July 15, 16. Nominations were made July 16. Eugene W. Chafin, of Illinois, was nominated for President on the third ballot, receiving 636 votes, against 451 for William B. Palmore, of Missouri, and other candidates.

OTHER NATIONAL CONVENTIONS.

The People's Party National Convention at St. Louis, April 2 and 3, unanimously nominated Thomas E. Watson, of Georgia, for President.

The Socialist Party National Convention, held at Chicago, May 10-17, nominated Eugene V. Debs, of Indiana, for President on the first ballot, the vote being: Eugene V. Debs, 152; James F. Carey, of Massachusetts, 17; Carl D. Thompson, of Wisconsin, 16; A. M. Simons, of Illinois, 2.

The Socialist Labor Party National Convention was held in the city of New York, July 4. Martin R. Preston, of Nevada, was nominated for President unanimously.

The Independence Party National Convention was held at Chicago, July 29. Thomas L. Hisgen, of Massachusetts, was nominated for President on the third ballot, the vote being: Thomas L. Hisgen, 831; Milford W. Howard, of Alabama, 38; John Temple Graves, of Georgia, 7; William R. Hearst, of New York, 2.

1912.

DEMOCRATIC NATIONAL CONVENTION.

The Democratic National Convention was held at Baltimore, Md., June 25-July 2. Balloting for a candidate for President began June 28 and a nomination was reached July 2. There were forty-six ballots taken. The first, tenth, twenty-fifth, forty-second and final ballots were as follows:

CANDIDATES.	1st Ballot.	10th Ballot.	25th Ballot.	42d Ballot.	46th Ballot.
Total vote.....	1,086	1,988	1,088	1,087½	1,086

REPUBLICAN NATIONAL CONVENTION.

The Republican National Convention was held at Chicago, Ill., June 18-22. One ballot for the candidate for President was cast June 22, as follows:

CANDIDATES.	First Ballot.	CANDIDATES.	First Ballot.
Total vote.....	1,078	Theodore Roosevelt, New York.....	107
Necessary to a choice.....	540	Robert M. La Follette, Wis.....	41
Actual vote.....	728*	Albert B. Cummins, Iowa.....	17
William H. Taft, Ohio.....	561	Charles E. Hughes, New York.....	2

* 344 delegates withheld their votes and 6 delegates were absent.

PROGRESSIVE NATIONAL CONVENTION.

The National Convention of the Progressive party met at Chicago August 5 and on August 7 unanimously nominated Theodore Roosevelt for President on the first ballot.

SOCIALIST NATIONAL CONVENTION.

The Socialist National Convention was held at Indianapolis May 17 and nominated Eugene V. Debs for President on the first ballot, the vote being: Eugene V. Debs, of Indiana, 165; Emil Seldel, of Wisconsin, 56; Charles Edward Russell, of New York, 54.

PROHIBITION NATIONAL CONVENTION.

The Prohibition National Convention was held at Atlantic City, N. J., July 10-12, and nominated Eugene W. Chafin, of Arizona, for President without opposition.

PEOPLE'S PARTY NATIONAL CONVENTION.

The National Convention of the People's Party was held at St. Louis, August 13; adopted a platform but made no nomination for President.

The Presidential Election of 1916.

The next Presidential election will take place on Tuesday, November 7, 1916.

The President and Vice-President of the United States are chosen by officials termed "Electors" in each State, who are, under existing State laws, chosen by the qualified voters thereof by ballot, on the first Tuesday after the first Monday of November in every fourth year preceding the year in which the Presidential term expires.

The Constitution of the United States prescribes that each State shall "appoint," in such manner as the Legislature thereof may direct, a number of electors equal to the whole number of Senators and Representatives to which the State may be entitled in Congress; but no Senator or Representative or person holding an office of trust or profit under the United States shall be an elector. The Constitution requires that the day when electors are chosen shall be the same throughout the United States. At the beginning of our Government most of the electors were chosen by the Legislatures of their respective States, the people having no direct participation in their choice; and one State, South Carolina, continued that practice down to the breaking out of the civil war. But in all the States now the electors are, under the direction of State laws, chosen by the people on a general State ticket.

The manner in which the chosen electors meet and ballot for a President and Vice-President of the United States is provided for in Article XII. of the Constitution, and is as follows:

The electors shall meet in their respective States, and vote by ballot for President and Vice-President, one of whom, at least, shall not be an inhabitant of the same State with themselves; they shall name in their ballots the person voted for as President, and in distinct ballots the person voted for as Vice-President; and they shall make distinct lists of all persons voted for as President, and of all persons voted for as Vice-President, and of the number of votes for each, which lists they shall sign and certify, and transmit, sealed, to the seat of Government of the United States, directed to the President of the Senate.

The same article then prescribes the mode in which the Congress shall count the ballots of the electors, and announce the result thereof, which is as follows:

The President of the Senate shall, in the presence of the Senate and House of Representatives, open all the certificates, and the votes shall then be counted; the person having the greatest number of votes for President shall be President, if such number be a majority of the whole number of electors appointed; and if no person have such majority, then from the persons having the highest numbers, not exceeding three, on the list of those voted for as President, the House of Representatives shall choose immediately, by ballot, the President. But in choosing the President the votes shall be taken by States, the representation from each State having one vote; a quorum for this purpose shall consist of a member or members from two-thirds of the States, and a majority of all the States shall be necessary to a choice. And if the House of Representatives shall not choose a President, whenever the right of choice shall devolve upon them, before the fourth day of March next following, then the Vice-President shall act as President, as in the case of the death or other constitutional disability of the President. The person having the greatest number of votes as Vice-President shall be the Vice-President, if such number be a majority of the whole number of electors appointed; and if no person have a majority, then from the two highest numbers on the list the Senate shall choose the Vice-President; a quorum for the purpose shall consist of two-thirds of the whole number of Senators, and a majority of the whole number shall be necessary to a choice.

The procedure of the two houses, in case the returns of the election of electors from any State are disputed, is provided in the "Electoral Count" act, passed by the Forty-ninth Congress. The act directs that the Presidential electors shall meet and give their votes on the second Monday in January next following their election. It fixes the time when Congress shall be in session to count the ballots as the second Wednesday in February succeeding the meeting of the electors.

The Constitution also defines who is eligible for President of the United States, as follows:

No person except a natural-born citizen or a citizen of the United States at the time of the adoption of this Constitution shall be eligible to the office of President; neither shall any person be eligible to that office who shall not have attained to the age of thirty-five years.

The qualifications for Vice-President are the same.

SALARY OF THE PRESIDENT.

The salary of the President of the United States was the cause of discussion in the First Congress, in view of the fact that the Constitution declared that the President should receive compensation for his services. Washington had notified his fellow citizens that he desired no salary. The limits suggested in Congress ranged from \$15,000 to \$70,000. The salary was finally placed at \$25,000 and this remained the compensation until President Grant's second term (March 3, 1873), when it was increased to \$50,000. Chapter 2913 of the Laws of the Second Session of the Fifty-ninth Congress, Approved March 4, 1907, appropriated "for travelling expenses of the President of the United States, to be expended at his discretion and accounted for by his certificate solely, \$25,000." In the Second Session of the Sixtieth Congress the matter of increasing the President's salary was again considered, and it was decided that the President's salary be fixed at \$75,000 a year.

REFERENCE NOTES TO THE TWO FOLLOWING PAGES.

* The candidates starred were elected. (a) The first Republican Party is claimed by the present Democratic Party as its progenitor. (b) No candidate having a majority of the electoral vote, the House of Representatives elected Adams. (c) Candidate of the Anti-Masonic Party. (d) There being no choice, the Senate elected Johnson. (e) Eleven Southern States, being within the belligerent territory, did not vote. (f) Three Southern States disfranchised. (g) Horace Greely died after election, and Democratic electors scattered their votes. (h) There being a dispute over the electoral vote of Florida, Louisiana, Oregon, and South Carolina, they were referred by Congress to an electoral commission composed of eight Republicans and seven Democrats, which by a strict party vote, awarded 195 electoral votes to Hayes and 184 to Tilden. (i) Free Democrat. (j) Free Silver Prohibition Party. (k) In Massachusetts. There was also a Native American ticket in that State, which received 184 votes. (m) Middle of the Road or Anti-Fusion People's Party. (n) United Christian Party. (o) Union Reform Party.

Presidential Elections.

Norr.—There is, properly speaking, no popular vote for President and Vice-President; the people vote for electors, and those chosen in each State meet therein and vote for the candidates for President and Vice-President. The record of any popular vote for electors prior to 1828 is so meagre and imperfect that a compilation would be useless. In most of the States, for more than a quarter century following the establishment of the Government, the State Legislatures "appointed" the Presidential electors, and the people therefore voted only indirectly for them, their choice being expressed by their votes for members of the Legislature. In this tabulation only the aggregate electoral votes for candidates for President and Vice-President in the first ten quadrennial elections appear.

ELECTORAL VOTES.

1789. Previous to 1804, each elector voted for two candidates for President. The one who received the largest number of votes was declared President, and the one who received the next largest number of votes was declared Vice-President. The electoral votes for the first President of the United States were: George Washington, 69; John Adams, of Massachusetts, 34; John Jay, of New York, 9; K. H. Harrison, of Maryland, 6; John Rutledge, of South Carolina, 6; John Hancock, of Massachusetts, 4; George Clinton, of New York, 3; Samuel Huntington, of Connecticut, 2; John Milton, of Georgia, 2; James Armstrong, of Georgia; Benjamin Lincoln, of Massachusetts, and Edward Telfair, of Georgia, 1 vote each. Vacancies (votes not cast), 4. George Washington was chosen President and John Adams Vice-President.

1792. George Washington, Federalist, received 132 votes; John Adams, Federalist, 77; George Clinton, of New York, Republican (a), 50; Thomas Jefferson, of Virginia, Republican, 4; Aaron Burr, of New York, Republican, 1 vote. Vacancies, 3. George Washington was chosen President and John Adams Vice-President.

1796. John Adams, Federalist, 71; Thomas Jefferson, Republican, 68; Thomas Pinckney, of South Carolina, Federalist, 59; Aaron Burr, of New York, Republican, 30; Samuel Adams, of Massachusetts, Republican, 15; Oliver Ellsworth, of Connecticut, Independent, 11; George Clinton, of New York, Republican, 7; John Jay, of New York, Federalist, 5; James Iredell, of North Carolina, Federalist, 3; George Washington, of Virginia; John Henry, of Maryland, and S. Johnson, of North Carolina, all Federalists, 2 votes each; Charles Cotesworth Pinckney, of South Carolina, Federalist, 1 vote. John Adams was chosen President and Thomas Jefferson Vice-President.

1800. Thomas Jefferson, Republican, 73; Aaron Burr, Republican, 73; John Adams, Federalist, 65; Charles C. Pinckney, Federalist, 64; John Jay, Federalist, 1 vote. There being a tie vote for Jefferson and Burr, the choice devolved upon the House of Representatives. Jefferson received the votes of ten States, which, being the largest vote cast for a candidate, elected him President. Burr received the votes of four States, which, being the next largest vote, elected him Vice-President. There were 2 blank votes.

1804. The Constitution of the United States having been amended, the electors at this election voted for a President and a Vice-President, instead of for two candidates for President. The result was as follows: For President, Thomas Jefferson, Republican, 162; Charles C. Pinckney, Federalist, 14. For Vice-President, George Clinton, Republican, 162; Rufus King, of New York, Federalist, 14. Jefferson was chosen President and Clinton Vice-President.

1808. For President, James Madison, of Virginia, Republican, 122; Charles C. Pinckney, of South Carolina, Federalist, 47; George Clinton, of New York, Republican, 6. For Vice-President, George Clinton, Republican, 113; Rufus King, of New York, Federalist, 47; John Langdon, of New Hampshire, 9; James Madison, 3; James Monroe, 3. Vacancy, 1. Madison was chosen President and Clinton Vice-President.

1812. For President, James Madison, Republican, 128; De Witt Clinton, of New York, Federalist, 89. For Vice-President, Elbridge Gerry, of Massachusetts, 131; Jared Ingersoll, of Pennsylvania, Federalist, 86. Vacancy, 1. Madison was chosen President and Gerry Vice-President.

1816. For President, James Monroe, of Virginia, Republican, 183; Rufus King, of New York, Federalist, 34. For Vice-President, Daniel D. Tompkins, of New York, Republican, 183; John Eager Howard, of Maryland, Federalist, 22; James Ross, of Pennsylvania, 5; John Marshall, of Virginia, 4; Robert G. Harper, of Maryland, 3. Vacancies, 4. Monroe was chosen President and Tompkins Vice-President.

1820. For President, James Monroe, of Virginia, Republican, 231; John Q. Adams, of Massachusetts, Republican, 1. For Vice-President, Daniel D. Tompkins, Republican, 218; Richard Stockton, of New Jersey, 8; Daniel Rodney, of Delaware, 4; Robert G. Harper, of Maryland, and Richard Rush, of Pennsylvania, 1 vote each. Vacancies, 3. James Monroe was chosen President and Daniel D. Tompkins Vice-President.

1824. For President, Andrew Jackson, of Tennessee, Republican, 99; John Quincy Adams, of Massachusetts, Republican, 84; Henry Clay, of Kentucky, Republican, 37; William H. Crawford, of Georgia, Republican, 41. No candidate having a majority of the electoral vote, John Quincy Adams was elected by the House of Representatives. For Vice-President, John C. Calhoun, of South Carolina, Republican, 182; Nathan Sanford, of New York, Republican, 80; Nathaniel Macon, of North Carolina, Republican, 24; Andrew Jackson, of Tennessee, Republican, 13; Martin Van Buren, of New York, Republican, 9; Henry Clay, of Kentucky, Republican, 2; Calhoun was chosen Vice-President.

THE PRESIDENTS OF THE UNITED STATES—Continued.

NOTES TO THE TABLES OF THE PRESIDENTS, ON THE TWO PRECEDING PAGES.

* Monroe abandoned the profession of law when a young man, and was afterward, and until his election, always holding public office. † Jackson called himself a South Carolinian, and his biographer, Kundall, recorded his birthplace in Lancaster Co., S. C.; but Parton has published documentary evidence to show that Jackson was born in Union Co., N. C., less than a quarter mile from the South Carolina line. ‡ Or of departure from college.

§ Widows. Their maiden names are in parentheses. | She was the divorced wife of Captain Robards. (a) The Democratic party of to-day claims lineal descent from the first Republican party, and President Jefferson as its founder. (b) Political parties were disorganized at the time of the election of John Quincy Adams. He claimed to be a Republican, but his doctrines were decidedly Federalistic. The opposition to his Administration took the name of Democrats, and elected Jackson President.

(c) Randall, the biographer of Jefferson, declares that he was a believer in Christianity, although not a sectarian. (d) While President Johnson was not a church-member, he was a Christian believer. His wife was a Methodist.

Washington's first inauguration was in New York, and his second in Philadelphia. Adams was inaugurated in Philadelphia, and Jefferson and the Presidents following elected by the people, in the city of Washington. Arthur took the Presidential oath of office first in New York City. John Adams and Jefferson died on the same day, the Fourth of July, 1826, and Monroe died on the Fourth of July five years later. John Quincy Adams was a Representative and Andrew Johnson a Senator in Congress after the expiration of their Presidential terms, and both died while holding those offices. Tyler was a Representative in the Confederate Congress from Virginia, and died in office.

Lincoln, Garfield and McKinley were assassinated while in office. Lincoln at Ford's Theatre, Washington, D. C., April 14, 1865, from a pistol shot fired by John Wilkes Booth, who was killed near Fredericksburg, Va., April 26, 1865, by Sergeant Boston Corbett. Garfield was shot in the Pennsylvania Railroad Depot, Washington, D. C., July 2, 1881, and died at Elberon, Long Branch, N. J., September 19, 1881. The assassin was Charles Jules Guiteau, who was hanged at Washington, D. C., June 30, 1882. McKinley was shot twice September 6, 1901, while in the Temple of Music of the Pan-American Exposition, Buffalo, N. Y., and died from his wounds at the home of John G. Milburn, Buffalo, September 14, 1901. The assassin was Louis Czolgosz, who was electrocuted at Auburn State Prison, New York, October 29, 1901.

Jackson was shot at in the Capitol at Washington, D. C., January 29, 1835, by a house painter named Richard Lawrence, escaping because the pistol of the assassin missed fire. Ex-President Roosevelt was shot and wounded by John Schrank, an insane man, at Milwaukee, Wis., October 14, 1912.

Cleveland after taking the oath as President, kissed the open bible, his lips touching Psalm CXII, verses 5-10, inclusive. Garfield's first act after taking the oath was to kiss his mother.

The sixth President was the son of the second President, and the twenty-third President was the grandson of the ninth President. William Henry Harrison was the eighth and Benjamin Harrison the tenth in descent from Pocahontas and John Rolfe. Lincoln was the first President wearing a full beard. Grant the first wearing a mustache. Buchanan and Cleveland were bachelors when they entered the White House as Presidents, but Cleveland surrendered during his first term. Washington, Monroe, Pierce and Hayes were born on Friday. J. Q. Adams, Pierce and Garfield were inaugurated on Friday. Tyler, Polk and Pierce died on Friday. Lincoln was assassinated on Friday.

There were remarkable coincidences in the lives of Abraham Lincoln and Jefferson Davis. Both were born in Kentucky; Lincoln in 1809, Davis in 1808. Both removed from their native State in childhood, Lincoln to the Northwest, Davis to the Southwest. Lincoln was a Captain of Volunteers and Davis a Second Lieutenant of Regulars in the Black Hawk War of 1832. They began their political careers the same year, 1844, Lincoln being a Presidential Elector for Clay, and Davis for Polk. They were elected to Congress about the same time, 1845 and 1846. They were called to preside over their respective governments the same year and within a few days; Davis, February 8, 1861, Lincoln, March 4, 1861.

Washington, Monroe, and Jackson were soldiers in the Revolutionary war; Jackson, W. H. Harrison, Tyler, Taylor, and Buchanan in the war of 1812-15; Lincoln in the Black Hawk war; Taylor, Pierce, and Grant in the Mexican war; Grant, Hayes, Garfield, Arthur, B. Harrison, and McKinley in the civil war, and Roosevelt was in the war with Spain. Adams and Jefferson were signers of the Declaration of Independence, and Washington and Madison of the Constitution.

Grant was christened Hiram Ulysses and Cleveland, Stephen Grover. W. H. Harrison was the eldest man elected to the Presidency, and Roosevelt the youngest, Grant being the next youngest by six months. Cleveland was the only President married in the White House, and his second daughter the only President's child born therein. Monroe's daughter (Mrs. Gouverneur), Grant's daughter (Mrs. Sartoris), and Roosevelt's daughter (Mrs. Longworth), were the only children of Presidents married therein. Wives of Tyler and Benjamin Harrison died in the White House. W. H. Harrison was father of the largest family, six sons and four daughters. Eight Presidents: Washington, Jefferson, Madison, Monroe, W. H. Harrison, Tyler, Taylor and Wilson were Virginians by birth. Six Presidents: Grant, Hayes, Garfield, B. Harrison, McKinley and Taft were Ohioans by birth.

THE PRESIDENTIAL SUCCESSION.

The Presidential succession is fixed by chapter 4 of the acts of the Forty-ninth Congress, first session, in case of the removal, death, resignation, or inability of both the President and Vice-President, then the Secretary of State shall act as President until the disability of the President or Vice-President is removed or a President is elected. If there be no Secretary of State, then the Secretary of the Treasury will act; and the remainder of the order of succession is as follows: The Secretary of War, Attorney-General, Postmaster-General, Secretary of the Navy, and Secretary of the Interior. The acting President must, upon taking office, convene Congress, if not at the time in session, in extraordinary session, giving twenty days' notice. This act applies only to such Cabinet officers as shall have been confirmed by the Senate and are eligible under the Constitution to the Presidency.

The States in the Presidential Elections, 1868-1912.

Title and Term of the President.

The address of the President is simply "The President of the United States." In the First Congress, there was debate over a title and it was proposed by some members that he be addressed as "His Excellency" and by others as "His Highness," but a committee reported that "It is not proper to annex any style or title other than that expressed in the Constitution." In the Constitutional Convention the first report fixed the term of office at seven years without eligibility to re-election. In debate various periods from "during good behavior" to twenty years were favored. The limit to four years was finally adopted in grand committee and ratified by the convention.

Government of the District of Columbia.

The municipal government of the District of Columbia is vested by act of Congress approved June 11, 1878, in three Commissioners, two of whom are appointed by the President from citizens of the District having had three years' residence therein immediately preceding that appointment, and confirmed by the Senate. The other Commissioner is detailed by the President of the United States from the Corps of Engineers of the United States Army, and must have lineal rank senior to Captain, or be a Captain who has served at least fifteen years in the Corps of Engineers of the Army. The Commissioners appoint the subordinate official service of said government, except the Board of Education, which is appointed by the Supreme Court of the District of Columbia. Commissioners: Cuno H. Rudolph (Republican) and John A. Johnston (Democrat), whose terms expire January 24, 1913. Major W. V. Judson (non-partisan), Corps of Engineers, United States Army, detailed during the pleasure of the President of the United States; Secretary, William Tindall. Offices of Commissioners, District Building, Washington, D. C.

718 The Direct Vote for Senators Amendment.

THE SIXTY-second Congress, at its second session, adopted the following joint resolution, proposing an amendment to the Constitution providing that Senators shall be elected by the people of the several States:

Resolved by the Senate and House of Representatives of the United States of America in Congress assembled (two-thirds of each House concurring therein), That in lieu of the first paragraph of section three of Article I. of the Constitution of the United States, and in lieu of so much of paragraph two of the same section as relates to the filling of vacancies, the following be proposed as an amendment to the Constitution, which shall be valid to all intents and purposes as part of the Constitution when ratified by the Legislatures of three-fourths of the States:

"The Senate of the United States shall be composed of two Senators from each State, elected by the people thereof, for six years; and each Senator shall have one vote. The electors in each State shall have the qualifications requisite for electors of the most numerous branch of the State Legislatures.

"When vacancies happen in the representation of any State in the Senate, the executive authority of such State shall issue writs of election to fill such vacancies: Provided, That the Legislature of any State may empower the executive thereof to make temporary appointments until the people fill the vacancies by election as the Legislature may direct.

"This amendment shall not be so construed as to affect the election or term of any Senator chosen before it becomes valid as part of the Constitution."

NOTE—As there are forty-eight States, the proposed amendment must receive the approval of thirty-six States. Up to November 15, 1912, it had been ratified by two States, Massachusetts and Minnesota.

SUMMARY OF TOTAL APPROPRIATIONS FOR CITY AND COUNTIES.

	Appropriations 1911.	Appropriations 1912.
The City of New York.	\$168,514,029.91	\$170,873,102.43
The County of New York.	3,378,161.00	6,888,611.29
The County of Kings.	1,621,853.33	2,612,195.68
The County of Queens.	336,210.45	553,815.34
The County of Richmond.	117,580.47	162,531.77
Grand Totals.	\$173,967,835.16	\$181,090,256.51

N. B.—The total appropriations for interest on and redemption of the city debt; education, health and sanitation; protection of life and property, and charitable purposes in 1911 were \$128,007,426.15, or 78.06 per cent. of the total budget appropriations for said year. For 1912 the appropriations for these purposes aggregate \$136,782,139.73, or 76.93 per cent. of the total budget.

The most notable increases in the budget of 1912 over that of 1911 are—\$4,761,493.58 for educational purposes and \$4,301,345.65 for State tax—the first direct State tax which has been levied against the city since 1907, for which year it was \$75,704.13.

The Health Department's estimate of 1911 gave the city's population as 4,983,385, and its estimate of the population at the mid-period of 1912 is 5,173,064.

Presidential Primaries, 1912.

California—*Democratic*: Clark, 43,163; Wilson, 17,214. *Republican*—Taft, 69,345; Roosevelt, 138,563; La Follette, 45,876.

Georgia—*Democratic*: Underwood, 71,410; Wilson, 57,267. No Presidential primary was held by the Republican party or by the National Progressive party in Georgia.

Illinois—*Democratic*: Clark, 218,483; Wilson, 75,527. *Republican*: Taft, 127,481; Roosevelt, 266,917; La Follette, 42,692.

Maryland—*Democratic*: Clark, 34,510; Wilson, 22,816; Harmon, 7,157. *Republican*: Taft, 26,618; Roosevelt, 29,674.

Massachusetts—*Democratic*: Clark, 34,575; Wilson, 15,002; all others, 627. *Republican*: Taft, 86,722; Roosevelt, 83,099; La Follette, 2,058; all others, 99.

Missouri—No Presidential primary was held in Missouri, but there was a "ballot primary" held by the Democratic party, by counties, for the election of delegates to their State convention, and at this primary Champ Clark had a majority over former Gov. Joseph W. Folk.

Nebraska—*Democratic*: Clark, 21,027; Wilson, 14,289; Harmon, 12,454. *Republican*: Taft, 13,341; Roosevelt, 46,795; La Follette, 16,785.

New Jersey—*Democratic*: Clark, 522; Wilson, 48,336; Harmon, 60; Bryan, 47. *Republican*: Taft, 44,034; Roosevelt, 61,297; La Follette, 3,464.

New York—No Presidential preference primaries. The Roosevelt people, in 1912, contested the Congressional Districts in Manhattan and in Kings County, but outside of this there were no contests of moment elsewhere in the

State, and only an insignificant part of the New York delegation was for Roosevelt, the rest being for Mr. Taft.

North Dakota—*Democratic*: John Burke, 9,357. *Republican*: Taft, 1,876; Roosevelt, 23,669; La Follette, 34,123.

Ohio—*Democratic*: Harmon, 100,099; Wilson, 89,116; Clark, 2,489; Bryan, 2,490. The Republican party held no Presidential primary.

Oregon—*Democratic*: Clark, 7,857; Wilson, 9,588; Harmon, 606. *Republican*: Taft, 20,517; Roosevelt, 28,905; La Follette, 22,491.

Pennsylvania—*Democratic*: Clark, 710; Harmon, 394; Wilson, 97,585; Unpledged, 53,953. *Republican* (National Delegate)—Roosevelt, (highest candidate) 273,962; Taft, (highest candidate) 193,063; all other candidates, 37,327.

South Dakota—*Democratic*: Clark-Bryan, 4,275; Wilson-Bryan, 4,694; Champ Clark, 2,722. *Republican*: Taft, 10,944; Roosevelt, 38,106; La Follette, 19,060.

The vote on the Presidential primary held in South Dakota was taken in June, 1912, upon the candidates for election as delegates to the national conventions of the Republican party and of the Democratic party and the result was secured by votes under different mottoes, which were more or less conflicting, especially in the Democratic list, and the Republican party also was not free from such entanglements.

Wisconsin—*Democratic*: Clark, 36,464; Wilson, 45,945. *Republican*: Taft, 47,514; Roosevelt, 628; La Follette, 133,354. *Prohibition*: Eugene W. Chaffin 2,808; Oliver W. Stewart, 2,443.

DIRECT PRIMARY VOTE FOR UNITED STATES SENATOR, GOVERNOR AND CONGRESSMAN IN SOME STATES.

Georgia—*Governor*: John M. Slaton, Dem., 104,857; Joe Hill Hall, Dem., 24,536; Hooper Alexander, Dem., 39,037.

Illinois—*United States Senator*: James H. Lewis, Dem., 228,872; Hugh S. Magill, Rep., 78,344; Shelby M. Cullom, Rep., 129,275; Lawrence Y. Sherman, Rep., 178,063; William G. Webster, Rep., 24,567; Alonzo E. Wilson, Pro., 3,786.

Governor: Ben F. Caldwell, Dem., 71,972; Samuel Alschuler, Dem., 87,127; Geo. E. Dickson, Dem., 9,034; Edward F. Dunne, Dem., 131,212; Chas. S. Deneen, Rep., 452,997; Len Small, Rep., 88,829; John E. W. Weyman, Rep., 61,178; Chas. F. Hurburgh, Rep., 29,992; John J. Brown, Rep., 31,995; Walter C. Jones, Rep., 22,491; J. McCan Davis, Rep., 6,855; Richard Yates, Rep., 45,325; John C. Kennedy, Soc., 8,333; Edwin R. Worrell, Pro., 3,568.

Kansas—*United States Senator*: Stephen N. Allen, Dem., 10,315; Thos. L. Bond, Dem., 7,358; Hugh P. Fawcett, Dem., 19,342; Wm. H. Thompson, Dem., 17,652; Chas. Curtis, Rep., 58,669; W. R. Stubbs, Rep., 57,353; Allen W. Ricker, Soc., 4,611.

Kentucky—*Representatives in Congress*: First District—Smith, Dem., 5,768; Hendricks, Dem., 3,452; Barkley, Dem., 9,261; Corbett, Dem., 895. Second District—A. O. Stanley, Dem., 2,925. Third District—R. Y. Thomas, Dem., 7,187; John S. Rhea, Dem., 6,939; Geo. Baker, Rep., 1,023; Thomas B. Dixon, Rep., 1,657. Fourth District—Ben. Johnson, Dem., 3,741; J. P. Whittingill, Rep., 77; John C. Thompson, Rep., 1,028. No returns received from the Fifth, Sixth and Seventh Districts. Eighth District—Harvey Helm, Dem., 8,946; Jerry Sullivan, Dem., 2,296; J. W. Densmore, Rep., 979.

Louisiana—*United States Senator*: 1913 Term—Murphy J. Foster, Dem., 52,565; Joseph E. Ransdell, Dem., 57,935. 1915 Term—Robert F. Broussard, Dem., 50,263; A. P. Pujol, Dem., 26,621; J. Y. Sanders, Dem., 40,209.

Governor: J. B. Aswell, Dem., 23,800; L. E. Hall, Dem., 53,407; John T. Michel, Dem., 46,201.

Michigan—*United States Senator*: Alfred Lucking, Dem., 22,866; Geo. P. Hummer, Dem., 15,424; Wm. Alden-Smith, Rep., 149,922; Theodore M. Joslin, Prog., 9,283; H. S. McMaster, Soc., 3,378; Wm. A. Taylor, Pro., 2,237.

Governor: Woodbridge N. Ferris, Dem., 39,457; Amos S. Musselman, Rep., 86,191; Frederick C. Martindale, Rep., 82,714; Lucius W. Watkins, Prog., 9,770; James Hoogerhyde, Soc., 3,471; J. D. Leland, Pro., 2,115.

Congressman-at-Large: Edward Frensdorf, Dem., 34,655; Patrick H. Kelley, Rep., 131,066; Wm. H. Hill, Prog., 4,744; Julius B. Kirby, Prog., 3,696; Milan F. Martin, Soc., 29; Fred W. Corbett, Pro., 1,975; Harry M. McNeal, 21.

Missouri—*Governor*: Ball, Dem., 13,074; Bolte, Dem., 10,220; Cowherd, Dem., 89,491; Houchin, Dem., 20,369; Major, Dem., 92,233; Brewster, Rep., 583; McKinley, Rep., 95,220; Murphy, Rep., 11,209; Quick, Rep., 38,078; Swanger, Rep., 144; Ward, Soc., 6,543; Rogers, Soc. Labor, 187; Stokes, Pro., 614.

New Hampshire—*Governor*: Samuel D. Felker, Dem., 7,984; Franklin Worcester, Rep., 18,609.

Representatives in Congress: First District—Eugene E. Reed, Dem., 4,497; Cyrus A. Sulloway, Rep., 10,098. Second District—Raymond B. Stevens, Dem., 3,334; Frank D. Currier, Rep., 8,673.

New York—The primaries in the city of New York were held on September 18, 1912, but proved to be of little interest, since in every case the "organization" candidates were selected. In the Borough of Manhattan there was only one contest of note, namely that of former Assemblyman Franklin Brooks, Rep., whose name had been put on the primary ballot by petition, against John W. Yawger, Rep., for the nomination for Senator. Mr. Yawger won the nomination. In the Borough of Brooklyn there were eleven contests, but in every instance there were eleven contests, but in every instance the "regulars" won. In the third Congress District, Kings County, Frank D. Wilson, Dem., with 2,943 votes, defeated Alderman Francis P. Bent, who received

1,526 votes. In the Eighth Senate District James F. Duhamel, Ind. League, defeated his opponent, Robert B. Ward.

Washington—*Representative in Congress (at Large)*: Robert McMurcline, Dem., 5,510; Geo. F. Cilstensen, Dem., 5,866; E. O. Connor, Dem., 9,933; Harry D. Merritt, Dem., 8,048; Henry M. White, Dem., 9,655; Edwin F. Materson, Dem., 4,849; M. E. Gile, Dem., 9,106; Frank Hammond, Rep., 20,357; Henry B. Dewey, Rep., 28,449; Harry Rosenhaut, Rep., 17,700; John P. Fay, Rep., 18,680; A. C. Shaw, Rep., 18,231; J. E. Frost, Rep., 33,178; Arthur Simons, Rep., 11,722; Alfred Wagenknecht, 8,757.

First District—Charles Heifner, Dem., 4,076; Thos. R. Horner, Dem., 2,081; Wm. E. Humphrey, Rep., 23,833; David Perry Rice, Rep., 6,560; Joseph Gilbert, Soc., 4,578. Second District—Chas. Drury, Dem., 1,646; James A. Munday, Dem., 1,723; Geo. Hazzard, Dem., 788; Leslie E. Aller, Dem., 2,727; Stanton Warbarton, Rep., 3,196; Thos. C. Van Eaton, Rep., 7,303; Albert Johnson, Rep., 13,732; Norman S. Richards, Rep., 5,500. Third District—Roscoe M. Drum-belles, Dem., 5,379; V. T. Tustin, Dem., 3,400; Martin J. Maloney, Dem., 4,054; Wm. L. La Follette, Rep., 19,017; Geo. W. Shaefer, Rep.,

3,513; W. M. Ridpath, Rep., 4,918; Robert B. Martin, Soc., 2,060.

Governor: Hugh C. Todd, Dem., 7,322; L. F. Chester, Dem., 3,980; Ernest Lister, Dem., 7,629; Wm. Henry Dunphy, Dem., 5,357; M. M. God-man, Dem., 5,517; E. C. Millon, Dem., 5,739; *W. W. Black, Dem., 8,166; M. E. Hay, Rep., 69,005; Orville Billings, Rep., 20,689; W. A. Maley, Soc., 9,788. *Supreme Court, Decison No. 10,755, October 10, 1912, granted application for permanent writ prohibiting State Canvassing Board from certifying to Secretary of State the nomination of W. W. Black as Governor and prohibited Secretary of State from certifying his nomination.

Wisconsin—*Governor*: John C. Karel, Dem., 48,238; Adolph J. Schmitz, Dem., 36,975; Francis E. McGovern, Rep., 81,399; Carl D. Thompson, Soc. Dem., 12,726; Chas. L. Hill, Pro., 2,385.

Wyoming—*United States Senator*: J. B. Kendrick, Dem., 7,216; F. E. Warren, Rep., 12,092.

Representative in Congress (at Large): T. P. Fahey, Dem., 4,369; J. J. Spriggs, Dem., 1,794; T. W. Mondell, Rep., 12,772.

STATES THAT HAVE AND STATES THAT DO NOT HAVE PRIMARY LAWS—THE ELECTION OF UNITED STATES SENATORS BY DIRECT PRIMARIES.

Connecticut—No State primary election and no amendment has been adopted calling for the direct election of United States Senators by the people.

Delaware—No State primary law, although the County of New Castle has a direct primary law.

Florida—Has not adopted an amendment calling for the direct election of United States Senators by the people.

Idaho—A State primary election was held on July 30, 1912, but the vote in detail is not yet available. The Legislature in 1911 passed a memorial asking that a resolution, which was then pending in the Senate of the United States, proposing to submit to the several States an amendment to the Federal Constitution providing for the election of United States Senators by direct vote of the people be passed.

Illinois—The laws of this State provide that any candidate for President of the United States or for United States Senator may have his name printed upon the primary ballot of his political party by filing in the office of the Secretary of State, 30 days prior to the April primary, a petition signed by a certain number of members of his party, provided that the vote upon candidates for United States Senator "shall be had for the sole purpose of ascertaining the sentiment of the voters of the respective parties in the State as a whole and not by Senatorial districts; and provided further that the vote for President of the United States shall be for the sole purpose of securing an expression of the sentiment and will of the party voters with respect to candidates for nomination for said office, and the vote of the State at large shall be taken and considered as advisory to the delegates and alternates at large to the national conventions of the respective political parties; and the vote of the respective Congressional Districts shall be taken and considered as advisory to the delegates and alternates of said Congressional districts to the national convention of the respective political parties."

Indiana—No preference primary law.

Iowa—No law requiring the direct election of United States Senators, except that the various political parties nominated their respective candidates for the office of United States Senator at the primary held the preceding June. Then when the Legislature convenes during the following January, whichever party has a majority of members in the Legislature is supposed to be in honor bound to elect the candidate nominated by that party at the primary.

Massachusetts—The State has adopted an amendment providing for the direct election of United States Senators by the people.

Minnesota—The State Legislature has ratified the amendment calling for the direct election of United States Senators.

Montana—No primary law in this State.

Nebraska—The laws of this State provide that at the general election immediately preceding the expiration of the term of a United States Senator the voters shall express a preference for United States Senator.

Nevada—This State has not yet adopted an amendment calling for the direct election of United States Senators by the people.

North Carolina—No State primary law.

North Dakota—Election law says that a candidate for member of the Legislature may give a pledge to vote for the candidate of his party who has received the largest number of votes for United States Senator.

Ohio—Has a law approved by Governor Harmon on May 18, 1911, providing that at primary elections, where candidates may be chosen to the General Assembly, whose duty it shall be to elect a United States Senator, "there shall be placed on the official primary ballots by each of the boards of Deputy State Supervisors of Elections the names of all candidates for United States Senator;" that the candidate of each party "who receives the largest number of votes at such primary election shall be and become the candidate of his party for such office," and that candidates for the Legislature may file a statement that they will always vote for that candidate for United States Senator who shall have received the largest number of votes or another statement that they will consider the vote of the electors for United States Senator "as nothing more than a recommendation" that they shall be at liberty to "wholly disregard."

Rhode Island—No primary law, and has not adopted an amendment calling for the direct election of United States Senators.

Tennessee—Has no compulsory primary law. The State has adopted an amendment calling for the direct election of United States Senators by the people.

Utah—There is no State primary election in this State. All nominations for State or county offices are made by convention.

West Virginia—This State has not adopted an amendment calling for the direct election of United States Senators by the people.

Election Returns.

BY STATES, COUNTIES, AND CONGRESSIONAL DISTRICTS.

ALABAMA—Continued.

For Governor in 1910 Scott, Progressive Rep., received 837 votes; Carter, Soc., 1,042.

For President in 1908 Hisgen, Ind., received 495 votes.

Bryan's Democratic vote in 1896 was 105,390, and the Populist vote 24,917. The scattering vote: Palmer, N. D., 6,462; Levering, Pro., 2,147.

VOTE FOR REPRESENTATIVES IN CONGRESS, 1912.

Districts.

I. Counties of Choctaw, Clarke, Marengo, Mobile, Monroe, and Washington. Taylor, Dem., 9,939; Doyle, Soc., 213.

II. Counties of Baldwin, Butler, Conecuh, Covington, Crenshaw, Escambia, Montgomery, Pike, and Wilcox. Dent, Jr., Dem., 11,197.

III. Counties of Barbour, Bullock, Coffee, Dale, Geneva, Henry, Lee, and Russell. Clayton, Dem., 11,225.

IV. Counties of Calhoun, Chilton, Cleburne, Dallas, Shelby, and Talladega. Blackmon, Dem., 7,740; Sturdivant, Rep., 692; Longshore, Prog., 3,060.

V. Counties of Autauga, Chambers, Clay, Coosa, Elmore, Lowndes, Macon, Randolph, and Tallapoosa. Hedlin, Dem., 10,210.

* In December, 1912, the State Board of Canvassers attempted to learn the number of votes cast for Oscar S. Straus respectively by the National Progressive Party and the Independence League. The votes of the two parties were lumped together in the announcement made by the State Board, and it was considered doubtful if they could be separated. Independence League result was shown by and it was considered doubtful if they could be separated. He was the only man on the Independence League ticket who was solely the Independence League Party's candidate.

For President, 1912, Chafin, Prob. received 18,990 votes; Hall, Soc. Lab., 4,461.
 For Governor, 1912, McNicholl, Cuddeback, Dem. and Ind. L., 654,626; Hogan, Dem., 642,004;
 Vote for Court of Appeals, 1912, Cuddeback, Dem. and Ind. L.; Kirchweg, Prog. and Ind. L.; Hiscock, Rep., 470,895; Chase, Rep., 407,743; Alden, Prog., 336,918; Kirchweg, Prog. and Ind. L., 348,887.

In 1908 the vote of the highest Republican Presidential Elector was \$70,070, the highest Democratic, 667,468. In 1912, Democratic, 655,475; Republican, 455,428; Progressive, 390,021.

The proposal to bond the State for an additional \$50,000,000 for good roads construction was carried by 376,283 votes in the election of Nov. 5, 1912. There were 657,548 votes cast in favor of the proposal, and 281,265 recorded against it.

VOTE OF CITY OF NEW YORK FOR PRESIDENT AND GOVERNOR, 1912.

PORTO RICO.

Governor, G. R. Colton; Secretary, M. Drew Carrel; Treasurer, Allan H. Richardson; Auditor, J. W. Bonner; Attorney-General, Wolcott H. Pitkin, Jr.; Commissioner of Education, Edward M. Bainter; Commissioner of the Interior, John A. Wilson; Resident Commissioner of Territory at Washington, Louis Munoz Rivera.

Judiciary—Chief Justice, José C. Hernandez; Justices, Emilio del Toro, James H. McLeary, Adolph G. Wolf and Pedro de Aldrey; U. S. District Judge, Paul Charlton; U. S. District-Attorney, W. N. Landers.

The Insular Legislature consists of an upper and lower house. The lower house is the elective branch and has 35 members, five from each of seven districts. Twenty-eight belong to the Unionist party and 7 to the Republican party. The Legislature sits for sixty days each year, the sessions beginning on the second Monday in January.

Whole vote	62,807		64,812			

Total vote for Governor in 1912, 64,812, of which Allan M. Fletcher, Rep., had a plurality of 6,236 over Harland B. Howe, Dem., but Fletcher lacked the majority required for election by the Vermont Constitution. The election went to the joint session of the Legislature, which elected Fletcher and the full State ticket, none of which was elected by popular vote.

For President in 1912, Chafin, Proh., received 1,154 votes; Debs, Soc., 923.

For Governor in 1912, C. F. Smith, Proh., received 1,735 votes; F. W. Sutor, Soc., 1,210.

For Governor in 1908, Backus, Ind., received 1,351 votes.

VOTE FOR REPRESENTATIVES IN CONGRESS, 1912.

Districts.
I. Counties of Addison, Bennington, Chittenden, Franklin, Grand Isle, Lamoille, and Rutland. Meldon, Dem., 9,154; Greene, Rep., 15,469; Story, Proh., 797; Spargo, Soc., 454.

II. Counties of Caledonia, Essex, Orange, Orleans, Washington, Windsor, and Windsor. Cochran, Dem., 6,226; Plimley, Rep., 13,296; Sawyer, Dem., 8,269; Phillips, Proh., 532; Ordway, Soc., 766.

PRESENT STATE GOVERNMENT.

Governor, Allan M. Fletcher; Lieutenant-Governor, F. E. Howe; Secretary of State, Guy W. Bailey; Treasurer, Edward H. Deavitt; Auditor, Horace F. Graham; Attorney-General, R. E. Brown; Adjutant-General, Lee S. Tillotson; Superintendent of Education, Mason S. Stone; Commissioner of Insurance, E. H. Deavitt, and Guy W. Bailey; Commissioner of Agriculture, O. L. Martin—all Republicans.

JUDICIARY.

Supreme Court: Chief Justice, John W. Rowell; Assistant Justices, Loveland Munson, John H. Watson, Seneca Haselton, Geo. M. Powers; Clerk, L. C. Moody,—all Republicans, except Haselton.

YELLOW.....	Bad	Bad	Bad	Strong	Strong	Bad	Fair	Weak	Strong	...

NOTE—When it is desired to use in window trims, decorations, etc., two colors which make a displeasing combination, the introduction between them of gray, white or black relieves the discord. White in conjunction with any color intensifies that color. Black has the opposite effect. For pink use the salmon line; for ivory use the cream line; for pearl use the gray line.

LIST OF OFFICIALS AND SALARIES—(SUBJECT TO CHANGE).

Mayor.—William J. Gaynor (\$15,000).
Secretary.—Robt' Adamson, 6 City Hall (\$6,500).

Amusement Places in Manhattan and Bronx. 775

* Seating capacity is given from information furnished by the owners or managers of the theatres, but as some houses are able to add extra seats during important engagements the figures, in a few cases, are likely to vary slightly. On Dec. 12, 1911, the Board of Aldermen adopted a charter amendment permitting staudes in theatres. The amendment provides that "any number of persons or rows of persons" may stand in the aisles back of the seats on the orchestra floor provided that a space six feet wide be kept clear when the aisles are sixteen feet wide or under, and that ten feet shall be kept clear when the aisles are more than sixteen feet in width. Only one row of staudes is permitted in the galleries.

THEATRES IN COURSE OF CONSTRUCTION ON JANUARY 1, 1913.

Broadway and 146th St., 116th St. and 5th Ave., 7th Ave. and 116th St., Lenox Ave. and 111th St., Broadway and 97th St., 5th Ave. and 106th St., 3d Ave. and 87th St., 138-146 W. 48th St., 221-233 W. 44th St., Broadway and 47th St., 207-223 E. 13th St., Ave. B and 5th St.

The following is a list of structures to be used as theatres for which plans were filed during 1912: 7th Ave., 131st to 132d St.; 222-230 W. 45th St., 538-540 W. 147th St., 242-250 W. 46th St., 253-259 W. 125th St.

The hour for beginning theatrical performances in New York varies, being dictated by the length of the plays. Curtains rise between 8 and 8.30 P. M.; doors at all theatres open at 7.30 P. M. Saturday matinees are given at all theatres; mid-week matinees are given on Tuesdays, Wednesdays or Thursdays, the days varying at different theatres and attractions. A few popular-price theatres and all-vaudeville houses give daily matinees. Such afternoon performances begin about 2 P. M.

The standard price for the best seats in New York theatres of the first class is \$2, and in some houses \$2.50, the scale grading down to fifty cents, according to location. In cases of the appearance of great celebrities an additional charge is sometimes, but not often, made.

The standard price for the best seats at the so-called popular-price theatres is \$1, the scale grading down to twenty-five cents, according to location. At these theatres matinee seats are usually sold at reduced rates. A number of theatres of both the first and second classes in New York are being temporarily used as mixed moving-picture and vaudeville houses. Among such theatres are the Savoy, Lincoln Square, Third Avenue, New Star, Grand Street Theatre, Proctor's 23d and 58th Street Theatres, Circle, Herald Square, the Greeley Square at 6th Ave. and 30th St., and Hammerstein's Roof Garden. The prices of admission vary at these houses when used for moving-picture entertainments, some as low as ten cents.

The standard price for the best seats at the Metropolitan Opera House is \$3, the scale grading down to \$1, according to location. At this house seats and boxes are sold by annual subscription also. Some of the boxes are leased or owned outright; such boxes are valued as high as \$100,000.

In the number, beauty and convenience of its theatres New York now leads all other cities of the world. Architecturally and in art treasures, however, some of the municipal and State endowed theatres of Continental Europe still excel. The New York Hippodrome, seating 5,036 people, is the largest and finest place of amusement of its kind in the world. The depth of the stage from the footlights to the back wall is 110 feet, while there is a width of 200 feet.

The Court of Appeals of the State of New York has decided that a theatre ticket is a personal contract which may be cancelled at the will of the management of the theatre. But the holder of a ticket which entitles him to a seat at a given time and place of amusement, upon being refused admission, must be refunded the full price of such ticket at the box office.

Museums and Art Galleries

IN MANHATTAN AND BROOKLYN.

THE Metropolitan Museum of Art (J. Pierpont Morgan, President; Edward Robinson, Director), in Central Park, main entrance on Fifth Ave. at 82d St. Open daily, including Sundays. Free, except on Mondays and Fridays, when an admission of 25 cents is charged. Paintings (including the Hearn, Marquand, Vanderbilt and Wolfe collections) and sculpture of ancient and modern schools, American and foreign; casts, antiquities, arms and armor, porcelains, musical instruments, tapestries, laces, metal work, furniture, and decorative arts.

Museum of the Brooklyn Institute of Arts and Sciences (A. Augustus Healy, President; William H. Goodyear, Curator of Art Department), Eastern Parkway and Washington Ave., Brooklyn. Open daily, including Sundays. Free, except on Mondays and Tuesdays, when an admission fee of 25 cents is charged. Paintings by American and foreign artists, Sargent's water colors, Tissot's New Testament series, casts and sculptures, Lawrence collection of Barye bronzes, Avery collection of Chinese cloisonnés, Professor Goodyear's architectural photographs.

New York Historical Society, 76th St. and Central Park West. Paintings by old and modern masters (including 200 American portraits), Audubon's original water colors for natural history plates, Peter Marié collection of miniatures.

New York Public Library, Fifth Ave., 40th-42d Street.

Fine Arts Building, 215 West 57th St., headquarters of Architectural League and Art Students' League. The semi-annual exhibitions of the National Academy of Design and the Water Color Society are held here.

National Arts Club and Galleries, 14 Gramercy Park.

The American Museum of Natural History (Incorporated 1869), Central Park West, 77th St. and Columbus Ave. A museum and library of natural history to provide for the public a means of popular instruction on natural history and kindred subjects. Supported by subscriptions, city and endowment funds. Henry Fairfield Osborn, President; Cleveland H. Dodge, 1st Vice-President; J. Pierpont Morgan, Jr., 2d Vice-President; Charles Lanier, Treasurer; Archer M. Huntington, Secretary; Dr. Frederic A. Lucas, Director. The exhibition halls are open free to the public every day in the year. Hours: Week-days and legal holidays, from 9 A. M. to 5 P. M.; Sundays, from 1 to 5 P. M. Evenings. Collections of animals, woods, minerals, gems and material illustrating the customs of various races. Courses of lectures are delivered to the pupils of the public schools. Free lectures to the public are also given on Tuesday and Saturday evenings under the auspices of the Board of Education. Public lectures are delivered on holidays, and several courses of lectures are given to members of the museum during the year. The library contains over 60,000 volumes.

Zoological Gardens, Central Park, entrance Fifth Ave. and 64th St., and at Bronx Park, 182d St. and Southern Boulevard. Admission free, except on Mondays and Thursdays, when 25 cents is charged.

Botanical Gardens (Bronx Park). Open daily from 10 A. M. to 4.30 P. M. Free.

Aquarium, Castle Garden, Battery Park. Admission free.

Banks in Manhattan and Bronx.

THE Clearing-House is at 77 Cedar Street, Manhattan Borough. Wm. Sherer is Manager, Wm. J. Gilpin, Assistant Manager. Forty-eight banks and fifteen trust companies are associated for the purpose of exchanging the checks and bills they hold against each other. Other banks, not members of the association, clear through members. The representatives of the members appear at the Clearing-House at 10 o'clock A. M. every business day, with the checks and bills to be exchanged. The resulting balances are ascertained in about an hour, and before 1.30 o'clock those indebted pay their balances, and after that hour the other banks receive the amounts due them. The Clearing-House has been in operation since 1853.

Following are extracts from the Manager's annual report for year ending September 30, 1912: The Clearing-House transactions for the year have been as follows: Exchanges, \$96,672,300,863; balances, \$5,051,262,291; total transactions, \$101,723,563,155. The average daily transactions: Exchanges, \$319,050,497; balances, \$16,670,832; total, \$335,721,330. Total transactions since organization of Clearing-House (59 years): Exchanges, \$2,321,152,175,784; balances, \$107,524,362,570; total, \$2,428,676,538,355.

Banks are open from 10 A. M. to 3 P. M., and on Saturdays from 10 A. M. to 12 noon. Commercial paper, except sight or demand bills, falling due on Saturday is payable on the following business day.

The American Philomathic Association.

THE following is furnished by the Secretary of the association: "The American Philomathic Association is a social philosophical body which recognizes the practical importance of increased relations with independent and original thinkers; and, also, the great amount of pleasure derivable from the combination of mental with social intercourse. The scope of the society is as broad as possible; it proposes to present an absolutely open and unbiased mind for the hearing and discussion of any subject which vitally concerns humanity, save only those which may be barred by the universally recognized canons of good taste or feeling. Briefly, the keynote of the society is mutual help; general advancement through the interchange of ideas, and the affording of opportunities for the forming of friendly relations with congenial minds." Annual dues, \$5. Secretary—Henry J. Davidson, 45 West Thirty-fourth Street, New York City.

Hack and Cab Fares in Manhattan Borough.

The legal rate of fare, of which an official copy shall be furnished by the Bureau of Licenses, and carried by every licensed hackman, shall be as follows:

Mileage rates charged for general driving.

Cabs—

For one mile or any part thereof.....	\$0.50
For each additional half mile or part thereof.....	.25
For any stop over five minutes in a trip, for every fifteen minutes or fraction thereof...	.25

Coaches—

For one mile or any part thereof.....	\$1.00
For each additional half mile or part thereof.....	.50
For any stop over five minutes in a trip, for every fifteen minutes or fraction thereof...	.40

Hourly Rates.—These hourly rates, except by special agreement, are to apply only to shopping or calling, and shall not include park or road driving, nor driving for more than three miles from the starting point:

Cabs—For one hour or any part thereof, \$1.00; For each additional half hour or part thereof, 50c.

Coaches—For one hour or any part thereof, \$1.50; For each additional half hour or any part thereof, 75c.

Taxicabs are governed by rates specified for Cabs and Coaches. The maximum rate for which meters are adjusted is 50 cents for the first two-fifths of a mile and 10 cents for each additional fifth.

REGULATIONS.

Any vehicle kept for hire shall be deemed a public hack, and a vehicle intended to seat two persons inside shall be deemed a cab, and a vehicle intended to seat more than two persons inside shall be deemed a coach, and the term hackman shall be deemed to include owner or driver, or both.

Every hack shall be provided with a suitable lamp on each side, and shall have securely fastened across the middle of the outside of each lamp a metal band not less than two inches in width, out of which the official number of the license shall be cut after the manner of a stencil plate, the component figures of such numbers to be not less than one and one-half inches in height, and the style of the whole to be approved by the Mayor or Chief of the Bureau of Licenses. Every licensed hack shall have the official number of the license legibly engraved or embossed upon a metal plate and affixed inside, as designated and approved by the Mayor or Chief of the Bureau of Licenses, and no licensed hack shall carry or have affixed to it, inside or outside, any number except the official number as aforesaid.

Every licensed hackman, immediately after the termination of any hiring or employment, must carefully search such hack for any property lost or left therein, and any such property, unless sooner claimed or delivered to the owner, must be taken to the nearest police station and deposited with the officer in charge within twenty-four hours after the finding thereof; and in addition a written notice, with brief particulars and description of the property, must be forwarded at once to the Bureau of Licenses.

Every licensed hackman shall have the right to demand payment of the legal fare in advance, and may refuse employment unless so prepaid, but no licensed hackman shall otherwise refuse or neglect to convey any orderly person or persons, upon request, anywhere in the city, unless previously engaged or unable so to do. No licensed hackman shall carry any other person than the passenger first employing a hack without the consent of said passenger.

Twenty blocks north and south to constitute a mile; seven blocks between the numbered and lettered avenues will be deemed a mile, as from Avenue B to Sixth Avenue or from Second Avenue to Ninth Avenue.

No owner or driver of any taxicab which seeks patrons on the streets, avenues or highways of the city of New York, or occupies space thereon by reason of a permit or license from the city of New York, shall exact any fare from a passenger greater than that set forth in the official schedule of rates above provided.

Disputes as to rates and distances may be settled by the police, or complaints may be made to the Bureau of Licenses, Boroughs of Manhattan and the Bronx, City Hall, New York.

Duration of Sunshine on United States Territory.

The acquisition of Porto Rico, the Sandwich and Philippine Islands, and a portion of the Navigator or Samoan Group has very considerably affected the duration of continuous sunshine on our territory. The mathematical discussion of this subject would be out of place here, but any one who desires to inform himself on this matter can easily and satisfactorily do so by using a terrestrial globe having an artificial horizon attached to it, and carefully complying with the following instructions: Place the globe so that the North Pole shall be directed toward the north, and elevate it 23° above the horizon as indicated by the brass meridian. Assuming, of course, that the sun is in the zenith, this will be the position of the earth in reference to the sun at the Summer solstice, June 21. As we turn the globe on its axis from west to east, the sun will be rising at all places on the western and setting at all places on the eastern horizon, and we shall find on turning the globe through an entire revolution that some portion or other of our territory—including the islands named above—will always be above the horizon or will have continuous sunshine during the twenty-four hours. If we now depress the North Pole 23° below the horizon we shall have the relative position of things at the Winter solstice, December 21, and we shall find the opposite conditions to prevail; that is to say, the sun will not now shine continuously on our territory, but some portion of it will always be involved in darkness or below the horizon.

Again, if we place the poles of the globe in the horizon, which is the relative position at the equinoxes, March 21 and September 21, and turn the globe through a complete revolution, we shall find that for a very short time during the twenty-four hours the whole of our territory will be below the horizon or in darkness. Finally, let us elevate the North Pole about 5° above the horizon, then we shall find, as we revolve the globe on its axis, that some portion of our territory is always above the horizon or has sunshine. Therefore, we conclude that when the sun's northern declination exceeds 5° , or from the 3d of April to the 10th of September, the sun will shine continuously over some part or other of United States territory.

If we consider the effect of refraction, which accelerates the time of rising and retards the time of setting, the above dates may be practically extended to within two or three days of the equinoxes.

Great Britain, France, and Holland are the only nations on whose dominions the sun never sets. Those of Great Britain are very extensive and scattered far and wide over both hemispheres, so that while the sun may be setting at one, it is rising on another. The French possessions consist for the most part of numerous small islands in the Atlantic, Indian, and Pacific Oceans, with continental territories in South America, Africa, and Asia, and accordingly are so distributed that the sun is always above the horizon of some of them. The foreign possessions of Holland are far more extensive than most people imagine. With the exception of Dutch Guiana in South America, they consist of two groups of islands—one on the coast of Venezuela and the other embracing Sumatra, Java, Celebes, portions of Borneo and New Guinea and a host of smaller islands scattered throughout the East Indian Archipelago, extending over 46° of longitude. These, with Holland itself, are so situated as to their difference of longitude that the sun is always shining on some of them.

Bridges In and About the City of New York.

BROOKLYN BRIDGE.

THE bridge connecting Manhattan and Brooklyn over the East River from Park Row, Manhattan, to Sands and Washington Streets, Brooklyn, was begun January 3, 1870, and opened to traffic May 24, 1883. Total cost of the bridge to date about \$22,400,000.

The tolls are: For foot passengers, free; railway fare, 3 cents, or 2 tickets for 5 cents. Roadway tolls for vehicles abolished July 18, 1911. On August 23, 1897, the bridge railway was leased to the elevated railroad companies (now operated by the Brooklyn Rapid Transit), paying therefor 10 cents per car; trolley cars, 5 cents per round trip. About 125,000 surface cars cross the bridge each month.

The following are the statistics of the structure: Width of bridge, 86 feet. Length of river span, 1,595 feet 6 inches. Length of each land span, 930 feet. Length of Brooklyn approach, 998 feet. Length of New York approach, 1,562 feet 6 inches. Total length of carriageway, 6,016 feet. Total length of the bridge, with extensions, 7,580 feet.

Size of Manhattan caisson, 172 x 102 feet. Size of Brooklyn caisson, 168 x 102 feet. Timber and iron in caisson, 5,253 cubic yards. Concrete in well holes, chambers, etc., 5,669 cubic feet. Weight of Manhattan caisson, about 7,000 tons. Weight of concrete filling, about 8,000 tons.

Manhattan tower contains 46,945 cubic yards masonry. Brooklyn tower contains 38,214 cubic yards masonry. Depth of tower foundation below high water, Brooklyn, 45 feet. Depth of tower foundation below high water, Manhattan, 78 feet. Size of towers at high water line, 140 x 59 feet. Size of towers at roof course, 136 x 53 feet. Total height of towers above high water, 272 feet.

Clear height of bridge in centre of river span above high water at 90° F., 135 feet. Height of floor at towers above high water, 119 feet 3 inches.

Grade of roadway, 34 feet in 100 feet. Height of towers above roadway, 153 feet. Size of anchorage at base, 129 x 119 feet. Size of anchorage at top, 117 x 104 feet. Height of anchorages, 89 feet front, 85 feet rear. Weight of each anchor plate, 23 tons.

Number of cables, 4. Diameter of each cable, 15½ inches. Length of each single wire in cables, 3,578 feet 6 inches. Ultimate strength of each cable, 12,000 tons. Weight of wire, 11 feet per pound. Each cable contains 5,296 parallel (not twisted) galvanized steel, oil-coated wires, closely wrapped to a solid cylinder, 15½ inches in diameter. Permanent weight suspended from cables, 14,680 tons.

MANHATTAN BRIDGE.

Manhattan terminal, Bowery and Canal St.; Brooklyn terminal, Nassau, near Bridge St. Estimated cost, \$26,000,000; of which \$14,000,000 is for structure, \$8,000,000 for land in Manhattan, and \$4,000,000 for land in Brooklyn.

Width of bridge, 122 ft. 6 in. Length of river span, 1,470 ft. Length of each land span, 725 ft. Length of Manhattan approach 2,067 ft. Length of Brooklyn approach, 1,868 ft. Total length of roadway, 6,855 ft. Bridge is of double-deck design, first deck to have one 35-foot roadway in centre and two subway tracks on each side and one 11-foot footwalk on each side, top deck to have four trolley tracks. Approximately 40,000 cubic yards excavation for each anchor pier; approximately 115,000 cubic yards masonry and concrete in each anchor pier.

Height of cables at top of tower above mean high water mark, 322 ft. 6 in. Height of roadway at centre of bridge above mean high water mark, 149 ft. Grade of roadway 3¼ ft. in 100 ft. Number of cables four, 37 strands in each cable; 256 wires in each strand; 9,472 wires in each cable; 37,888 wires in four cables. Size of wire 0.192 inches in diameter. Size of cable completed 21¼ inches in diameter. Length of each wire 3,223 ft. 6 in. (anchor to anchor). Ultimate strength of each cable, 30,000 tons.

Weight of steel cables and suspenders, 8,000 tons. Weight of each tower, 6,300 tons. Weight of main span, 9,000 tons. Weight of each side span, 5,000 tons. Weight of steel in each anchorage, 1,300 tons. Weight of Manhattan approach, 8,500 tons. Weight of Brooklyn approach, 8,000 tons.

Work of construction of tower foundation in Brooklyn commenced October 1, 1901. Roadway opened for traffic December 31, 1909. East footwalk opened to pedestrians July 18, 1910. West footwalk opened May 11, 1911.

WILLIAMSBURG BRIDGE.

The tower foundations for the bridge in Manhattan are at the foot of Delancey Street, and in Brooklyn at a point between South Fifth and South Sixth Streets. The bridge ends at Clinton Street in Manhattan, and at Havemeyer Street in Brooklyn. Construction commenced November 7, 1896. Size of Manhattan caissons (2), 76 x 60 feet; Brooklyn caissons (2), 79 x 63 feet. Depth of tower foundations in Manhattan, north caisson 55 feet, south caisson 66 feet below mean high water; in Brooklyn, north caisson 107 feet 5 inches, south caisson 91 feet 9 inches below mean high water. Height of masonry in Manhattan and Brooklyn towers, 23 feet above mean high water. Total height of towers above mean high water, 322 feet 9 inches. Size of both anchorages at top, 149 feet x 127 feet 5 inches. Length of main span, 1,600 feet; each side span, 596 feet 6 inches; Manhattan approach, 2,650 feet; Brooklyn approach, 1,865 feet. Total length from Clinton Street, Manhattan, to New Street, Brooklyn, 7,308 feet. Width over all, 118 feet. Two roadways, each 20 feet wide, two footwalks, each 17 feet 8 inches wide. Height of roadways at towers, 125 feet 8 inches above mean high water. Height of roadways at centre of bridge, 145 feet 6 inches above mean high water. Clear height of bridge for channel width of 400 feet, 135 feet above mean high water. Number of supporting cables, 4. Diameter of each cable, 18½ inches. Length of each single wire in cables, 2,985 feet. Total length of wire in four cables, 17,404 miles. Weight of four cables, including suspenders, 4,900 tons. Weight of structural steel and iron in main bridge, 23,800 tons; in approaches, 16,600 tons; total, 45,300 tons. Bridge opened for pedestrians and vehicles December 19, 1903. Surface railway for Brooklyn lines began operation November 3, 1904. Surface railway for Manhattan lines began operation February 9, 1905. Elevated railway began operation September 16, 1902. Cost of construction, including station in Manhattan, \$14,000,000. Cost of land, \$9,100,000.

QUEENSBORO BRIDGE.

Plans approved by the War Department, February 23, 1901. Main bridge is a continuous cantilever. Bridge, with approaches, extends from Second Avenue, between Fifty-ninth and Sixtieth Streets, Manhattan, to Crescent Street, Queens. Construction commenced

BRIDGES IN AND ABOUT THE CITY OF NEW YORK—Continued.

June, 1901. Height of highest masonry piers, 124 feet above mean high water. Length of Manhattan approach, 1,052 feet; west channel span, 1,182 feet; island span, 630 feet; east channel span, 984 feet; length of Queens approach, 2,672 feet 6 inches. Total length from Second Avenue to Crescent Street, 7,440 feet. In addition, the Queens plaza has a length of 1,152 feet, extending from Crescent Street to Jackson Avenue. Width over all, 89 feet 6 inches. Width of roadway, 53 feet. Two sidewalks, each 16 feet wide. Height of roadway in central portion of bridge, 143 feet above mean high water. Height of footwalks in central portion of bridge, 165 feet above mean high water. Height of lower balconies on towers on Blackwell's Island, 202 feet, 6 inches above mean high water. Height of upper balconies on towers on Blackwell's Island, 333 feet above mean high water. Clear height of bridge for channel width of 400 feet for both east and west channels, 135 feet above mean high water. Weight of steel and iron in main bridge, 54,200 tons; in approaches, 20,300 tons. Total, 74,500 tons. Bridge opened for pedestrians and vehicles, March 30, 1909. Surface railway began operation, September 19, 1909. Cost of bridge construction, \$13,500,000; cost of land, \$4,400,000; total, \$17,900,000.

New York Chamber of Commerce.

ORGANIZED April 5, 1768. Incorporated by George III, March 13, 1770. Reincorporated by the State of New York April 13, 1784. Its object is indicated in the following words of the original charter: "Sensible that numberless inestimable benefits have accrued to mankind from commerce; that they are, in proportion to their greater or lesser application to it, more or less opulent and potent in all countries; and that the enlargement of trade will vastly increase the value of real estates as well as the general opulence of our said colony," and "to carry into execution, encourage, and promote, by just and lawful ways and means, such measures as will tend to promote and extend just and lawful commerce."

During the decade 1760-1770, according to Lord Sheffield's *Observations*, the average yearly value of American Colonial imports from Great Britain was £1,763,409, and of exports to the same country £1,044,591. Up to the evacuation of the city by the British and its occupation by the Americans, on the 25th of November, 1783, the New York Chamber of Commerce had had seven presidents, thirteen vice-presidents, eight treasurers, one secretary, and 135 members. In May, 1763, the Sandy Hook Lighthouse was lighted up for the first time. In 1786 the Chamber of Commerce first suggested the construction of the Erie Canal, and in 1784 petitioned the New York Legislature (which so ordered) that duties should be levied under a specific instead of an *ad valorem* tariff.

As a society the Chamber of Commerce is limited to fifteen hundred resident and two hundred and fifty non-resident members. Initiation fee, \$50. Annual dues, \$50 per annum. Non-resident members, \$25 per annum.

The building of the Chamber is at 65 Liberty Street, New York. Officers: President—John Clafin; Secretary—Sereado S. Pratt; Assistant-Secretary—Chas. T. Gwynne; Treasurer—William H. Porter.

Parks in Manhattan.

HEADQUARTERS FOR MANHATTAN, THE ARSENAL, CENTRAL PARK.

Battery, foot of Broadway. 21 acres.
 Bryant, 6th Av. and W. 42d St. 4 acres.
 Carl Schurz, between Av. B and East River, E. 84th St. to E. 89th St. 12½ acres.
 Chelsea, 27th St. and 9th Ave. 3 acres.
 City Hall Park, Broadway, Park Row, and Chambers St. 8 acres.
 Colouial, 145th to 155th St., Bradhurst Av. to Edgecombe Av. 12½ acres.
 Columbus, Mulberry and Bayard Sts. 2½ acres.
 Corlears Hook Park, Corlears and South Sts. 8 acres.
 De Witt Clinton, 52d to 54th St., North River. 7 acres.
 Fort Washington, Ft. Washington Point, Hudson River. 40½ acres.
 Hamilton Fish Park, Houston and Willett Sts. 3½ acres.
 Highbridge Park, 155th St. to Washington Bridge, west of Driveway. 75½ acres.

 Morningside, between Columbus and Amsterdam Aves. and W. 110th and W. 123d Sts. 31 acres.
 Mount Morris Park, between Madison and Mt. Morris Aves. and 130th and 124th Sts. 20 acres.
 Riverside Park, between Riverside Av. and the N. Y. C. R. R. and W. 72d and W. 129th Sts. 140 acres.
 St. Gabriel's Park, 1st Ave. and 35th St. 3 acres.
 St. Nicholas, 130th to 141st St., St. Nich's to 10th Av. 19½ acres.
 Seward, Canal and Jefferson Sts. 3 acres.
 Stuyvesant, Rutherford Pl. and E. 16th St. 4 acres.
 Thomas Jefferson, 111th St., 1st Av., 114th St. and Harlem River. 15½ acres.
 Tompkins Square, Av. A and 7th St. 10½ acres.
 Union Square, Broadway and 14th St. 3 acres.
 Washington Square, 5th Av. and Waverley Pl. 8 acres.

CENTRAL PARK.

The great park of New York extends from 59th St. to 110th St., being over 2½ miles long, and from 5th Ave. to 8th Ave., being over half a mile wide. It covers 843 acres, of which 185 are in lakes and reservoirs and 400 in forest, wherein over half a million trees and shrubs have been planted. There are 9 miles of roads, 5¼ of bridge paths, and 31 of walks. The landscape architects of the Park were Frederick Law Olmsted and Calvert Vaux. Public park carriages can be found (except in Winter) at the entrances on 5th Ave. and 8th Ave. The fare for an extended ride through the Park is 25 cents. Work was begun on the Park in 1857. The following fanciful names have been officially applied to the several entrances to the Park: 5th Ave. and 59th St., Scholar's Gate; 6th Ave. and 59th St., Artist's Gate; 7th Ave. and 59th St., Artisan's Gate; 8th Ave. and 59th St., Merchant's Gate; 8th Ave. and 72d St., Woman's Gate; 8th Ave. and 81st St., Hunter's Gate; 8th Ave. and 85th St., Mariner's Gate; 8th Ave. and 96th St., Gate of All Saints; 8th Ave. and 100th St., Boy's Gate; 8th Ave. and 110th St., Stranger's Gate; 5th Ave. and 67th St., Student's Gate; 5th Ave. and 72d St., Children's Gate; 5th Ave. and 79th St., Miner's Gate; 5th Ave. and 90th St., Engineer's Gate; 5th Ave. and 96th St., Woodman's Gate; 5th Ave. and 102d St., Girl's Gate; 5th Ave. and 110th St., Pioneer's Gate; 6th Ave. and 110th St., Farmer's Gate; 7th Ave. and 110th St., Warrior's Gate.

FACTS ABOUT PUBLIC PARKS.

Union Square was purchased by the city in 1833 for \$116,051; Madison Square, in 1847, for \$65,952; Tompkins Square, in 1834, for \$93,358; Washington Square, in 1827, for \$77,970, and Manhattan Square, in 1839, for \$54,657. The latter is assessed as a part of Central Park. The other four are assessed at over \$16,000,000, and are easily worth \$20,000,000, while their original cost to the city was only \$353,331. Prospect Park, Brooklyn, contains 526 1-6 acres. In woodland, 110 acres; in lakes and watercourses, 77 acres; in meadows, 70 acres; in plantations, 259 1-6 acres; in drives, 9 miles; in bridge roads, 3 1-10 miles; in walks, 12 miles. Ocean Parkway is 5 1-2 miles long and 210 feet wide. Eastern Parkway is 2 1-2 miles long and 210 feet wide. London has 271 public parks, containing 17,876 acres of ground. The largest European city park is in Denmark; it contains 4,200 acres. The great forest of Northern New York covers an area of 3,588,803 acres.

PARKS IN BOROUGH OF THE BRONX.

HEADQUARTERS, ZBROWSKI MANSION, CLAREMONT PARK.

Bronx, north of E. 182d St. and White Plains Road. 719½ acres.
 Claremont, Belmont St., Clay Av. and 170th St. 38 acres.
 Crotona, Fulton, 3d, and Arthur Aves. 154½ acres.
 De Voe, Sedgwick Av. and 188th St. 5¾ acres.
 Echo. 4 acres.
 Franz Sigel, Walton Av., and 158th St. and Mott Av. 17½ acres.
 Macomb's Dam, Jerome Av., and 162d St. 27 acres.
 Pelham Bay, on Long Island Sound and East Chester Bay. 1,756 acres.

Poe. 2½ acres.
 St. James, Jerome Av., Creston Av., & E. 191st St. 11¾ acres.
 St. Mary's, 149th St., St. Ann's and Robbins Aves. 34¾ acres.
 University. 2¾ acres.
 Van Cortlandt, northern boundary of city. 1,132¾ acres.
 Washington Bridge, Sedgwick Av., Harlem River. 8½ acres.

On August 26, 1911, the City Record published a report of the Department of Taxes and Assessments, placing a value on the parks in the Bronx at \$56,627,000.

The Borough of the Bronx contains 26,017 acres, of which nearly 4,200 acres, or about 15.2 per cent. is devoted to park purposes, giving one acre of park land to each 130 of the people living in the Borough.

PASSERS-BY IN NEW YORK CITY.

Counts of the number of persons passing given points in the city of New York in ten hours were made by direction of Manhattan Borough President McAneny, as follows:

Broadway at Fulton Street.....	113,111	Forty-second Street from Sixth Avenue to Broadway.....	38,000
Forty-second Street between Lexington and Park Avenues.....	75,996	Fifth Avenue from Fourteenth to Fifteenth Street.....	33,771
Park Row from Ann to Beekman Street.....	75,766	Fifth Avenue from Thirty-third to Thirty-fourth Street.....	26,223
Greeley Square.....	72,500	Fifth Avenue at Forty-second Street....	24,778
Nassau Street from Beekman to Spruce Street.....	58,705		

The number of vehicles passing points named below in ten hours was:

At Fifth Avenue and Thirty-fourth Street.....	7,521	At Eighth Avenue and Twenty-third Street.....	6,221
At Broadway and Sixty-eighth Street....	7,318	At Broadway and Houston Street.....	6,167

Jury Duty in Manhattan and Bronx.

To be qualified to serve a person must be not less than 21 nor more than 70 years of age, and he must be a male citizen of the United States, and a resident of the county of New York; and he is a resident within the meaning of the jury law if he dwells or lodges here the greater part of the time between the first day of October and the last day of June. He must be the owner, in his own right, of real or personal property of the value of \$250; or the husband of a woman who is the owner, in her own right, of real or personal property of that value. He must also be in the possession of his natural faculties, and not be infirm or decrepit; intelligent, of good character, and able to read and write the English language understandingly.

THE FOLLOWING PERSONS ARE ENTITLED TO EXEMPTION.

A Clergyman, Minister of any religion officiating as such, and not following any other calling. A practicing Physician, Surgeon, Surgeon-Dentist, or Veterinary Surgeon not following any other calling, and a licensed Pharmaceutist or Pharmacist, or a duly licensed Embalmer, while actually engaged in his profession as a means of livelihood. An Attorney or Counsellor-at-Law regularly engaged in the practice of law as a means of livelihood. A Professor or Teacher in a college, academy, or public school, not following any other calling. Editor, Editorial Writer, or Reporter of a daily newspaper or press association regularly employed as such, and not following any other vocation. The holder of an office under the United States, or the State, or city or county of New York, whose official duties, at the time, prevent his attendance as a juror. A Consul of a foreign nation. A Captain, Engineer, or other officer actually employed upon a vessel making regular trips; a licensed Pilot, actually following that calling. A Superintendent, Conductor, or Engineer employed by a Railroad Company other than a street railroad company, or a Telegraph Operator employed by a Press Association or Telegraph Company who is actually doing duty in an office, or along the railroad or telegraph line of the company or association by which he is employed. Honorably discharged Firemen. Active and honorably discharged Militiamen and active members of the Old Guard. A duly licensed Engineer of steam boilers actually employed as such. Inspectors, Poll Clerks, and Ballot Clerks, or a person who is physically incapable. Grand, Sheriff's, Special, and Municipal Court Jurors.

Curtis — Hamilton av. and St. Mark's pl., New Brighton.

The Public Schools of New York City.

(By A. Emerson Palmer, Secretary, Board of Education, New York City.)

PUBLIC education in New York City began with the founding of the Free School Society (after 1826 the Public School Society) in 1805. The society started in a small way, depending upon private subscriptions, but soon received aid from the city. It gradually expanded, and until 1842 had control of the moneys supplied for educational purposes by the city and the common school fund of the State. This condition of affairs was unique. The society, being under the direction of high minded citizens, enjoyed a large degree of public confidence. So anomalous a system could not last, however, and by an act of the Legislature, passed in 1842, the Board of Education was established. The Public School Society continued to conduct its schools until 1853, when, by mutual consent, they were all taken over by the Board. The society at that time had more than a hundred schools; the value of the property it transferred to the city was estimated at \$450,000, and during its existence it educated some 600,000 children. The Board of Education was an elective body from 1842 to 1871, the members being chosen first by wards, and from 1862 by school districts; since 1871, they have been appointed by the Mayor. In Brooklyn a Board of Education was created in 1843; the members were chosen by the Common Council until 1862, in which year the appointing power was vested in the Mayor. When consolidation took effect, in 1898, separate school boards were provided for the several boroughs (Manhattan and the Bronx being united), with a central Board of Education (a delegated body) having charge of the finances, the erection and repair of buildings, the acquiring of sites, the purchase and distribution of supplies, etc. This system was dropped on the revision of the Charter in 1901, and since 1902 there has been one Board of Education for the city. It consists of forty-six members—twenty-two for Manhattan, fourteen for Brooklyn, four each for the Bronx and Queens, and two for Richmond. Their term of office is five years.

The Board of Superintendents, consisting of the city superintendent of schools and eight associate superintendents, has large powers in the nomination, promotion, and transfer of teachers, the recommendation of text-books and scholastic supplies, the determination of courses of study, the fixing of qualifications for teachers' licenses, etc. Its important acts require the approval of the Board of Education. There are twenty-six district superintendents, whose duties are to visit schools and observe the work of teachers. The Board of Examiners (consisting of the city superintendent and four examiners) conducts all examinations for would-be teachers, and prepares eligible lists. The school superintendents and examiners, as well as the supervisor of free lectures, the superintendent of school buildings, and the superintendent of school supplies (whose duties are indicated by their titles), have terms of six years each. The Board of Education appoints all these officials and also a secretary and auditor, having no fixed term. Principals and teachers are appointed by the Board of Education on the nomination of the Board of Superintendents. The merit system is in full operation, and teachers are appointed in order of standing. Beginners are on probation for three years, their licenses being renewable from year to year; when permanently licensed, their tenure is assured, and they cannot be removed except on charges. New teachers are appointed only after pursuing a training school course.

The budget appropriation of the Department of Education for 1912 was \$33,849,819.74, of which \$28,421,601.04 constituted the general school fund (for teachers' salaries). For 1913 the appropriation is \$35,206,846.90, the general school fund being \$29,195,810.70. Under the so-called Equal Pay Law (Chapter 902, laws of 1911) teachers (men and women) in elementary schools serve three years at \$720; they then advance, with yearly increments of \$60, to \$1,500. This applies to the great majority. In the upper grades the maximum salaries are \$1,820 and \$2,260. Assistants to principals (heads of departments) receive \$2,400, and principals \$3,500. In high schools salaries range from \$900 to \$3,150; in training schools, from \$1,000 to \$3,250. Principals of high schools and training schools are paid \$5,000, and \$5,000 is the salary of district superintendents. Examiners receive \$6,000. Associate superintendents receive \$6,500. The salary of the city superintendent is \$10,000. The number of elementary schools is 502—160 in Manhattan, 171 in Brooklyn, 50 in the Bronx, 87 in Queens and 34 in Richmond. The number of high schools is 21. There are also three training schools for teachers, two vocational schools, three truant schools and one nautical school. In the elementary schools there are 1,395 men and 15,153 women teachers; in the high schools 808 men and 827 women. In the evening schools (high and elementary) there are 2,142 teachers. Ninety-four attendance officers enforce the Compulsory Education law. The latest available figures show the attendance as follows:

	Elementary Schools. (Kindergarten, Primary, Grammar),	High Schools,		Elementary Schools. (Kindergarten, Primary, Grammar).	High Schools.
Manhattan.....	248,988	13,989	Richmond.....	13,700	971
Brooklyn.....	240,444	16,440			
The Bronx.....	77,391	3,374	Totals.....	632,950	38,812
Queens.....	52,427	4,038			

Number on part time (three and three-fourths hours per day), elementary schools:

Manhattan.....	15,714	Richmond.....	81
Brooklyn.....	37,952		
The Bronx.....	31,839	Total.....	90,544
Queens.....	5,258		

Capacity, as per rule adopted by the Board of Education, May 24, 1911, pursuant to Section 451 of the State Education Law:

	Elementary Schools.	High Schools.		Elementary Schools.	High Schools
Manhattan..	217,876	22,627	Richmond...	16,644	1,199
Brooklyn...	200,343	23,414			
The Bronx...	60,331	3,818	Totals.....	550,896	57,532
Queens.....	55,712	6,474			

The increase in capacity since September, 1911, has been 22,035, and the increase in the number of part-time pupils has been 10,024.

Teachers incapacitated after thirty years' service are retired on pensions (half pay); the number of retired teachers is 1,378.

School buildings and sites are paid for with the proceeds of city bonds (corporate stock); the amount issued since consolidation has been \$101,438,375.

Pursuant to the provisions of Section 790, Greater New York Charter, all uniformed members of the Fire Department are entitled to retire at the expiration of twenty years' continuous service on a pension equal to not less than one-half of the salary they may be receiving at the time of their application. The Fire Commissioner also has the power to retire members of the department who, from any cause, are found to be unable to perform active duty in the department. If the disability occurs from injuries while in the discharge of duty, the pension must equal one-half of the salary; if from natural causes, the Fire Commissioner can decide upon the amount of the pension.

Postal Letter Carriers in New York City.

TABLE showing number of letter carriers employed in the different boroughs, and the salaries they receive.

BOROUGH.	Number of Carriers.	BOROUGH.	Number of Carriers.
Manhattan and Bronx.....	2,564	Richmond:	
Brooklyn.....	1,040	Port Richmond.....	8
Queens:		West New Brighton.....	11
Flushing.....	52	New Brighton.....	9
Jamaica.....	50	Rosebank.....	7
Long Island City.....	36	Stapleton.....	10
		Tompkinsville.....	6

Total number in New York City, 3,793 (December, 1912.)

The salaries of letter carriers are graded by law as follows: In Manhattan and Bronx, carriers are originally appointed as substitutes and receive pay at rate of 30 cents per hour and 8 cents for each special delivery letter they deliver; when appointed as regular carriers they receive, the first year, \$600; second year, \$800; third year, \$900; fourth year, \$1,000; fifth year, \$1,100; sixth year, \$1,200. 1,843 receive \$1,200 each; 308, \$1,100 each; 122, \$1,000 each; 117, \$900 each; 79, \$800 each, and 95 receive \$600 each.

In Brooklyn carriers receive from \$600 to \$1,200 per annum each. In Jamaica, carriers receive from \$600 to \$1,200. In Long Island City, twenty-six carriers receive \$1,200 each, four \$1,100 each, two \$1,000 each, two \$800 each and two receive \$600. In Flushing, carriers receive from \$600 to \$1,200 per year. In Rosebank carriers receive \$1,100, one \$1,000. In Tompkinsville five carriers receive \$1,100 each and one \$1,000. In West New Brighton eight carriers receive \$1,100, one receives \$1,000, one \$600 and one 30 cents per hour. In New Brighton eight carriers receive \$1,100, one \$600. In Stapleton eight receive \$1,200 each, one \$1,100 and one \$1,000. In Port Richmond two receive \$1,100 each, two \$1,000, three \$800 each and one \$500.

There is no retirement pay for any of the civil service employes of the United States Government.

Post-Office—Brooklyn, New York.

No registry business is transacted on Sundays, but on holidays letters and parcels may be registered from 8 to 10 A. M.]

Pawnbrokers' Regulations in the City of New York.

PAWNBROKERS in New York City are regulated by statute. The rate of interest fixed by law is 3 per cent. a month or any fraction of a month for the first six months, and 2 per cent. per month for each succeeding month upon any loan not exceeding \$100, and 2 per cent. a month for the first six months and 1 per cent. a month for each succeeding month on any loan exceeding \$100. Pledges cannot be sold until after they have been kept one year, and then at public auction by a licensed auctioneer, after publication of at least six days in two daily newspapers designated by the Mayor. Pawnbrokers pay a yearly license fee of \$500 to the city and are under the control of the Mayor. The license is issued through the Bureau of Licenses, and their books must be kept open to the Mayor, Criminal Courts, Magistrates, Police and Bureau of Licenses.

PROVIDENT LOAN SOCIETY (EXECUTIVE OFFICE, 346 FOURTH AVE., COR. 25TH ST.) LOANING OFFICES: 346 FOURTH AVE., 186 ELDRIDGE ST., 180 E. 72D ST., COR. E. HOUSTON & ESSEX STS., 736 SEVENTH AVE., 124TH ST. AND LEXINGTON AVE., 409 GRAND ST.; BRONX, COURTLANDT AVE. AT 148TH ST.; BROOKLYN, 24 GRAHAM AVE., PITKIN AND ROCKAWAY AVES.

Office hours: 9 A. M. to 5 P. M.; Saturday to 6 P. M. Ticket good for one year only. Loans may be paid by instalments, in sums not less than \$1. Rates of interest: One per cent. per month, or any fraction thereof. Only one-half month interest charged on all loans redeemed within two weeks after date of pledge. Condition of loan, agreed to by the holder of the ticket in consideration of interest being charged at less than the rate allowed by law. The Provident Loan Society of New York shall not be liable for loss or damage by fire, breakage, dampness, theft, or moths; nor shall it be liable in any event for more than 25 per cent. in addition to the amount loaned. Otto T. Barnard, President; Frank Tucker, Vice-President; James Speyer, Treasurer; Mortimer L. Sohiff, Secretary.

When making payment by instalment, the full amount of interest due on the sum loaned must be included, and the ticket must be returned. The interest due on the loan cannot be paid by instalment. The Society has thus far limited the classes of personal property on which it has made loans to clothing and so-called "jewelry," including under that designation all articles of gold or silver, precious stones, opera-glasses, eye-glasses, also men's clothing in good condition, and ladies' and men's furs.

Subway Systems in New York City.

For Tunnels in and about New York City, see Index.

EXISTING SUBWAYS.

The subway operated by the Interborough Rapid Transit Company comprises.

A four-track trunk line from City Hall Park through Lafayette Street, Fourth Avenue, Forty-second Street and Broadway to Ninety-sixth Street.

A two-track southern extension from City Hall, down Broadway to the Battery, there connected by the Rapid Transit Tunnel under the East River to the Brooklyn subway, which extends along Joralemon and Fulton Streets to Atlantic Avenue.

Two northern branches from Ninety-sixth Street, viz. (a) the Broadway and (b) the Lenox Avenue.

(a) The Broadway or West Side branch extends along Broadway, St. Nicholas and Amsterdam Avenues, and Broadway to 242d Street (Van Cortlandt Park). It has three tracks from Ninety-sixth Street to 137th Street and two beyond. Part of it is an elevated structure.

(b) The Lenox Avenue branch has two tracks (portions of which are carried on an elevated structure) with a terminal at Bronx Park.

Total length of all the above routes, 26.3 miles, having 85.2 miles of track. Standard four-track cross section (two for express trains and two for local) 54 feet 8½ inches wide over all and 16 feet 7 inches high, with roof supported by steel columns. 97,500 tons of structural steel and 725,000 cubic yards of concrete used. The contract for the subway in New York north of City Hall was awarded January 15, 1900, to John B. McDonald and completed by him October 27, 1904. The contract for subways south of City Hall and in Brooklyn were awarded after the one in New York to the Rapid Transit Subway Construction Co., who completed them in 1908. Total cost about \$75,000,000, of which \$50,000,000 was expended on the construction of the subway, and \$25,000,000 on the equipment, viz., power house, rolling stock, signals, etc.

McAdoo uptown tunnels and subway. Part of the Hudson and Manhattan Railroad system. Connect with north tunnels under the Hudson River at Morton Street and extend to Christopher Street, then to Sixth Avenue and up Sixth Avenue to Thirty-third Street. Shield construction (outside diameter 16 feet 7 inches) was used as far as Twelfth Street, where it changes to a reinforced concrete section, the two circular sections becoming rectangular single-track compartments, each 13 feet wide by 14 feet 6 inches high inside, separated by a 15-inch wall.

SUBWAYS UNDER CONSTRUCTION.

Borough of Manhattan. The Lexington Avenue subway will connect with the present subway somewhere between Thirty-second and Forty-second Streets, and will give the Interborough an east side route up Lexington Avenue. This line will run up Lexington Avenue from Forty-second Street to an inlet in the Bronx, and will connect with the present subway south of Forty-second Street, making a complete east side line from the Harlem River to the Battery.

The Interborough also will operate a branch of the present subway to be built from Times Square down the west side to a new tunnel under the East River to Brooklyn. This extension will run down Seventh Avenue, Varick Street, West Broadway and other streets to the Battery, making a complete west side line from Harlem River to the Battery. A branch will be built through Park Place, Beekman Street, William Street and Old Slip to a tunnel under the East River to Clark Street, Brooklyn, and through Clark Street to a connection with the present subway in Fulton Street, Brooklyn.

The Brooklyn Rapid Transit Company will enter lower Manhattan by a new tunnel under the East River, and will follow the old tri-borough route as far as Ninth Street, previously laid out, as follows: from the Battery to Church Street, Vesey Street, to Broadway and Ninth Street. This will be extended up Broadway to Fifty-ninth Street, then east on Fifty-ninth Street to the Manhattan end of the Queensboro Bridge and over the bridge to Long Island City.

For Manhattan portion of Brooklyn loop subway see Borough of Queens below.

From the Manhattan end of the Brooklyn Bridge, the Centre Street loop subway will be extended south, through Nassau and Broad Streets, to a connection with a new tunnel under the East River and thence under Montague Street, Brooklyn, connecting with the Fourth Avenue subway. For route of Fourth Avenue subway see Borough of Queens below.

Borough of the Bronx. The Lexington Avenue subway. In the Bronx has two branches, one east through 138th Street, and then into Southern Boulevard and Westchester Avenue to Pelham Bay Park. The other branch runs northwest under Mott, River and Gerard Avenues to Jerome Avenue and up the latter to Woodlawn Road. North of 157th Street on Jerome Avenue the subway will run on an elevated structure, as it will also north of Whitlock Avenue on the east branch.

Besides the branches of the Lexington Avenue subway, the Interborough will build a connection between the present Ninth Avenue elevated, which terminates at 155th Street and Eighth Avenue, over the Harlem River by the Putnam Bridge and west across 162d Street to the Jerome Avenue line just described.

The Lenox Avenue branch of the present subway will be extended by an elevated line from the terminus at Bronx Park at 180th Street, up White Plains Road to 241st Street, which is near the city line.

The Third Avenue elevated will be extended from its terminus at Fordham, through Webster Avenue and Gun Hill Road to White Plains Road, where it will connect with a proposed elevated line along White Plains Road.

Borough of Queens. From the Queens end of the Queensboro Bridge two elevated roads will be built, one north through Debevoise Avenue to Ditmars Avenue, Astoria, known as the Astoria Branch, and the other northeast through Queens Boulevard, Greenpoint and Roosevelt Avenues to Sycamore Avenue in Corona, known as the Corona Branch. These two branches will be built by the City and operated jointly by the Interborough and Brooklyn Rapid Transit Company.

The Interborough will connect with the above branches by a new road to be built from the Second Avenue Elevated in Manhattan, over Queensboro Bridge and also by an extension of the Steinway Tunnel, which runs from Forty-second Street, Manhattan, under East River, to Fourth Street, Long Island City.

The Brooklyn Rapid Transit will connect with the two branches by the Broadway subway in Manhattan, which turns in at Fifty-ninth Street at Seventh Avenue and runs east through Fifty-ninth and Sixtieth Streets, to and across Queensboro Bridge.

The Brooklyn Rapid Transit will have its northern connection with Brooklyn at Fourteenth Street, Manhattan, by a subway known as the Eastern District line that runs east on Fourteenth Street, across the Williamsburg Bridge to North Seventh Street, Metropolitan, Bushwick, Johnson and Wyckoff Avenues, and on to a junction with the present Myrtle Avenue elevated, and also a junction with the present Broadway elevated and Cypress Hills elevated.

SUBWAY SYSTEMS IN NEW YORK CITY—Continued.

The Cypress Hills elevated line to be extended by a new elevated structure through Jamaica Avenue and Fulton Avenue to Jamaica. The Myrtle Avenue line will be extended north to the Lutheran Cemetery. An extension will also be made to the present elevated on Liberty Avenue, out Liberty Avenue to Lefferts Avenue.

The Brooklyn Loop subway in Manhattan runs from Brooklyn Bridge through Centre Street to Delancey Street Extension, Delancey Street Extension to and over Williamsburg Bridge, with a spur at Canal Street over Manhattan Bridge. This subway is practically completed. It will be operated by the Brooklyn Rapid Transit Company, which will run trains from its Myrtle Avenue and Broadway elevated lines in Manhattan by way of the Williamsburg Bridge. It will also be used by the Brooklyn Rapid Transit to run trains from the Fourth Avenue subway into Manhattan by way of the Manhattan Bridge and thence through Canal Street to connect with its Broadway subway.

The Fourth Avenue subway starts at the Brooklyn end of the Manhattan Bridge and runs with four tracks (two express and two local) under Flatbush Avenue extension to Fulton Street, through Ashland Place and along Fourth Avenue to Forty-third Street. This subway is practically completed.

The Fourth Avenue subway will be extended from its present terminal at Forty-third Street down Fourth Avenue to Eighty-ninth Street. At Thirty-eighth Street there will be a branch to connect with the lines of the Brooklyn Rapid Transit to Coney Island, viz., Culver line, New Utrecht Avenue line and Sea Beach line. There will also be a connection at Sixty-fifth Street between the Fourth Avenue subway and Sea Beach line. All of the Coney Island lines will be elevated.

The present Brighton Beach line to Coney Island will be connected with the Fourth Avenue subway by a subway to be built from Fourth Avenue through St. Felix Street and Flatbush Avenue to the Brighton Beach line at Malbone Street.

Provision will be made at Sixty-fifth Street for a tunnel to Staten Island, which will connect with the Fourth Avenue subway.

The present subway in Brooklyn will be extended from its terminal at Flatbush and Atlantic Avenues, through Flatbush Avenue and Eastern Parkway to Buffalo Avenue, with an elevated extension from Buffalo Avenue through East Ninety-eighth Street and Livonia Avenue to New Lots Road. The Eastern Parkway subway will also have a branch running south on Nostrand Avenue as far as Flatbush Avenue.

FACTS ABOUT THE SUBWAYS UNDER CONSTRUCTION.

None of the subways will be operated by New York City, but either by the Interborough or the Brooklyn Rapid Transit Company.

The city will put up about \$150,000,000 for construction purposes, the Interborough about \$56,000,000 for construction, and \$21,000,000 for equipment; and the Brooklyn Rapid Transit \$34,000,000 for construction, and \$26,000,000 for equipment.

The total cost for construction and equipment will be nearly \$300,000,000. No other city in the world has ever had such a complete and expensive transit system planned and on which work has actually been started. At the time of going to press contracts exceeding \$60,000,000 have been awarded. The New York subway system will rival, from engineering and financial standpoints, the building of the Panama Canal.

Commerce of the Port of New York.

IMPORTS AND EXPORTS OF MERCHANDISE AND BULLION.

The following compilation gives the foreign trade movement of the port for twenty-one calendar years ending with 1911. It shows the foreign imports, domestic exports and foreign exports of the Port of New York, as well as the special movement in the form reported from year to year by the Secretary of the Chamber of Commerce:

VALUE OF FOREIGN IMPORTS INTO THE PORT OF NEW YORK FOR THE LAST TWENTY-ONE YEARS, ENDED DEC. 31.

YEARS	Dutiable.	Free Goods.	Specie and Bullion.	Total Foreign Imports.
1891..	\$54,102,154	\$268,229,418	\$35,154,540	\$557,586,112

Bolivia.—Adolfo Ballivián, C. G., 4 Stone St.	Liberia.—Edward G. Merrill, C., 24 Stone St.
Brazil.—Manuel Jacintho Ferreira da Cunha, C. G.; D. Garcia Leao, V. C. and Chancellor, 17 State St.	Mexico.—Enrique Martinez Sobral, C. G.; Alfonso L. Jimenez, V. C., 32 Broadway.
Chile.—Ricardo Sanchez-Cruz, C. G., 2 Rector St.	Monaco.—Stanislas d'Halewyn, C., 35 S. William St.
China.—Liang Luen Fang, C.; Kuo-Chi Loo, V. C., 18 Broadway.	Netherlands.—J. R. Planten, C. G.; Dr. A. van de Sande Bakhuizen, C., 11 Broadway.
Colombia.—Francisco Escobar, C. G., 24 State St.	Nicaragua.—Humberto Pasos Diaz, C. G., 66 Beaver St.
Costa Rica.—Manuel González Z., C. G.; A. Monestel, V. C., 1 Hanover Square.	Norway.—C. Ravn, C. G., 17 State St.
Cuba.—Mariano Rocafort, C. G.; F. Taboada, C.; L. V. Roig, V. C., 82 Beaver St.	Panama.—Ramon Diego de Ycaza, C. G., 11 Broadway.
Denmark.—J. Cian, C. G., 8 Bridge St.	Paraguay.—Felix Aucaigne, C. G., 557 West 161st St.; Wm. W. White, C., 309 Broadway.
Dominican Republic.—Juan B. Alfonseca, C. G.; Persio C. Franco, Chancellor, 31 Broadway.	Persia.—H. H. Topakyan, C. G., 225 5th Ave.
Ecuador.—Luis A. Plaza, Acting C. G., 11 Broadway.	Peru.—Eduardo Higginson, C. G., 25 Broad St.
Egypt.—See "Turkey."	Portugal.—Oscar George Potier, C. G.; Carlos Olavo, V. C., 17 State St.
France.—Etienne Lanel, C. G.; Henri Goirand, D. C.; Stanislas d'Halewyn, V. C., 35 S. William St.	Russia.—Baron Oscar Korff, V. C., in charge, 22 N. Washington Sq.
German Empire.—R. Franken C. G.; Dr. K. Ziegler, C., 11 Broadway.	Salvador.—José Alfaro Morán, C., 42 Broadway.
Great Britain.—Courtenay Walter Bennett, C. G.; J. J. Broderick, V. C.; G. Napier-Martin, V. C.; R. L. Roseworthy, V. C., 17 State St. Office for shipping seamen, 2 State St.	Santo Domingo.—See "Dominican Republic."
Greece.—D. N. Botassi, C. G., 35 S. William St.	Siam.—L. T. Hildreth, C. G., 34 Nassau St. and 27 W. 44th St.
Guatemala.—Dr. Ramon Bengoechea, C. G., 12 Broadway.	Spain.—Pompeyo Diaz Cosslo, C. G.; Fernando Perer del Pulgar, V. C., 18 Broadway.
Haiti.—Geoffrard Cevret, C. G.; Ernest Bastien, V. C., 31-33 Broadway.	Sweden.—M. Clarholm, C.; C. G. G. Anderberg, V. C., 17 State St.
Honduras.—R. Camilo Diaz, C. G., 66 Beaver St.	Switzerland.—18 Exchange Pl.
	Turkey.—Djalal Munif Bey, C. G., 59 Pearl St.
	Uruguay.—Mario L. Gil, C. G.; Alfredo Metz Green, C., 17 Battery Pl.
	Venezuela.—Pedro R. Rincones, C. G., 80 Wall St.

Subway Stations in New York City.

FARE, five cents. Children under 5 years of age, free.

Trains will run daily between City Hall, Atlantic Ave. (B'klyn), South Ferry, Brooklyn Bridge, 137th St., Dyckman and 242d Sts. and Broadway, and 145th St. and Lenox Ave., and 180th St. and Boston Rd. Trains from the East and West Branches meet at 96th St. Junction, making the interval between that point and Brooklyn Bridge as follows: Local trains, 12 midnight to 8.30 A. M., 7½ to 1½ minutes, and from 8.30 A. M. to 12 midnight, 1½ to 4 minutes. Express trains from 6.25 A. M. to 9.24 A. M., 3 to 1.40 minutes, and from 9.24 A. M. to 12.24 A. M., 1.40 to 4 minutes. Running time, Local trains: 137th St. and Broadway to City Hall, 34 minutes; 145th St. and Lenox Ave. to City Hall, 38 minutes. Running time, express trains: 242d St. to South Ferry, 47 minutes; Dyckman St. to South Ferry, 38½ minutes; 180th St. to South Ferry, 44 minutes; 180th St. to Atlantic Ave., 50 minutes. Brooklyn Bridge to 242d St. and Broadway, 14.19 miles; Brooklyn Bridge to 145th St. and Lenox Ave., 9.48 miles; Brooklyn Bridge to 180th St. and Boston Rd., 13.60 miles.

New York Electrical Society.

President—Henry L. Doherty, New York City. Secretary—George H. Guy, 29 West Thirty-ninth Street, New York City. Treasurer—Herbert S. Spencer, Brooklyn, N. Y. Membership, 732. The object of the Society is: "The dissemination of the knowledge of theoretical and applied electricity—to be accomplished by: 'periodical meetings for the reading and discussion of relevant topics, by collective visits to places of interest, and by such other means as may be advised by the Executive Committee—and the promotion of social intercourse among its members.'" Headquarters—Engineering Societies Building, 29 West Thirty-ninth Street, New York City.

Elevated Railroads in Manhattan.

Fare, Five Cents. Children under five years of age, free.

SECOND AVENUE LINE.

Trains will run between South Ferry and 129th Street daily and Sunday at intervals of 2 to 6 minutes from 4.37 A.M. to 12.43 A.M. midnight. Time, 35 minutes. Transfer to and from Third Avenue Line at 129th Street and Chatham Square. Through trains between Canal and Freeman Streets 6.22 and 8.24 A.M. and 4.51 and 6.21 P.M. South Ferry to 129th Street, 8.74 miles.

STATIONS.

South Ferry.	1st St. and 1st Ave.	50th St. and 2d Ave.	111th St. and 2d Ave.
Hanover Square.	8th St. and 1st Ave.	57th St. and 2d Ave.	117th St. and 2d Ave.
Fulton and Pearl Sts.	14th St. and 1st Ave.	65th St. and 2d Ave.	121st St. and 2d Ave.
Franklin Square.	19th St. and 1st Ave.	72d St. and 2d Ave.	127th St. and 2d Ave.
Chatham Square.	23d St. bet. 1st and 2d Aves.	80th St. and 2d Ave.	129th St. (see stations on
Canal and Allen Sts.	34th St. & 2d Ave., branch	86th St. and 2d Ave.	3d Ave. and Subway

Rivington and Allen Sts.	42d St. and 2d Ave.	99th St. and 2d Ave.	St.).

THIRD AVENUE LINE.

Trains will run daily and Sunday between City Hall and Bronx Park at intervals of 1½ to 4 minutes from 5.34 A.M. to 12.45 A.M., then every 20 minutes to 5.40 A.M. Trains will run daily and Sunday between South Ferry and 129th Street at intervals of 6 minutes from 5.19 A.M. to 12 midnight, then every 20 minutes to 5.14 A.M. after midnight up to 5.14 A.M., South Ferry trains run through to Bronx Park making 10 minutes headway between Bronx Park and Chatham Square. Branch to Grand Central Depot every few minutes from 6 A.M. to 12 midnight daily. Branch to 34th Street Ferry every few minutes from 5.30 A.M. to 12 midnight daily. Time between City Hall and Bronx Park, 51 minutes; Chatham Square to 129th Street, 28½ minutes; South Ferry to 129th Street, 34 minutes. Transfer to and from Second Avenue Line at Chatham Square and 129th St.

Trains will run daily and Sunday between 129th Street and Bronx Park at an interval of 2 to 6 minutes from 5 A.M. to 12.45 A.M., then every 10 minutes until 5 A.M. Running time, 21 minutes from 129th Street (Second or Third Avenue) to Bronx Park.

Express trains leave Bronx Park for City Hall 6.32 to 8.32 A.M., and from City Hall 4.52 to 6.21 P.M. South Ferry to 129th St. and Third Ave., 8.52 miles; City Hall to 129th St. and Third Ave., 7.62 miles.

STATIONS.

South Ferry.	23d St. and 3d Ave.	89th St. and 3d Ave.	161st St. and 3d Ave.

SIXTH AVENUE LINE.

Trains will run daily and Sunday between South Ferry and 155th Street at intervals of 1½ to 4 minutes from 6.02 A.M. to 12 midnight to 155th Street, and from 12 midnight to 6.02 A.M. every 10 minutes to 155th Street; Rector Street to 58th Street from 8.08 A.M. to 10.32 A.M., 6 minutes interval, and 3.56 to 6.20 P.M. The 58th Street station closes at midnight. A shuttle train is run between 58th Street and 50th Street station 5.55 to 8.19 A.M., 10.15 to 4.06 P.M., 6.05 to 12 midnight, all main line trains after 6.20 P.M. from South Ferry going to 155th Street. The through time from Rector Street to 58th Street is 12½ minutes; to 155th Street, 40½ minutes. Passengers transferred at 59th Street to Ninth Avenue line without extra charge. Crosstown (surface) cars run from Grand Central to 42d Street station.

South Ferry to 155th Street and Eighth Avenue, 10.62 miles; Rector Street to 58th Street and Sixth Avenue, 4.67 miles.

STATIONS.

South Ferry.	14th St. and 6th Ave.	59th St. and 9th Ave.	116th St. and 8th Ave.

Barclay & Greenwich Sts.			

New York Water Supply.

NEW YORK CITY has grown so rapidly in the past ten years that the water system, which when first planned was considered ample for many years, has been taxed to its limit, and there is at present an urgent need for the new system, which is being built, for bringing the water from the Catskill Mountains. The city consumes every day 500,000,000 gallons of water, and, assuming a population of 5,000,000, then every man, woman and child uses 100 gallons a day. The new Catskill Aqueduct will have a capacity of 500,000,000 gallons a day, and the largest reservoir in the system (the Ashokan) once filled, could supply the city for 335 days at the present rate of consumption, without any water flowing into it.

THE PRESENT SYSTEM.

The present system has two pressures, namely "low" and "high." The former delivers the water under a hydraulic head, but in the latter the pressure is obtained by pumps. The high pressure service (used for fire purposes only), draws its supply from the low pressure mains (for in case of emergency used for salt water) and distributes the water through its own system, which is independent of the low pressure. At present the high pressure service is only in parts of the Boroughs of Manhattan and Brooklyn.

LOW PRESSURE SYSTEM.

The Boroughs of Manhattan and the Bronx are supplied from both the Croton, and the Bronx and Byram watersheds. The Croton covers an area of 360 square miles, and from various reservoirs water is brought through more than 30 miles of masonry conduit to distributing reservoirs in the boroughs. The Bronx and Byram watershed covers about 22 square miles.

In Manhattan, Croton water is used entirely, but in the Bronx one-half the population is supplied with Croton water, the other half being supplied from the Bronx and Byram Rivers. Approximately 305,000,000 gallons are used every day in Manhattan and the Bronx.

In Brooklyn about 80 per cent. of the water comes from wells, and the remainder from small streams, the watersheds having an area of nearly 170 square miles. All the water is pumped and 155,000,000 gallons are consumed daily. Flatbush and Borough Park are supplied by private companies from wells.

The city supplies only the first and third wards in the Borough of Queens, while the other wards are supplied by private companies. The water is taken from wells and the consumption averages 30,000,000 gallons daily.

In Richmond, the city owns the wells which furnish about 15,000,000 gallons daily.

HIGH PRESSURE FIRE SERVICE SYSTEM.

The high pressure fire service system in Manhattan is bounded by Twenty-third Street, Irving Place, Fourteenth Street, Third Avenue, Bowery, Houston Street, East River, Maiden Lane, Nassau Street, Chambers Street and North River, and covers an area of 2,310 acres.

There are two pumping stations, one located at Gansevoort and West Streets, and the other at Oliver and South Streets. Each station has six electrically driven centrifugal pumps that are connected to the Croton Supply (see above), the Gansevoort and West Street station being also connected to the North River, and the Oliver and South Street station to the East River. Thus, either fresh or salt water may be used, the latter, however, only being used in emergencies. Each pump can deliver 3,000 gallons a minute against a head of 300 pounds at the station. The combined capacity of the two stations is equal to about 50 fire engines delivering two good sized streams. The pumping stations respond to every alarm with a pressure of 125 pounds per square inch.

The distributing system consists of 95 miles of mains, 8 to 24 inches in diameter, and about 2,070 four-nozzle hydrants and the necessary valves.

The pressure at any point can be increased or decreased by telephoning to the pumping stations. For this purpose there are approximately 370 telephone boxes, besides telephones communicating with the Fire Headquarters and with the main and subsidiary stations of the New York Edison Company.

The present system cost about \$5,600,000 for stations, land, mains and appurtenances. The system is being extended to the Battery, and plans for future extension are being prepared.

In Brooklyn there are two high pressure fire service systems, one protecting the business and manufacturing districts, and the other the amusement section of Coney Island.

The one for the business and manufacturing districts is bounded by the upper bay, Hudson Avenue, Tillary Street, St. Edward's Street, St. Felix Street, Fort Greene Place, Fifth Avenue, Twenty-fourth Street, Thirty-ninth Street to the water front, and covers an area of 3,100 acres.

The supply is furnished by two stations, the main one being located at the foot of Joralemon Street, and the reserve one at Willoughby and St. Edward's Streets. Both draw their supply from the Ridgewood mains, the main station being also connected to the East River.

The pumps are electrically operated in both stations, and have a combined rated capacity of 24,000 gallons per minute against a pressure of 300 pounds per square inch.

The distributing system consists of about 34 miles of mains, 8 to 20 inches in diameter, with the usual hydrants.

The Coney Island high pressure system protects an area of 470 acres. The pumping station is located at West Twelfth Street and Coney Island Creek. Gas engines driving pumps are installed, the total capacity being 4,500 gallons per minute pumping against a pressure of 150 pounds per square inch. The water is distributed through 6 miles of mains, 8 to 16 inches in diameter having hydrants where necessary.

THE CATSKILL MOUNTAIN SYSTEM.

The new water supply system for New York, which is now under construction, consists of the building of the following reservoirs, viz.: the Ashokan for impounding the water, Kensico for storage, Hill View for equalizing and distributing, and the Silver Lake for distributing and serving as a terminal reservoir, and besides these reservoirs the Catskill Aqueduct for conveying the water. In New York City the system will be inter-connected with existing works, and no changes need be made in the present pipe lines. However, the city pumping plants in Manhattan, having a capacity of 75,000,000 gallons daily, in Brooklyn 25,000,000, and the various private plants of 30,000,000, may at any time be dispensed with as the water brought by the new system will have sufficient pressure to reach the twentieth floor of a building.

ASHOKAN RESERVOIR.

The main supply will be impounded or collected in the Ashokan Reservoir, which is 13 miles west of Kingston, N. Y., from its tributary watersheds, the Esopus, now being developed 255 square miles in extent, with the Schoharie, 228 square miles, and the Catskill Creek, 163 square miles available for development in the future. The reservoir, formed by the building of the Olive Bridge Dam and a number of dikes, is approximately 12 miles long by one mile wide, with a maximum depth of 190 feet. When full, the surface of the water is 590 feet above sea level.

CATSKILL AQUEDUCT.

Leading from the Ashokan Reservoir is the Catskill Aqueduct, into which, through future development, may also empty the Lackawack Reservoir (supplied by the Rondout watershed, having an area of 176 square miles), the aqueduct bringing the water to Storm King, four miles above West Point, then under the Hudson River in a tunnel to Breakneck Mountain, from Breakneck Mountain to Kensico Reservoir, and from the latter to Hill View Reservoir in Yonkers, just north of the city line.

The type of construction depends entirely on the nature of the country the aqueduct crosses. Wherever possible it is built in the open, that is in cut and cover, but in many cases tunnels and siphons are required. The cut and cover portion is of concrete, having a horseshoe cross section, 17 feet high and 17 feet 6 inches wide, with the flat part resting on the ground. The dimensions of the tunnels range from approximately those just given to a circular section 14 feet 6 inches in diameter. The entire waterway is concrete lined.

The most difficult tunnel to bore was the one under the Hudson River between Storm King and Breakneck Mountains. Here it was necessary to cut through solid rock at a distance 1,100 feet below the surface of the river. From Breakneck Mountain to Kensico Reservoir (east of Tarrytown, N. Y.) cut and cover construction, with an occasional tunnel or siphon is followed; similarly the Kensico Reservoir is connected to the Hill View Reservoir, and from the latter is the tunnel for supplying New York. The Catskill Aqueduct is about 92 miles long, 55 miles being cut and cover, 31 miles tunnels and 6 miles of steel pipes.

CITY TUNNEL OF CATSKILL AQUEDUCT.

The tunnel from Hill View Reservoir will pass under the Borough of Bronx, the Harlem River, the Borough of Manhattan, the East River and terminate in Brooklyn. At the Brooklyn terminal pipes will extend to Queens and to Richmond, the pipes to the latter being of cast iron, crossing the Narrows and discharging into an equalizing reservoir at Silver Lake, 225 feet above sea level.

The tunnel will be circular in section, reducing from 15 feet to 11 feet in diameter, lined with concrete, and varying from 200 to 750 feet deep in solid rock. It will thus pass far below all subways and building foundations. About every 4,000 feet connections will be made to the present distributing system, through controlling valves set to furnish the water at any lower pressure than that in the tunnel, which existing conditions may require.

The tunnel will deliver 500,000,000 gallons daily, the water rising at the Brooklyn end to nearly 240 feet above tide water, a height sufficient to supply without pumping the highest sections of the borough. The estimated cost of the tunnel and pipes within the city and the reservoir on Staten Island is \$25,000,000.

The total cost of the entire system as projected, including the development of four large Catskill Mountain watersheds, as needed by the growth of the city of New York, the necessary reservoirs, Catskill Aqueduct and all appurtenances will be about \$176,000,000. It is expected the work will be completed in 1915. During the working season at least 15,000 men are employed by the contractors.

Monthly estimates during certain months of both 1911 and 1912 have exceeded \$2,200,000; and on October 1st, 1912, with about \$94,000,000 of contracts awarded, the waterway was about 88 per cent. completed to the city line and about 74 per cent. completed to Staten Island.

The Strangers' Welfare Fellowship.

Director—Rev. Jas. B. Wasson, 500 Fifth Avenue, New York City. *Treasurer*—Zelah Van Loan, 25 Broad Street, New York City. The Fellowship's ideal is to make real to the friendless stranger the brotherhood and sympathy of the city. What the Fellowship has done is summarized from the report for the year ended September 30, 1912: Men and women ministered to, 690; letters of counsel; introduction, etc., 495; officiated at funerals of strangers, 90; persons helped to employment, 106; disbursed in charity relief, \$290; cost of maintaining the work, \$3,080.

Trans-Mississippi Commercial Congress.

THE twenty-fourth annual session of the Trans-Mississippi Commercial Congress will be held in Wichita during the first two weeks of November, 1913. This congress represents the commercial organizations of the Trans-Mississippi region and its principal consideration is agriculture, community organization, commercial spirit, good roads, improved waterways.

President—James H. Brady, Pocatello, Idaho. *Vice-President*—John L. Powell, Wichita, Kan. *Secretary*—E. J. Becker, Kansas City, Mo. *Chairman, Board of Control*—C. W. Southward, Wichita, Kan. *Secretary, Board of Control*—R. H. Faxon, Wichita, Kan.

Negroes in New York City.

APPROXIMATELY there are 85,000 negroes in Manhattan and the Bronx; 27,000 in Brooklyn, 7,000 in Queens, and 2,000 on Staten Island, a total of 121,000 in the entire city, an increase of 10 per cent. over the negro population of the same district ten years ago.—*New York Age*.

American Peace Society.

NATIONAL Headquarters, Colorado Building, Washington, D. C. Organized in New York City, May 8, 1828, and formed by the merging of many State and local societies, the oldest of which, the New York, dated back to 1815. Located in Boston from 1837 to 1911. Moved headquarters to Washington, D. C., May 1, 1911. *President*, Theodore E. Burton, Washington, D. C.; *Executive Director*, Arthur D. Call; *Treasurer*, George W. White, National Metropolitan Bank, Washington, D. C.; *Secretary*, Benjamin F. Trueblood; *Director Central West Dept.*, Charles E. Beals, 30 North La Salle Street, Chicago, Ill.; *Director Pacific Coast Dept.*, Robert C. Root, Los Angeles, Cal.; *Director New England Dept.*, James L. Tryon, Boston, Mass.; *Director N. Y. Dept.*, Samuel T. Dutton, Columbia Univ.; *Director South Atlantic States Dept.*, J. J. Hall, Atlanta, Ga.

New York County Lawyers' Association.

President—Joseph H. Choate. *Vice-Presidents*—Charles F. Brown, Thomas H. Hubbard, Benjamin N. Cardozo. *Secretary*—Charles Strauss. *Treasurer*—Edward M. Grout, 165 Broadway. Total membership, 2,960.

Parks in Brooklyn and Queens.

SHOWING SIZE, BOUNDARIES, AND VALUE.

Prospect, 526 acres, 9th Ave., 15th St., Coney Island, Parkside, Ocean and Flatbush Aves., value \$27,735,000.

Port Greene, 29 acres, De Kalb Ave., Washington Park, Willoughby St., St. Edward's St. and Myrtle Ave., value \$1,890,000.

Bedford, 4 acres, Brooklyn and Kingston Aves., Park Pl. and Prospect Pl., value \$150,000.

Brooklyn Heights, 5 parks, comprising one acre, Columbia Heights, fronting on Furman St., value \$200,000.

Tompkins, 8 acres, Tompkins, Greene, Marcy and Lafayette Aves., value \$400,000.

City, 7½ acres, St. Edward's and Navy Sts., Park and Flushing Aves., value \$325,000.

Borough Hall, 1½ acre, junction of Court and Fulton Sts., value \$100,000.

Carroll, 2 acres, President, Court, Carroll and Smith Sts., value \$390,000.

Dreamland, Coney Island, 14¼ acres.

Winthrop, 9 acres, Nassau, Driggs Aves., Monitor and Russell Sts., value \$325,000.

Highland, terminus of Eastern Parkway Extension and Jamaica Ave., 42½ acres, value \$1,000,000.

Sunset, 24½ acres, 41st to 45th Sts., 5th to 7th Ave., value \$200,000.

Red Hook, 5½ acres, Richards, Dwight, Verona and Pioneer Sts., value \$150,000.

Bushwick, 7 acres, Knickerbocker and Irving Aves., Starr and Suydam Sts., value \$150,000.

Brooklyn Botanic Garden, 69 acres, Washington Ave., Eastern Parkway and Flatbush Ave., value \$3,000,000.

Parade Ground, 40 acres, Coney Island Ave., Cato Ave., value \$1,290,000.

Dyker Beach, 140 acres, 7th Ave., New York Bay, Bay 8th St., Cropsy and 14th Aves., value \$300,000.

Kings, 11½ acres, Fulton, Alsop and Ray Sts. and Sheldon Ave., Jamaica.

McKinley, 8½ acres, Fort Hamilton and 7th Aves. and 73d St., value \$124,000.

Rainey, 4 acres, Verou Ave., at Graham.

Bensonhurst Beach, 13 acres, Bay Parkway, Gravesend Bay, 21st and Cropsy Aves., value \$88,000.

Lincoln Terrace, 7½ acres, Eastern Parkway, Buffalo Ave., President St. and Rochester Ave., value \$120,000.

Canarsie, 30½ acres, Skidmore, Seaview and Denton Aves., and Jamaica Bay, value \$105,000.

New Lots Playground, 2¼ acres, Sackman St., Newport, Christopher and Riverdale Aves., value \$16,000.

Cooper, 6 acres, Maspeth and Morgan Aves., Sharon and Olive Sts., value \$55,000.

Irving Sq., 3 acres, Hamburg and Knickerbocker Aves., Halsey and Weirfield Sts., value \$70,000.

Saratoga Sq., 3¼ acres, Saratoga and Howard Aves., Halsey and Macon Sts., value \$121,000.

Linton, 2½ acres, Bradford St., Blake, Dumont and Miller Aves., value \$75,000.

*Forest, 536 acres, between Jamaica Ave. and Union Turnpike, Flushing and Myrtle Aves., Richmond Hill, value \$1,250,000.

Fort Hamilton, 4½ acres, 4th Ave., Fort Hamilton Ave. and Shore Road, value \$150,000.

PARKWAYS.

Ocean Parkway, 5¼ miles, Prospect Park to Coney Island, value \$4,000,000.

Eastern Parkway, 2½ miles, Prospect Park to Ralph Ave., value \$3,000,000.

Eastern Parkway Extension, 1½ miles, Ralph Ave. bet. Union St. and Lincoln Pl., value \$1,300,000.

Fort Hamilton Parkway, 4½ miles, Ocean Parkway to Fort Hamilton, value \$1,000,000.

Bay Parkway, 3 miles (formerly 22d Ave.), Ocean Parkway to Bensonhurst Beach, value \$1,000,000.

Bay Ridge Parkway (Shore Drive), 1½ miles, Fort Hamilton Ave., bet. 66th and 67th Sts., to Shore Road, value \$3,500,000.

Rockaway Parkway, 3¼ miles, Buffalo Ave. to Canarsie Beach.

Amersfort, 3½ acres, Ave. J, E. 38th St., value \$100,000.

McCarren, 38½ acres, Berry, Lorimer, Leonard, Bayard and 12th Sts., Nassau, Driggs, Manhattan and Union Aves., value \$2,000,000.

McLaughlin, 3½ acres, Bridge, Tillary and Jay Sts., value \$130,000.

Seaside, 10¼ acres, foot Ocean Parkway and Atlantic Ocean.

Williamsburg Bridge, 4¼ acres, Bedford and Kent Aves.

Highland, 5½ acres, Highland and Clinton Aves., Jamaica.

Rockaway Park, 18 acres, Triton Ave., Pelham Ave., Atlantic Ocean, Rockaway.

Kissena Lake Park, 65 acres, Rose St. and Oak Ave., Flushing.

Linden Park, 3 acres, Linden, Lake, Sycamore and Park Sts., Corona.

Fatalities in Manhattan.

TRAGIC DEATH LIST FOR THE PAST SIX YEARS SHOWING THE NUMBER OF PERSONS KILLED AND THE CAUSES THEREOF.

(From a report furnished by George P. Le Brun, Secretary of the Board of Coroners.)

TOTAL NUMBER OF DEATHS REPORTED AS CORONERS' CASES.

The Property Clerk of the Coroner's Office received during the course of a year thousands of dollars' worth of jewelry and money found upon and belonging to the dead, which is promptly delivered to the relatives of the dead or to the Public Administrator, as required by law.

The Coroners' Physicians, owing to the large number of autopsies which they perform in the course of a year, obtain knowledge and information which are of great value to medical science.

As a result of investigations made by the Coroners' Office into deaths by casualties, laws have been enacted aiming at the prevention of unnecessary and reckless loss of life, by compelling employers to furnish proper and safe scaffolding, stricter care in employment of men working in caissons, proper safeguards in operation of elevators, fire prevention law, and forbidding the transferring of dying patients from one hospital to another.

* Includes Eleventh Avenue.

City of New York, Department of Finance.

COMPARATIVE TABLE SHOWING THE TAX RATE IN EACH BOROUGH COMPRISING THE GREATER CITY OF NEW YORK FROM 1899 TO 1912, INCLUSIVE, TOGETHER WITH THE STATE TAX RATE AS LEVIED BY THE CITY, 1899-1907, AND FOR THE YEAR 1912.

This Table also shows the total amount of State Taxes which were levied against and paid by the city of New York to the State from January 1, 1899 to 1907, inclusive; also the amount of State Taxes levied against the city for 1912 and 1913, respectively.

Constancy of Employment of Wage Earners.

THE Census Bureau on November 24, 1911, issued a statement showing greatest variation in the number employed by the leading industries in the United States. The average number of wage earners employed in all these industries during 1909 was 6,615,046; the largest number, 7,006,853, was employed in November, and the smallest number, 6,210,063, in January, equal to 88.6 per cent. of the maximum. The statistics are embraced in the following tables:

INDUSTRIES IN WHICH LARGEST NUMBER OF WAGE EARNERS ARE EMPLOYED.

INDUSTRIES.	Average Number of Wage Earners.	MAXIMUM MONTH.		MINIMUM MONTH.		
		Month.	Number of Wage Earners.	Month.	Number of Wage Earners.	Per Cent. of Maximum.

Practical Etiquette.

AS OBSERVED IN AMERICAN SOCIETY.

CALLS.

The hours for women's formal calls are between 3 and 6 in the afternoon. Men may call in the evening or on Sunday afternoons if their engagements are such as to make it impossible for them to call upon the "At Home" day. A formal call should not last more than fifteen or twenty minutes. On an "At Home" day it may be even more brief. Calls should always be paid on a woman's "day," if possible. On other days it is permissible for her to give orders to her servants that she is "not at home."

The first call is made by an old resident on a new comer. A bride receives calls before she pays them. A visiting stranger should be called upon by residents before she is expected to pay any calls herself.

The reception of an invitation to any social function, whether the invitation be accepted or declined, constitutes a social debt to be discharged by a call. Failure to do this is a slight to the hostess. The guests invited to a wedding must call on the mother of the bride soon after the wedding, and call promptly on the bride as soon as she is settled after her marriage. Calls are in order after a bereavement in a family. Calls of inquiry, when there is illness in a household, are also desirable. Such calls as these are made whether social calls are due or not.

First calls should be returned within a week or ten days after they are received. The call should be on the "At Home" day, when feasible. Calls of purely formal acquaintances should be exchanged at least once a season if the social relations between them is to be maintained.

A man, in calling, leaves his overcoat, overshoes, and umbrella in the hall. At a first call he may carry his hat and cane into the drawing-room with him, although this is not obligatory. At later calls he should leave them in the hall.

A woman wearing overshoes and a storm-coat when calling may leave them in the hall with her umbrella.

When a man and a woman are calling together it is the man's place to wait for the woman to give the signal to leave. When two women are calling together it is the place of the senior of the two to make the first move. It is bad form to linger over the leave-takings after a start has been made.

CARDS.

Men's calling cards should be small, thin, and perfectly plain except for the inscription in script, old English, or block lettering. The man's full name or the initials of his Christian names and his surname should be given, always preceded by "Mr.," unless it is followed by "Jr.," or in cases where a title or a degree is appended. A physician may have his name preceded by "Dr.," or followed by "M. D." A clergyman's card may either read "Reverend John H. Smith," or, if he has a degree, "John H. Smith, D. D."

The address should be in the lower right-hand corner. If both a house and a club address are given, the latter is in the lower left-hand corner, the former in the lower right-hand corner.

Abbreviations or nicknames of any sort are out of place on a card. So are fac-simile signatures.

The married woman's calling card is a little larger than that used by the unmarried woman. The cards for women are larger and heavier than those for men, are very plain, and are lettered in the same fashion. The matron's card bears her married name, as "Mrs. David James Pitkin." The address is in the lower right-hand corner, the "At Home" day in the lower left-hand corner. The hours at which she is "At Home" are also mentioned if she wishes to limit these.

The unmarried woman's card bears simply the title and the surname, if she is the oldest or only daughter, as "Miss Brown." A younger daughter's given name should appear, as "Miss Eleanor Brown." Young girls in their early social seasons have their names engraved on the same cards with their mothers. A widow's card may bear either her married name, as she wrote it in her husband's lifetime, or her own given names preceding her surname.

When visiting a friend who is stopping in the house of some one who is a stranger to the caller, the latter leaves a card for the hostess as well as for the friend. In calling on other than an "At Home" day, the cards are handed to the maid at the door, after the inquiry as to whether or not the hostess is at home. They are left in either case.

Cards may be made to take the place of a call on occasions of condolence, congratulation, or inquiry. They may be left in person or sent by post. The former method is better form.

INVITATIONS AND ANNOUNCEMENTS.

An invitation to a large and formal dinner should be sent out not less than a week or ten days in advance. A reply should be sent within twenty-four hours. If the invitation is written in the third person the reply should be couched in the same form. If it is framed in a less formal way the answer should be in similar fashion. A written regret should, of course, be sent if a person, after accepting an invitation to dinner, is prevented from being present.

Invitations to large weddings are sent out from two to four weeks before the ceremony. No reply is necessary to an invitation unless especially requested. When a guest is unable to attend a home wedding cards should be sent to the parents of the bride the day of the marriage. No acknowledgment is demanded for cards to a church wedding, although cards should be left for the bride's mother after the marriage. A good general rule for all invitations, except those to church weddings, is to reply to them as promptly as possible. Announcement cards should be met by a call on the bride's mother, or by cards left for her, and by personal cards sent to the bride upon her return from her wedding trip, or by a call in person on her "At Home" days. Out of town friends should send cards, and the failure to acknowledge the receipt of a wedding announcement, by a note or cards, is a serious breach of good manners, and warrants the inference that the recipient is either ignorant or indifferent to the courtesy.

Cards should be left in acknowledgment of an engagement or a birth. The notes of condolence which should always be sent to a bereaved family should be acknowledged by a note, or by a card bearing a word of thanks or appreciation.

Guaranteed Low Cost Life Insurance **Every Benefit Guaranteed**

In these policies a guaranteed lower cost, or from 15% to 25% more insurance takes the place of the indefinite dividends of participating companies. No uncertainties; no estimates; no possible disappointments.

In connection with these policies we offer a Disability Clause, under which the Company continues the insurance in force in case the insured is totally and permanently disabled by accident or disease.

The Travelers has been the leading exponent of this form of insurance for forty-five years, and has \$249,000,000 insurance in force.

Accident Insurance

Our accident policies are famous the world over for their splendid coverage and comprehensiveness. We have paid over 570,000 accident claims for benefits amounting to over \$37,000,000.

The Travelers Insurance Company
Hartford, Conn.

Brick Work

After an inexhaustible research and thorough investigation, including the severest fire and water tests that could be applied to building construction, it is said that brick work far surpasses that of any other form of construction work now known to science. Either structural steel or concrete measures up to commercial tests, as generally known, but where these materials have been subjected to extreme heat and streams of water have then been applied to buildings constructed of these materials, under these conditions the results have been disastrous.

Building brick in the course of manufacture is subjected to from 2,800 to 4,000 degrees Fahrenheit, and all the combustible materials have been consumed, consequently no fire test that can be hereafter applied will affect this indestructible product. As a result of this, and because of the economy of transportation and the facility with which this material can be laid in a building, there is a very noticeable "back to brick" movement in all forms of construction.

The crushing test likewise demonstrates superiority of this material. Hard, well-burned brick, such as that manufactured by the Rose Brick Company, in the Hudson River Valley, will withstand a test of from 3,000 to 5,000 pounds per square inch. There can be no economy, therefore, in using other material.

A further proof of the indestructibility of brick, which other building materials cannot claim, is the fact that when buildings are torn down common brick can be readily cleaned and economically delivered and relaid, without showing any marked deterioration in the new construction.

Make Money With Me

Share in my success. No capital required. I started with only \$5 and built up a \$1,000,000 company in less than six years. Honest, earnest men and women should write to me at once.

\$200 to \$500 a Month

can be made in a high-grade business of your own. No matter where you live I will teach you my business by mail. Then I will co-operate with you and show you how to make a big success. Send to-day for my FREE book "How \$5 Grew To \$1,000,000."

STUDY LAW

High-Grade
Instruction by
Correspondence

Established in 1892

Prepares for the bar of any State. Three Courses: College, Post-Graduate and Business Law. Improved Method of Instruction, combining theory and practice.

One student writes: "I have learned more law in three months under your instruction than I learned in six months in a law office."

APPROVED BY BENCH AND BAR

Classes begin each month. Uniform rate of tuition. Send for our 48-page catalogue, in which we give a synopsis of the rules for admission to the bar of the several States.

Chicago Correspondence School of Law
538 Reaper Block, Chicago.

THE JAPAN MAGAZINE

Tokyo

Dr. J. Ingram Bryan, Editor

A REPRESENTATIVE MONTHLY OF THINGS JAPANESE, the Japan Magazine is published in English, and has as CONTRIBUTORS Japanese AUTHORS, STATESMEN and SCIENTISTS who are authorities on the subjects with which they deal. Why Don't You Go In Business For Yourself?

AREN'T you anxious to improve your present condition—to get more money? Then why not go in the well-drilling business? Well-drilling is a business open to men of all ages. It is a business that pays thousands of dollars annually. It is a business that anyone who understands machinery can succeed in. And if you are the kind of a man who wants to go in business, who wants to get ahead, we will send you our proposition.

We Will Teach You The Business from A To Z

To every purchaser of a CYCLONE outfit we will present our book, "Drill Work, Methods and Cost" which is worth a Thousand Dollars to any man starting in this business. The book is 7x10 inches in size and contains 350 pages illustrating and describing every type of machine and how to handle it.

Heretofore many who wanted to engage in this business because of its big profits, have not done so because they supposed they would have to serve a long apprenticeship. We have changed this condition entirely. Our book will start you off on the "right foot" so that from the very outset you can make almost as much "hole" as an old timer.

Read What This Man Says—"I have made \$40.00 a day drilling here and did not work hard at that. I make it a point to do a first class job and am getting more money per foot than my competitors, for the reason of my workmanship and that I get away quickly. No machines equal the Cyclone for speed and smooth running. They are money makers. **FRED MORROW, Bakerstown, Pa.**

Cornish Sent To You For A Year's Free Trial

Why Shouldn't You Buy As Low As Any Dealer?

More than 250,000 people have saved from \$25 to \$125 in purchasing a high grade organ or piano by the Cornish Plan—why shouldn't you? **Here Is Our Offer:** You select any of the latest, choicest Cornish styles of instruments—we place it in your home for a year's free use before you need make up your mind to keep it. If it is not sweeter and richer in tone and better made than any you can buy at one-third more than we ask you, send it back at our expense.

You Choose Your Own Terms

TAKE THREE YEARS TO PAY, IF NEEDED.

The Cornish Plan, in brief, makes the maker prove his instrument and saves you one-third what other manufacturers of high grade instruments would charge you because they protect their dealers.

Let Us Send to You Free the New Cornish Book

It is the most beautiful piano or organ catalog ever published. It shows our latest styles and explains everything you should know before buying any instrument. It shows why you cannot buy any other high grade organ or piano anywhere on earth as low as the Cornish. You should have this beautiful book before buying any piano or organ anywhere. Write for it today, and please mention this Almanac.

Hundreds of business and professional men write with enthusiasm of the great benefits they have derived from this course.

Mr. James Shea, Counsellor-at-Law, New York City, says enthusiastically: "I believe in Mr. Kleiser's Course absolutely, because I know and have seen what it will do for earnest men and women."

"I have personal knowledge of the benefits derived by many business and professional men through studying your course. As for myself I can place no estimate upon its great value to me. The work stands for growth in personality and power and every lesson is an inspiration."—C. L. Van Doren, Vice-President, P. Centemeri & Co., Kid Glove Manufacturers, New York.

What this wonderful course has done for these men it can do for YOU. Send a post-card to-day for interesting and convincing information. No agent will call, but send to-day—NOW—before you forget it.

A Happy Marriage

Every man and woman, particularly those entered upon matrimony, should possess the new and valuable book by William H. Walling, A. M., M. D., which sensibly treats of the sexological relations of both sexes, and as well, how and when to advise son or daughter.

Unequaled indorsement of the press, ministry, legal and medical professions.

It contains in one volume:
Knowledge a Young Man Should Have.
Knowledge a Young Husband Should Have.

Knowledge a Father Should Have.
Knowledge a Father Should Impart to His Son.

Medical Knowledge a Husband Should Have.

Knowledge a Young Woman Should Have.

Knowledge a Young Wife Should Have.
Knowledge a Mother Should Have.

Knowledge a Mother Should Impart to Her Daughter.

Medical Knowledge a Wife Should Have.

All in One Volume, Illustrated, \$2, Postpaid
 Write for "Other People's Opinions" and Table of Contents.

Early last year we opened the only store in America exclusively devoted to the retail sale of

MAPS

It was an experiment which proved a great success; thousands of people showed us that they had felt the need of a well-stocked map shop. When YOU need maps communicate with us; we have earned the right to the title "Map Specialists," and all your inquiries will receive the most careful attention.

Here are some of

HAMMOND'S NEW MAPS

STATE MAPS, printed in eight colors and showing all interurban electric and steam railroads, steamboat lines, &c., **DOWN-TO-DATE**. They give the postal and shipping facilities of all cities, villages and hamlets, with hotel guide. Any state, in pocket form, postpaid, 15 cents.

POCKET ATLAS, 256 pages of colored maps and population statistics. The maximum of information and the minimum in size and price. Size, closed, 4x6 inches. **A RARE BARGAIN**—bound in flexible CLOTH, 30 cents; leather binding, \$1.00.

MODERN ATLAS OF THE WORLD, acknowledged leader of low-priced reference books. New maps of every state and country, occupying 128 pages, with 48-page index of cities and towns, and 16 pages of maps and description of Panama Canal. Size, closed, 10½x13 inches, cloth bound, by express prepaid, \$3.00.

In our retail store we have the largest assortment of ROAD MAPS to be found in the United States. Prices from 25 cents to \$5.00. Write for our Road Map Catalogue. It contains descriptions of practically every map of this character published, both American and European.

We carry at all times the UNITED STATES GOVERNMENT MAPS, for which we are the authorized selling agents. The charts of the United States Coast and Geodetic Survey and the Hydrographic Office may always be had at the regular Government rates. We also carry all of the topographic sheets of the United States Geological Survey.

WALL MAPS in all sizes and styles, covering the entire earth, suitable for home, school or office use, are included in our stock. Prices and descriptions on application.

WE HAVE GLOBES of every description and size, ranging in price from 50 cents to \$250.00. Write for special Globe Catalogue.

General Catalogue free for the asking.

Are You a Member
of our great, big
HUNTING, FISHING, CAMP-
ING, NATURE-LOVING
National Sportsman
Brotherhood?

If not, now's the time to join. You don't have to "ride the goat" or "go to lodge." The lodge comes to you once every month in the shape of a 160-page richly illustrated magazine, crammed from cover to cover with a wealth of interesting stories and information about guns, fishing tackle, camp outfits, the best places to go to get fish and game and a thousand and one valuable "How to" hints for sportsmen.

The *National Sportsman Magazine* is the lodge where thousands of brother sportsmen, from all over the country, gather together once a month and tell of their experiences with rod, dog, rifle and gun.

The annual dues to the *National Sportsman Brotherhood* are \$1.00 (no initiation fee charged), and on receipt of this amount we will enter your

name on our mailing list, so that you will receive the magazine regularly every month. We will also send you by return mail a *National Sportsman Brotherhood* emblem in the form of a Lapel Button, a Scarf Pin or a Watch Fob, whichever you choose. Don't delay. Join our Brotherhood to-day.

SPECIAL TRIAL OFFER:

Send 25c., stamps or coin, and we will send you the *National Sportsman Magazine* for three months and your choice of Watch Fob, Scarf Pin or Lapel Button by return mail.

GALESBURG MICH.

THE McWADE SYSTEM OF SELLING GOODS BY MAIL

is a result of years' experience and research. It has been tried out in developing the Mail Order business in some of the largest department stores and factories in America, in various other enterprises and in marketing new inventions. It is the only complete exposition of the science of Selling By Mail ever devised. Indorsed by the largest makers of Office, Filing and Record Systems in the world.

I CLAIM

that the MAIL ORDER METHOD OF SELLING is a result of Commercial Evolution—I term it MODERN MERCHANDISING. It is coming as surely as the sun rises and sets—we can't get away from it. To shut our eyes or to fight it is not only to stand in the way of progress but to defy the inevitable, a fact recognized by the greatest thinkers in this country.

I am not an alarmist, but I have analyzed the conditions and made deductions from actual experience and am prepared to show every man who will be shown that the Mail Order is the most remarkable method of selling the world has ever known and presents possibilities almost beyond comprehension.

After you read this I want you to send for my Free Literature on the Mail Order Method of Selling. I will show you how to sell anything from a needle to a threshing machine, and sell it wherever the mails reach, and never step out of your office to do it. I will show you how you can do this without interfering with your present methods of doing business. I want you to send for this NOW—not next week nor tomorrow, but NOW. I have a proposition that will interest every man who buys, sells or manufactures merchandise of any description. If you wish to better yourself or increase your business, or open a Mail Order department, or start a Mail Order business, I CAN HELP YOU. Send for this literature and my proposition NOW, before you forget it. SEND FOR IT BEFORE YOU DO ANOTHER THING.

FRANK L. McWADE, Pres., 77 Copeland Bldg., Rochester, N. Y., U. S. A.

SHORTHAND IN 30 DAYS

You can learn in spare time in your own home, no matter where you live. No need to spend months in study, as was formerly necessary. The Boyd Syllabic System is easy to learn—easy to write—easy to read. Simple, Practical, Speedy, Sure. No ruled lines—no positions—no shading, as in other systems. No long list of word signs to confuse. Only nine characters to learn and you have the entire English language at your absolute command. This system is now widely used by stenographers, private secretaries, newspaper reporters, Lawyers, ministers, teachers, physicians, literary folk and business men and women may now learn shorthand for their own use through home study. A perfect shorthand system for any purpose—and does not require continual daily practice. Our graduates hold high-grade positions in all sections of the country. Send to-day for free booklet, testimonials, offer, etc.

CHICAGO CORRESPONDENCE SCHOOLS

882 Chicago Opera House Block, Chicago, Ill.

A School Within Itself

to a point where the careful student comprehends the complete designing, care and operation of a dynamo or motor, and one chapter on electric automobiles, outlining their construction, care and operation, and all about storage batteries and how to handle them. Each subject is carefully written and to the point. After a student studies a subject he is questioned on that subject in such a manner as to bring clearly to his mind the points he needs to know regarding same. A DICTIONARY in back of book will enable him to learn the meaning of any electrical word, term or phrase used in this book, as well as hundreds of others in common use. All required tables necessary in the study are in it.

There are XX chapters in all, XIX carrying you from the fundamental principles of electricity on through the various branches

TABLE OF SUBJECTS:

CHAPTER	CHAPTER
I—Wiring	IX—Calculation of E.M.F.'s in Electric Machines
II—Electric Batteries	X—Counter E. M. F.
III—Electric Plating	XI—Hysteresis and Eddy Currents
IV—Magnetism	XII—Armature Reaction
V—The Magnetic Circuit	XIII—Sparking
VI—Magnetic Traction	XIV—Winding of Dynamos and Motors
VII—Energy in Electric Circuit	XV—Proper Method of Connecting Dynamos and Motors—Self - Excitation and others.
VIII—Calculation of Size of Wire for Magnetizing Coils	

\$2.00 Per Copy—Sixth Edition—30,000 Copies Sold.

The offer we make of refunding money if book is not satisfactory upon examination is AN UNUSUAL ONE in connection with the sale of a book. But we have no fear of its return. Your decision will be what thousands of others has been. Money would not buy it if it could not be duplicated. We could print testimonials by the hundreds. It is best to order and be your own judge of its merits.

HYPNOTISM

Would you possess that strange, mysterious power which charms and fascinates men and women, influences their thoughts, controls their desires, and makes you supreme master of every situation? Life is full of alluring possibilities for those who master the secrets of hypnotic influence; for those who develop their magnetic powers. You can learn at home, cure diseases and bad habits without drugs, win the friendship and love of others, increase your income, gratify your ambitions, drive worry and trouble from your mind, improve your memory, overcome domestic difficulties, give the most thrilling entertainment ever witnessed, and develop a wonderfully magnetic will power that will enable you to overcome all obstacles to your success. You can hypnotize people instantaneously—quick as a flash—put yourself or any one else to sleep at any hour of the day or night—banish pain or suffering. Our free book tells you the secrets of this wonderful science. It explains exactly how you can use this power to better your condition in life. It is enthusiastically indorsed by

ministers of the Gospel, lawyers, doctors, business men, and society women. It benefits everybody. It costs nothing. We give it away to advertise our institution. Write for it to-day.

A Book That Every Married Couple Should Own

“THE SCIENCE OF A NEW LIFE”

By JOHN COWAN, M. D.

Contains information that is worth hundreds of dollars to any married couple or those contemplating marriage. Endorsed and recommended by the leading medical and religious critics throughout the United States. Unfolds the secrets of a happy married life, which are in many cases learned too late. No other book like it to be had anywhere at any price. Note a few of the chapters:

PART I. Marriage and Its Advantages, Age at Which to Marry, The Law of Choice, Love Analyzed, Qualities the Man Should Avoid in Choosing, Qualities the Woman Should Avoid in Choosing, The Anatomy and Physiology of Generation in Woman, The Anatomy and Physiology of Generation in Man, Amateness: Its Use and Abuse, The Law of Continence, Children: Their Desirability, The Law of Genius.

PART II. The Conception of a New Life, The Physiology of Inter-Uterine Growth, Period of Gestative Influence, Pregnancy: Its Signs and Duration, Disorders of Pregnancy, Confinement, Management of Mother and Child after Delivery, Period of Nursing Influence, Diseases Peculiar to Women, Diseases Peculiar to Men, Sterility and Impotence. SUBJECTS ON WHICH MORE MIGHT BE SAID, A Happy Married Life, How Secured.

This book is 8¼ x 6 inches in size, 1¼ inches thick, and contains 400 pages with 100 illustrations. Price \$3.00, postpaid. Eight-page descriptive circular giving full and complete table of contents sent free to any address.

SPECIAL OFFER

The regular price of “Science of New Life” is \$3.00. In order to introduce this work among the readers of THE WORLD ALMANAC we will, for a limited time, send one copy only to any address, postage prepaid, upon receipt of \$2.00. Furthermore, we will agree to refund your money if, within 10 days of the receipt of the book, you find it is not worth many times what you paid for it.

Take advantage of this offer to-day, this minute, and you will never regret doing so.

GO UPON THE STAGE

Vaudeville Career Offered You. Instructive Book Free!

Let me show you how to enter the most fascinating, profitable and enjoyable profession in the world. Vaudeville actors and performers travel all over the world and command large salaries. Even beginners make \$35 and \$50 per week for about a half-hour's work each day, and there is practically no limit to the salary that may be obtained, depending upon ability, many making as high as \$1,000 per week and over. No profession in the world is so easy to enter to-day. Experience unnecessary. I help you to get an act and engagement. Principal managers indorse my method. My experience of thirty years on the stage assures my competency. No matter what your present occupation is, if you want to go on the stage, write me this very day. Let me send you a copy of my book on Vaudeville, showing you just what others—who perhaps lacked the ability that you possess—have done in the field, and why it is so comparatively easy for any one to enter this profession to-day. The book is free—just send your name and address.

Unsere Schriftleitung.

Von den vielen deutsch-amerikanischen Zeitungen ist die „Lincoln Freie Presse“ die verbreitetste. Sie wird allwöchentlich von Hunderttausenden aufmerksam gelesen, die darin Neuigkeiten aus aller Welt, Belehrung und Unterhaltung suchen und finden.

Die „Lincoln Freie Presse“ wird sorgsam redigirt. Vom Besten das Beste, — so lautet das Motto der Schriftleitung. In überflüssiger Bearbeitung finden die Leser im Depeschentheil Berichte über die Vorgänge und Ereignisse des In- und Auslandes; in den Leitartikeln werden brennende Tagesfragen von einem unparteiischen Standpunkte aus beleuchtet.

Der Unterhaltungsstoff ist reich und gediegen; die Erzählungen sind ausschließlich bemerkenswerthe Schicksalungen bekannter Autoren; unsere Novellen, Novellen, Humoresken, Skizzen usw. sind immer interessant und unterhaltend.

Unsere Aufgabe.

Die deutsche Presse hat in diesem Lande eine schwere, aber segensreiche Pflicht zu erfüllen. Sie soll die Liebe zur alten Heimat, zu deutscher Sprache, Art und Sitte zu erhalten streben und zugleich die Leser mit den Verhältnissen und Einrichtungen der neuen Heimat bekannt und vertraut machen, so daß sie gute Bürger dieses Landes werden. Daß die „Freie Presse“ dieser Aufgabe gewissenhaft nachzukommen strebt, wird allseitig anerkannt; sie trägt zur Erhaltung der deutschen Sprache in hohem Maße bei und ist stets darauf bedacht, daß dem Deutschthum im Völkergemeine Amerikas die Stellung eingeräumt wird, die ihm auf Grund seiner Bedeutung, seiner Geschichte und seiner Verdienste zukommt.

Deshalb ist es, daß so viele Deutsche in Amerika die „Freie Presse“ unterstützen, lesen und darin siegen

Das Geheimniß unseres riesigen Erfolges!

HEARS CHURCH BELLS AFTER LONG DEAFNESS

For the first time in years this good lady, who has been deaf, hears the church bells. She is in ecstasy. Only this morning has she been able to hear the prattle of her grandchildren and the voice of her daughter. Twenty-three years ago she first found herself becoming deaf, and, despite numerous remedies, medical advice, hearing devices and specialists' treatments, she found it more and more difficult to hear. Of late years she was harassed by peculiar noises in the head which added to her misery. At last she was told of a book which explains how to regain perfect hearing without costly apparatus or drugs. She got this book and learned how to quickly become freed from deafness and head-noises. Observe her delight in this hypothetical illustration! Any reader of "The World Almanac" who desires to obtain one of these books can do so free of cost by merely writing to the author, Dr. George E. Contant, 176 B. Station E. New York, N. Y. He will be pleased to mail it promptly, postpaid, to any one whose hearing is not good. This offer will bring joy to many homes.

Hypnotism

You May Now Master This Wonderful, Mysterious and Fascinating Science Without Leaving Your Own Home

Send Your Address at Once and Receive a **FREE** Copy of a Wonderful Book on **Hypnotism, Personal Magnetism, Magnetic Healing and Other Occult Sciences**

Do you want to know how to utilize the most powerful and mysterious force of nature? Do you value control over others? Do you value the means of securing friendship and personal influence? I Owe My Life to This Discovery

This photograph truthfully shows the terrible effects of

Rheumatism

in my case. You, who have suffered the tortures, can easily imagine the racking pains I endured, but to-day I enjoy perfect health and devote my life to curing others. When only a youth, rheumatism became chronic with me and my joints were so distorted and swollen that I was nearly helpless. I tried medicine of every description, even 125 bottles of one remedy, but nothing did more than to give me a little temporary relief. I tried doctors and specialists with no better results.

At last, after spending \$20,000 and suffering untold agony for thirty-six years, I discovered a remedy which permanently cured me and I want to send rheumatism sufferers a

Free Package

Don't send any money—it's free. A letter will bring it promptly. Then, if I have proven that all of my claims are truthful, tell your friends of my discovery.

Here is your chance to test my wonderful remedy without a penny's expense. Thousands have taken advantage of this free offer; why not you?

Every day lost means one more day of needless pain—so write now to
S. T. Delano, 403 Delano Building, Syracuse, N. Y.

Foot-Aches Must End

Don't dope your tired, aching feet with powders, lotions, ointments, plasters, rheumatism remedies, etc. They give only temporary relief. Your feet need something more. Help them stand the strain. Help them carry your weight at the arch or instep, as Nature intended.

Wear Scholl's "Foot Eazers"

They support the arch in an easy, natural manner, equalize the weight distribution and make you walk with snap and ginger. You will get instant relief from tired or aching feet, weak or turning ankles and flat foot. Scholl's "Foot Eazers" keep your feet happy. Put a pair in your regular-size shoes and you can walk or stand all day without getting tired.

They Are Guaranteed. Wear them ten days and then if you are willing to give them up, your money will be cheerfully refunded. But be sure you get Scholl's. Price \$2.00 per pair at your shoe dealer's.

If he can't supply you, write to us. Send for **Illustrated Foot Book** and Dr. Scholl's advice on foot troubles free.

HEAD NOISES?

**300
Treatments
FREE**

The pity of those Head Noises, those wearing — annoying sounds in your head!! You have thought at times they would drive you crazy, if they did not stop.

Perhaps your hearing is already failing. Even if it is still good, you have the added burden of knowing that these Head Noises are only the signals of approaching Deafness. The whistle of the locomotive does not indicate any plainer the approach of the train, than Head Noises indicate the approach of Deafness.

You may only have the Noises in the head occasionally, or when you have a cold, but you are in danger all the same. You need immediate treatment.

Deafness Specialist Sproule has studied and perfected a method of treatment which has brought untold joy to many, many people troubled with Head Noises. This treatment has, in hundreds of cases, stopped the sounds and left the head clear as a bell.

GIVEN AWAY

300 of these treatments are being offered Free. If you want one, write to-day. You may try for yourself the method of this successful Specialist. You will see it is scientific, and why it has cured where others failed.

Deafness Specialist Sproule wants to help all who suffer from these fierce Head Noises. He knows what intense misery those sounds of escaping steam—that bell ringing in the ear—that singing of crickets or insects—the humming—the puffing—the buzzing—the distant roaring—that dull, heavy throbbing—means. He therefore offers treatment, **FREE, to all who write at once.** His treatment has cured hundreds upon hundreds. In place of those roaring noises, there is a perfect quietness, in which every natural sound is heard quickly and distinctly.

Just sit down and write a post card or letter request asking for a treatment—Free—for Head Noises. Sign your name and address, and send it off **NOW.** The treatment will come to you by return mail, and will cost you nothing. Don't delay—send **NOW.** Write

Eyesight Restored

EYEGASSES MAY BE
ABANDONED

**A Wonderful Discovery that Corrects
Afflictions of the Eye Without
Cutting or Drugging.**

There is no need of cutting, drugging or probing the eye for the relief of most forms of disease, as a new method—the Actina treatment—has been discovered which eliminates the necessity of former torturous methods. There is no risk of necessity of experimentation, as many people report having been cured of failing eyesight, cataracts, granulated lids and other afflictions of the eye after being pronounced incurable.

Rev. George B. Fairhead, New York Mills, N. Y., writes: "A noted oculist examined my wife's eyes and said cataract was apparent in both organs. By the use of 'Actina' her sight has become clearer and stronger, and the use of 'Actina' is a constant comfort to her eyes and ears. We would not be without it."

Mr. Henry E. Hendryx, Whitneyville, Conn., writes: "One of the leading eye professors told my wife that she would never see with her left eye again. But 'Actina' has restored the sight and it is now as good as the right one."

Rev. J. S. Boyd, Courtnay, N. D., writes: "The use of the 'Actina' has brought my eyes to a very satisfactory, and comfortable condition. I can read all day and all night, if necessary, without discomfort. 'Actina' also stopped head noises and relieved catarrh."

Hundreds of other testimonials will be sent on application. "Actina" is purely a home treatment and is easily used. **It will be sent on trial, postpaid.** If you will send your name and address to the Actina Appliance Co., Dept. 31 B, 811 Walnut St., Kansas City, Mo., you will receive, absolutely free, a valuable book.

Piles Quickly Cured at Home

**Pyramid Pile Remedy Has
Made the World Glad.**

Many a bad case of piles has been cured by just a trial package of Pyramid Pile Remedy. It always proves its value and you can get the regular size 50-cent box from any druggist; but be sure you get the kind you ask for.

Simply send your name and address to Pyramid Drug Co., 446 Pyramid Bldg., Marshall, Mich., and you will receive a sample package of the great Pyramid Pile Remedy in plain wrapper, by return mail, all charges prepaid.

Save yourself from the surgeon's knife and its torture, the doctor and his bills. Pyramid Pile Remedy will do it, and thousands of testimonials tell you emphatically it is the world's remedy for piles.

Crooked Spines

Straightened at Home

**WE PROVE WE CAN STRAIGHTEN YOUR SPINE
BY LETTING YOU USE THE WONDERFUL
SHELDON APPLIANCE 30 DAYS FREE**

It is no longer necessary to go to a sanitarium and undergo great expense and painful treatment in order to correct crooked spine, hunchback and other spinal troubles. The Sheldon Appliance has straightened crooked spines in sufferers of all ages. Our records show proof of over 17,000 cases successfully treated. We have revolutionized the treatment of spinal deformity.

The Sheldon Spinal Appliance

relieves pressure at the seat of trouble, makes the cartilage expand, relieves soreness, and the spine straightens without pain or discomfort.

We guarantee satisfaction in every case or no pay. The photograph shows how light, cool, elastic and easily adjustable the Sheldon Appliance is—how different from the old-torturous plaster, leather or steel jackets. It brings almost immediate relief even in the most serious cases. Every Sheldon Appliance is made to order specially, and the price is so low that every sufferer can afford it. Send for our Free Book to-day and describe your trouble as fully as possible. Address

Real Hair Grower Found at Last!

The Great English Discovery "Crystolis"
Grows Hair in 30 Days.

\$1000.00 Reward If We Cannot Prove Our Claims
Try It at Our Risk. Mail Coupon To-day

Beautiful Hair and lots of it—if you use Crystolis

Some of the most eminent Scientists in Europe consider "Crystolis," the New English Hair Grower the most wonderful discovery of the century.

The judges of the Brussels and Paris Expositions enthusiastically awarded Gold Medals to this marvelous hair grower.

Since we secured the American rights thousands of men and women from all parts of the world write telling of the phenomenal results obtained by its use. People who have been bald for 30 years now glory in beautiful hair. Others who have had dandruff all their lives have got a clean, healthy scalp after a few applications of this wonderful drug.

We don't care whether you are bothered with falling hair, prematurely gray hair, matted hair, brittle hair or stringy hair; dandruff, itching scalp, or any or all forms of hair trouble, we want you to try "CRYSTOLIS" at our risk.

We give you a binding guarantee without any "strings" or red tape, that it won't cost you a cent if we do not prove to you that "Crystolis" will do all we claim for it, and what's important, we have plenty of money to back our guarantee. Cut out the coupon below and mail it today to Creslo Laboratories, 200 M St., Binghamton, N. Y.

FREE COUPON

The Creslo Laboratories, 200 M Street,
Binghamton, N. Y.

I am a reader of the World Almanac. Prove to me without cost how Crystolis stops falling hair, grows new hair, banishes dandruff and itching scalps and restores gray and faded hair to natural color. Write your name and address plainly and

MAN'S HEALTH FORTIFIED

By living a healthful active life and assisting nature in obviating the strains due to severe physical exercises and with the assistance of a celebrated "SCHNOTER'S" Army and Navy Suspensory, which will give and keep you in better bodily vigor than all the patent medicines that were ever introduced to the public. Ask your physician about this.

Remember these words:

"A walk of a mile in the open air
Will save you more than your nickel fare,
For in God's out-doors the air is good,
It will clear your brain and redden your blood,
And bring you more vigor and health by far
Than you can possibly get in any old car."

The Genuine Schnoter's Suspensories are retailed at all druggists. Send for descriptive booklet. By the Pioneers in Suspensory making.

This Wife and Mother Wishes to tell you FREE How She Stopped Her Husband's Drinking

By all Means Write to Her and Learn how She did it.

For over 20 years James Anderson of 241 Elm Ave., Hillburn, N. Y., was a very hard drinker. His case seemed a hopeless one, but 10 years ago his wife in their own little home gave him a simple remedy which much to her delight stopped his drinking entirely.

To make sure that the remedy was responsible for this happy result she also tried it on her brother and several of her

neighbors. It was successful in every case. None of them has touched a drop of intoxicating liquor since.

She now wishes everyone who has drunkenness in their homes to try this simple remedy, for she feels sure that it will do as much for others as it has for her. It can be given secretly if desired, and without cost she will gladly and willingly tell you what it is. All you have to do is to write her a letter asking her how she cured her husband of drinking, and she will reply by return mail in a sealed envelope. As she has nothing to sell do not send her money. Simply send a letter with all confidence to Mrs. Margaret Anderson at the address given above, taking care to write your name and full address plainly.

(We earnestly advise every one of our readers who wishes to cure a dear one of drunkenness to write to this lady to-day. Her offer is a sincere one.)

Why Be Flat-Chested

Develop Your Bust New Way in 15 Days

*A Full, Firm Bust Is Worth
More to a Woman Than Beauty*

I was flat-chested and developed my bust to luxuriant proportions. You can do the same just as easily and as quickly. The secret of my success I am willing to share with every woman whom nature has neglected in physical charms. Write to me at once and I will send you FREE my great book on how to develop your bust in 15 days, which has been pronounced the most wonderful analysis of that indefinable quality in woman which attracts love, devotion and unswerving fidelity and which it has been proved can be developed in many women. Write at once for all I offer free.

Every woman wants to be beautiful, admired and courted. It is the natural and reasonable instinct planted in every woman's heart by mother nature. This privilege is denied to thin, anaemic, flat-chested women who lack the physical attractiveness that makes them envied. I was once skinny, scrawny and unattractive. I learned the way to remedy this defect of nature, and now, with my physique developed as it should be, I find a new world of happiness and joy opened to me. Not only that, but my attractiveness has been great enough to win for me a success as an artist and photographers' model second to none, and my services in this capacity receive the highest awards paid.

**Develop Bust New Way
I'll Tell You How FREE**

**If you are scrawny, puny, thin, bony and flat-chested
I want you to write to me at once**

I can save you from this unhappy condition. I can tell you how I rounded out my hollows, my skinny, wrinkled neck and figure into a thing of beauty. I can show you the easy, safe and simple road to this much desired condition of physical perfection. Believe me, I know the sadness and heartburns that are the lot of the girl or woman who lacks these physical charms, and this unhappiness I would like to see driven from the world. **Write at once for all I offer FREE, including my beautifully illustrated book on how to develop your bust.** I will send all gladly to every woman who needs it and will send me a postal card asking for it. To safeguard you from the curiosity of your neighbors and immediate family I will mail you this matter under plain sealed cover so that no one need know what you are getting. Address

TOBACCO HABIT

Conquered in 3 days.

I offer a genuine, guaranteed Remedy for tobacco or snuff habit, in 72 hours. It is mild, pleasant, strengthening. Overcomes that peculiar nervousness and craving for cigarettes, cigars, pipe, chewing tobacco or snuff. One man in 10 can use tobacco without apparent injury; to the other nine it is **poisonous** and seriously **injurious to health**, causing such disorders as nervous dyspepsia, sleeplessness, gas, belching, gawwling, or other uncomfortable sensation in stomach; constipation, headache, weak eyes, loss of vigor, red spots on skin, throat irritation, asthma, bronchitis, heart failure, lung trouble, catarrh, melancholy, neurasthenia, impotency, loss of memory and will power, impure (poisoned) blood, rheumatism, lumbago, sciatica, neuritis, heart-burn, torpid liver, loss of appetite, bad teeth, foul breath, enervation, lassitude, lack of ambition, falling out of hair, baldness, and many other disorders. It is **unsafe and torturing** to attempt to cure yourself of tobacco or snuff habit by merely stopping—don't do it. The gentle, safe, agreeable way is to **eliminate the nicotine poison** from the system, strengthen the weakened, irritated membranes and nerves and genuinely overcome the craving. You can quit tobacco and enjoy yourself a thousand times better while feeling always in robust health. My FREE book tells all about the

DIABETES

Civil Engineer Discovers Tropical
Herb That Cures This
Dread Disease.
**ONE WEEK'S SUPPLY AT HALF
PRICE.**

I feel that the most valuable result of my life in the tropics, where I spent more than twenty years in building railroads and opening new fields for American commerce, was the discovery of a simple herb that is an actual specific for Diabetes, and I have come home to devote the balance of my life to saving those who are suffering from this dread disease which has heretofore been considered incurable.

Write me at once and I will send you a liberal package, one week's supply, for only 25 cents to help pay postage and packing; also book of valuable diet lists and information for the diabetic.

This treatment is purely vegetable and perfectly harmless, and the one week's treatment relieves the patient of all his worst symptoms. Call the attention of your afflicted friends to this offer. I want the worst cases, those who have given up all hope of cure.

Write me to-day and see how quickly Diabetol herb will reduce both the specific gravity and the sugar, restore weight and build up the system. **P. M. AMES, Box 313 Whitney Point, N. Y.**

Greatest Nerve Vitalizer Known

SENT FREE

A Recent Discovery. The Most Effective Nerve Strengthener Ever Found by Science. 50c Trial Package Sent Free to Any Man or Woman to Prove Its Remarkable Results.

This is the world's newest, safest, most reliable, and effective nerve invigorator, revitalizer, brain awakener, body strengthener, without equal in the world's history of medicine. It brings about a change from that awful, dull, weak, lazy, don't-give-a-hang feeling to brightness, strength, clear-headedness and courage which is remarkable. Its results are better than you would obtain from a two-weeks' vacation on a farm.

energy, by taking this great discovery, Kellogg's Sanitone Wafers.

FREE.

Prove the results of this great discovery for nerves, FREE. It speaks for itself. A 50c trial package of this great nerve awakener will be sent free in sealed wrapper, by return mail, to every man or woman who sends his or her name and address, as instructed below. Do it to-day. A revelation is in store for you.

FOR MEN.—Nerve force gone? You are what your nerves are, nothing else. If you feel all run-down from overwork or other causes, if you suffer from insomnia, "caved-in" feeling, brain fog, extreme nervousness, peevishness, gloominess, worry, cloudy brain, loss of ambition, energy and vitality, loss of weight and digestion, constipation, headaches, neuralgia, or the debilitating effects of tobacco or drink, send for the free trial package of Kellogg's Sanitone Wafers.

FOR WOMEN.—If you suffer from nervous breakdown, extreme nervousness, "blue" spells, desire to cry, worry, neuralgia, back pains, loss of weight or appetite, sleeplessness, headaches, and constipation, and are all out-of-sorts, Kellogg's Sanitone Wafers will make you feel that there is more to life than you ever realized before. Send to-day for the free trial package.

No more need of dieting, diversion, travel, tiresome exercises, dangerous drugs, electricity, massage, or anything else—Kellogg's Sanitone Wafers do the work for each and all, give you nerve-force and make you love to live.

A 50c. trial package of this great discovery will prove that they do the work. They are guaranteed—every wafer. Send your name and address to-day for the free 50c. trial package of Kellogg's Sanitone Wafers, to F. J. Kellogg Co., 1240 Hoffmaster Block, Battle Creek, Michigan, in the city of peace, happiness and health.

Kellogg's Sanitone Wafers Make You Feel Fine All the Time.

This change comes rapidly. The results are lasting. It is absolutely safe, containing no injurious ingredients whatever. Absolutely different from anything that has ever before been used for nerves.

A high medical authority says: "In the forms of neurasthenia it deserves the unique position of being the only treatment which is curative, dispensing with all treatments of rest, travel, diversion of mind, dietetics and physico-mechanics."

Every man and woman suffering with fagged, weak nerves, nervous prostration, excessive nervousness, brain fog, insomnia, neuralgia, low vitality, general weariness, loss of strength and weight, or any condition which arises from poor, weak nerves, may now get "nerves of steel," clear head, courage, power, quick wit,

SAVE YOUR EYES!

New Book Gives Important Information on
Eye Weaknesses

HOW TO ATTAIN STRONG, CLEAR
EYESIGHT

3000 COPIES FREE

A book has been recently published that shows how strained and weak eyes may be treated by one's self without drugging, how glasses or spectacles may be avoided or cast aside, and how, by strengthening the eyes, the general health may be wonderfully improved.

Worth Its Weight in Gold

People who acknowledge their eyesight to have been saved through what they learned of in this book have declared it "worth its weight in gold." We have testimonials of persons who were going blind—or who had been wearing glasses for years, yet they can now see well without glasses! If your eyes are not perfect, whether you wear glasses or expect soon to be compelled to, you ought to send at once and get one of the books entitled "Save Your Eyes." This is an opportunity you cannot afford to pass by. Simply write to Okola Laboratory, Dept. 153, Rochester, N. Y., and say you want that new book that tells how to save the eyes. It will come promptly in plain wrapper, postpaid, and we hope you will soon join the legions of those who are declaring it to have given them good eyes and good health without glasses.

I WAS A SIGHT FROM SUPERFLUOUS HAIR

I Cured It Quickly So It Never Returned.

I Will Send Free to Any Other Woman
the Secret of How They Too Can
Remove All Trace.

For years I was the victim of a horrid hair growth on my face. I knew I was a sight, and every time I met another woman with this "mannish" mark and saw how it spoiled her looks I became the more distracted, for I had tried all the pastes, powders, liquids, and other "hair removers," seemingly highly indorsed, that I had ever heard of, but always with the same unsatisfactory result. My time, money and patience were about exhausted, when a friend persuaded me to try a secret from Japan, almost against my will, for I had little faith owing to former experiences.

What was my amazement when I found that it actually did what was claimed for it! It was so simple that it took but a few minutes' time to work a complete transformation in my appearance. Any woman who is troubled with superfluous hair can readily appreciate what a difference it would make to her looks if it were removed, for no woman can be beautiful if she is afflicted with a hairy growth on her face, neck or arms. My experience with this wonderful remedy was so remarkable that I feel it my duty to put my sensitive feelings aside and tell my experience to my sisters in distress, in order that they may profit by it and not waste their time and money on worthless "concoctions" as I did.

Therefore, to any lady who will write to me within the next few days and who will send me a two-cent stamp for actual return postage I will send quite free, in a plain, sealed envelope, full information which will enable you to forever end all trace of embarrassing hair by the wonderful method that cured me. Please state whether Mrs. or Miss. Address your letter Mrs. Caroline Osgood, Apartment 101 B V—118 East 28th St., New York City.

GOITRE

\$2.50 Treatment FREE

Send To-Day

Don't Be Disfigured

If you have an ugly goitre let me send you a generous sample of my wonderful remedy for a test. Don't be discouraged by failure of other doctors and remedies. My treatment is different. Let me prove its value to you in the privacy of your own home by sending you my \$2.50 Goitre Treatment FREE. It quickly reduces the size of goitre, relieves choking and other disagreeable symptoms. My treatment is almost always effective from the first. Patients everywhere report cures.

Here Is What Mrs. V. G. Watson, Pinnacle, N. C., One Grateful Woman, Says:

"I can highly recommend your treatment to all who suffer from goitre, for I have taken one treatment and so far as I know I am permanently cured. My goitre has entirely disappeared and my nerves and general health are a great deal better."

"After one month's treatment of your medicine, I am very glad to report that my goitre is entirely gone."

Mrs. E. J. Alsbach, Santa Ana, Cal., Writes:

"I hardly know how to thank you enough for what you did for me in the cure of my goitre. It has been over a year since I quit treatment and there are no signs of its return. I feel that I am entirely cured. I am satisfied that your treatment will cure goitre in any form."

MISS GEORGIA J. DROST, Austin, Minn.

Write to-day for the \$2.50 FREE TREATMENT in plain package and let it speak for itself. You risk nothing. Do it now.

GOITRE REMEDIES CO.

BATTLE CREEK, MICH.

HOW FRENCH WOMEN DEVELOP THE BUST

The Positive French Method of Developing the Bust, by Madame DuBarrie, is now being explained for the first time to the ladies of America. "How to obtain a luxurious bust development seems to be little understood in this country," says Madame DuBarrie. "This French method, on the contrary, is extremely effective, the results are prompt, and the bust becomes firm, symmetrical and luxurious in a safe and lasting way."

Any Woman May Now Develop Her Bust.

By this method the breasts may be developed from 2 to 3 inches in 30 days in women of almost any age, from young girls to elderly matrons, whether the bust is absolutely not developed at all, or has grown weak and limp, no matter from what cause.

This may sound remarkable to those who have never seen it done, but to any woman who wants to know how she may do it effectively, luxuriously and in a safe and lasting way, Madame DuBarrie will be only too glad to send, without charge, a finely illustrated booklet in plain sealed wrapper with full information, if she will enclose 2 cents in stamps to pay for postage.

We suggest to our lady readers that they write to Madame DuBarrie for particulars of this effective French Method, enclose 2 cents in stamps for the illustrated booklet and address it to Madame DuBarrie, Suite 3484, Pontiac Building, Chicago, Ill.

HOW TO HAVE EYES THAT FASCINATE

Wonderful New Discovery Makes Eyes Beautiful While Making Them Strong.

THROW AWAY YOUR GLASSES

Scientist's Secret—How to Have Strong, Beautiful Healthy Eyes—Offered Free.

Without beautiful eyes no one is really beautiful, while even a homely face is made attractive by eyes that please or appear forceful.

Without strong eyes no one can enjoy life to the utmost. Those whose eyes are weak and who have to wear glasses are greatly handicapped in life's race.

A distinguished Science-Professor has made a wonderful discovery which not only makes the eyes beautiful, but also seems destined to make spectacles and eyeglasses entirely unnecessary, except in very special cases. Indeed, it actually cures nearly all kinds of eye-weakness, including eyestrain, bloodshot, granulated eyelids, itching and inflammation. It is absolutely necessary to those who wish to make their vision stronger and more capable. Neither operation nor drugs are necessary, and it is absolutely harmless.

In addition, through the wonderful discovery and free advice of this distinguished scientist, you may have eyes as radiant as the Evening Star—eyes that attract and fascinate—eyes that have the power to influence others—eyes that people call wonderful.

If you wish to make your eyes bright, healthy, strong and beautiful, write to-day, inclosing two cents in stamps for reply (please state whether Mr., Mrs. or Miss), and address your letter to Prof. Smith, Dept. 101 A. B., Aldrich Building, Providence, R. I., and you will receive the secret free.

Eczema Cured in 10 to 30 Days

The Paris Medicine Co., 2624 Pine Street, St. Louis, Mo., manufacturers of Laxative Bromo Quinine, have a new and wonderful discovery, GROVE'S SA-NARE CUTIS, which they guarantee to cure any case of ECZEMA, no matter of how long standing, in 10 to 30 days, and will refund money if it fails. GROVE'S SA-NARE CUTIS is perfectly clean and does not stain. If your druggist hasn't it, send us 50c. in stamps and it will be sent by mail.

ITCH-ECZEMA FREE TRIAL

Reliable Beyond Question

This is a statement from the bank of my home town, where I've done business for years.

THIRD NATIONAL BANK

THIRD STATE OF MISSOURI
BANKING AND TRUSTS DEPARTMENT

Sedalia, Mo., Jan. 8-1910.

To THE 17 MAY GOSWAM:-

Dr. Cannaday, of our office is a physician, making a specialty of eczema.

He has handled his business exclusively for one year and eight months. His patients deposit their money with him to be paid to the doctor if his treatment is satisfactory. If we remember correctly, we have been called upon by only five of his patients for their money, and it seemed that the fault was more with the Express company than with the treatment itself.

Considering the number of cases he treated, we consider his success remarkable, and secure those placing their money with us a rare opportunity, business deal.

Yours truly
J. E. Cannaday

If you have Eczema, also called Itch, Tetter, Salt Rheum, Pruritus, Milk Crust, Weeping Skin, etc., and will write to me to-day, I will send you a free trial of my mild, soothing, guaranteed treatment that stops the itching and should cure. Besides this I will send you, free and postpaid, the most perfect book that was ever printed on eczema (145 pages) and then if you are not convinced, you can put my moderate fee in the Bank and if the treatment does not do more than I claim, return the treatment and get your money in full. Read the letter the bank gave in this notice.

The cause of eczema is in the blood and not a germ. I would tell you here what causes eczema but you would not believe it until you had used my free trial and see how perfectly it works. My treatment removes that cause and there is simply no argument about it. It will not bring the dead to life but it does remove the cause of eczema, and I can prove it.

All the "Blood Purifiers" on earth cannot do a particle of good because they are made to do everything. If you are expecting a "patent-cure-all" that will cure anything, from cross eyes to fits, do not write me at all. If you know enough to reason that every cause has its effects, and that these effects will remain until the cause is removed, then you are the party I want to talk to.

I am giving you a fair square, honest, business deal, and if you think I am trying to "flim-flam" you out of a few paltry dollars please do not write me at all. If you have tried everything and are discouraged and disgusted with everything and everybody, then I just dare you to give me a chance to prove my claims.

The cause of eczema, if NEGLECTED, also produces Bright's disease, rheumatism, stomach troubles, cold hands and feet, headache, constipation and all kinds of nervous troubles. You simply cannot afford to take such chances. If you fail to write to me TO-DAY, blame no one but yourself for your future sufferings. Believe me or not, this is the one chance of your lifetime. It will be the best day's work YOU ever did, if you write to me to-day, and you will tell me so, too.

Dr. J. E. Cannaday, 12 Park Square, Sedalia, Missouri.

(Could you do a better act than to send this notice to some poor sufferer of eczema?)

STRENGTH and MUSCLE CONSERVER for MEN and YOUTHS.

A Genuine Rupture Cure

Sent on Trial to Prove It

The above is **C. E. Brooks**, inventor of the Appliance, who cured himself and who has been curing others for over 30 years. If ruptured, write him to-day.

Cured at the Age of 76

Mr. C. E. Brooks, Marshall, Mich.

Dear Sir:—

I began using your Appliance for the cure of Rupture (I had a pretty bad case) I think in May, 1905. On November 20, 1905, I quit using it. Since that time I have not needed or used it. I am well of rupture and rank myself among those cured by the Brooks Discovery, which, considering my age, 76 years, I regard as remarkable. Very sincerely yours,
Jamestown, N. C. SAM A. HOOVER

Others Failed but the Appliance Cured

C. E. Brooks, Marshall, Mich.

Dear Sir:—

Your Appliance did all you claim for the little boy, and more, for it cured him sound and well. We let him wear it for about a year in all, although it cured him 3 months after he had begun to wear it. We had tried several other remedies and got no relief, and I shall certainly recommend it to friends, for we surely owe it to you. Yours respectfully,

WILLIAM PATTERSON

No. 717 S. Main St., Akron, O.

Child Cured in Four Months

21 Jansen St., Dubuque, Iowa.

Brooks Rupture Appliance Co.

Gentlemen:—

The baby's rupture is altogether cured, thanks to your Appliance, and we are so thankful to you. If we could only have known of it sooner our little boy would not have had to suffer near as much as he did. He wore your brace a little over four months and has not worn it now for six weeks. Yours very truly,

ANDREW EGGENBERGER

Throw Away Your Truss
My Appliance for Men,
Women and Children
Actually CURES
Send the FREE Coupon
To-Day

If you have tried most everything else, come to me. Where others fail is where I have my greatest success. Send attached coupon to-day and I will send you free my illustrated book on Rupture and its cure, showing my Appliance and giving you prices and names of many people who have tried it and were cured. It is instant relief when all others fail. Remember, I use no salves, no harness, no lies.

I send on trial to prove what I say is true. You are the judge and once having seen my illustrated book and read it you will be as enthusiastic as my hundreds of patients whose letters you can also read. Fill out free coupon below and mail to-day. It's well worth your time whether you try my appliance or not.

Marmola Prescription Tablets

Take Off the Fat Where It Shows

**Harmless, Pleasant Little
Tablets, Made After the
Famous Marmola Pre-
scription, Quickly Reduce
Fat Without Exercise
or Dieting.**

The Marmola Method of reducing fat is not new. It is the safe, successful treatment for overfatness originated many years ago by a well-known Detroit physician, and recommended by many of the most ethical doctors in this country and abroad. The original Marmola Prescription is hailed by many thousands of men and women all over the land as a savior of health, figure, complexion, and in many instances, life. Marmola Prescription Tablets are the logical outgrowth of this same harmless prescription, only they are more pleasant, easy and convenient to take. These little tablets (taken after meals and at bedtime) contain every effective ingredient of the original formula, each in proper proportion. They change into energy, strength and solid tissue the fat-producing foods as well as the fat already formed, without any call for violent exercise or unwelcome dieting. The stomach and other digestive organs receive them gratefully, their work of assistance is done thoroughly and quietly. The fat disappears evenly and smoothly, leaving no wrinkles or flabby skin. A reduction of thirty pounds in as many days is not too much to expect from Marmola Prescription Tablets; and, best of all, when the fat has once been removed, the body reduced to desired weight and the system regulated so that it takes care of the fatty foods, a return to bigness and clumsiness need not be feared. A large case of Marmola Prescription Tablets from any druggist or from the Marmola Co., 1354 Monroe Avenue, Detroit, Mich., costs 75c.

Let Us Make You Fat

50c Box Free

We Will Prove at Our Own Expense That It Is No Longer Necessary to Be Thin, Scrawny, and Undeveloped.

"Gee! Look at that pair of skinny scarecrows!
Why don't they try Sargol?"

This is a generous offer to every thin man or woman that reads this announcement. We positively guarantee to increase your weight to your own satisfaction or no pay. Think this over—think what it means. At our own risk, we offer to put 10, 15, yes, 30 pounds of good, solid "stay there" flesh on your bones, to fill out hollows in cheeks, neck or bust, to get rid of that "peaked" look, to rejuvenate and revitalize your whole body until it tingles with vibrant energy; to do this without drastic diet, "tonics" severe physical culture "stunts," detention from business or any irksome requirements—if we fail it costs you nothing.

We particularly wish to hear from the excessively thin, those who know the humiliation and embarrassment which only skinny people have to suffer in silence. We want to send a free 50-cent package of our new discovery to the people who are called "siats" and "bean poles," to bony women whose clothes never look "anyhow," no matter how expensively dressed, to the skinny men who fail to gain social or business recognition on account of their starved appearance. We care not whether you have been thin from birth, whether you have lost flesh through sickness, how many flesh builders you have experimented with. We take the risk and assume it cheerfully. If we cannot put pounds and pounds of healthy flesh on your frame we don't want your money.

The new treatment increases the red corpuscles in the blood, strengthens the nerves and puts the digestive tract into such shape that your food is assimilated and turned into good, solid, healthy flesh instead of passing through the

system undigested and unassimilated. It is a thoroughly scientific principle, this Sargol, and builds up the thin, weak and debilitated without any nauseous dosing. In many conditions it is better than cod liver oil and certainly is much pleasanter to take.

Send for the 50-cent box to-day. Convince us by your prompt acceptance of this offer that you are writing in good faith and really desire to gain in weight. The 50-cent package which we will send you free will be an eye-opener to you. We send it that you may see the simple, harmless nature of our new discovery, how easy it is to take, how you gain flesh privately without knowledge of friends or family until you astonish them by the prompt and unmistakable results.

It is only the astounding results of our new method of treatment that make such an offer and such a guarantee possible on our part. So cut off the coupon to-day and mail it at once to The Sargol Company, 200-A Herald Bldg., Binghamton, N. Y., and please inclose 10c. with your letter to help pay distribution expenses. Take our word, you'll never regret it.

Free Sargol Coupon

This certificate, with ten cents to help pay postage and distribution expenses, entitles the holder to one 50-cent package of Sargol, the Flesh Builder. The Sargol Co., 200-A Herald Bldg., Binghamton, N. Y.

COMFORT TO MANKIND.

SCIENCE UNDERSTANDS THE STOMACH

Treating Indigestion with Stuart's Dyspepsia Tablets is an Exact Science — They Give Quick Relief.

Medical men have learned more about the stomach than perhaps any other vital organ. They have discovered why the stomach rebels at certain conditions—what causes the formation of gases—what causes flatulency, heart-burn, dyspepsia, burning sensation, brash and all the other disorders of the stomach.

They have gone further. They have found remedies for all these afflictions, these results of improper digestion. They have learned that pepsin, hydrochloric acid and fruit salts are powerful digestants that relieve quickly and surely all the troubles to which the stomach is subject. They have discovered that one grain of these properties will digest 3,000 grains of food.

Stuart's Dyspepsia Tablets are not a medicine. They are a scientific compound that supplies the stomach with the digestive agents which it is itself unable to provide. When your stomach is sick and not working right—when it fails to give out enough of the digestive juices to properly take care of the food you eat, these tablets will make up the deficiency. You will have no indigestion. Your food will digest thoroughly.

You never can tell just when your stomach is going back on you. It gives no warning. If you eat a big meal, if you eat hurriedly, take one of these little tablets. You will avoid a lot of pain and misery.

Some of the most prominent men carry these tablets in their vest pockets when they attend banquets, etc., and never fail to take them.

Stuart's Dyspepsia Tablets are sold by all druggists at 50c a box.

The Eye and Its Disease

Prof. Wilson's Treatise on Eye Diseases Should Be Read by Every Person with Impaired Eyesight. The Book Is Free.

EYEGASSES NOT NECESSARY.

Every reader afflicted with any impairment of eyesight should not fail to send for this book. It contains 64 pages and cover and describes in language so plain and interesting the various forms of diseases of the eye and sure and safe methods of treatment that any reader of ordinary intelligence may fully comprehend every word.

The author of this Book is the inventor of "Actina," an instrument that is attracting the attention of people in all parts of the world owing to the wonderful results obtained from its use.

In the treatment of Eye disease the author says: "Nine out of ten persons wearing glasses might better be without them. Eye Glasses Do Not Cure. The defects that make them necessary can be removed in most cases by proper treatment. There is also no need for cutting or drugging the Eye for most forms of disease—for the cause can be removed by a newer and more humane method."

The book also goes into full detail of the causes and effects of disease in general. It advocates a method in the treatment of disease that is based upon a humane and common sense principle. It contains the recommendations of hundreds of intelligent persons in every walk of life who have been cured. A free trial of the "Actina" is offered in every case.

If the reader is interested, write for a copy of this book. It is absolutely free. A postal will bring it. Address Actina Appliance Co., Dept. 31E, 811 Walnut St., Kansas City, Mo.

Write Dr. G. C. Young Co., 10 Patriot Building, Jackson, Mich.

I Will Stake This Medicine Against Your Time

A Few Days Will Be Sufficient to Prove That
You Are Curable

A few minutes of your time for a few days and I will demonstrate to you, without expense to yourself, that I have a medicine that drives Uric Acid poison from the system and by so doing cures kidney trouble, bladder trouble and rheumatism. I don't ask you to take my word for it, but simply want you to let me send you some of this medicine so that you can use it personally.

I am trying to convince sufferers from these diseases that I have something far better than the usual run of remedies, treatments and such things, and the only way I can demonstrate that fact is to go to the expense of compounding the medicine and sending it out free of charge. This I am glad to do for any sufferer who will take the time to write me. Understand, I will not send you a so-called "sample, proof or test treatment," nor will I send you a package of medicine and say that you can use some of it and pay for the rest, but I will send you a supply free of charge and you will not be asked to pay for this gift nor will you be under any obligations.

All I want to know is that you have a disease for which my medicine is intended, as it is not a "cure-all," and I give herewith some of the leading symptoms of kidney, bladder and rheumatic troubles. If you notice one or more of these symptoms you need this medicine, and I will be glad to send you some of it if you will write me the numbers of the symptoms you have, give your age and your name and address. My address is Dr. T. Frank Lynott, 9051 Deagan Building, Chicago, Ill. You promise me nothing: you pay me nothing for it. All I ask, so there shall be no mistake, is that you send me the numbers of your symptoms or a description in your own words, and that you take the medicine according to the directions I send you. It is my way of getting publicity for my medicine so that it will become widely known.

You will agree when you have used it that it dissolves and drives out uric acid poison. It tones the kidneys so that they work in harmony with the bladder. It strengthens the bladder so that frequent desire to urinate and other urinary disorders are banished. It stops rheumatic aches and pains immediately. It dissolves uric acid crystals so that back and muscles no longer ache and crooked joints quickly straighten out. It re-constructs the blood and nerves so that you soon feel healthier and more vigorous, sleep better and eat better and have energy throughout the day. It does all this, and yet contains nothing injurious and is absolutely vouched for according to law.

Sufferers from these dreadful and dangerous diseases can surely afford to spend a few minutes each day for a few days to demonstrate to their own satisfaction if they are curable, especially when you consider no expense is involved, and I willingly give you my time and my medicine. All any fair-minded afflicted person wants to know is if a certain thing will cure HIM or HER, and here is an opportunity to find out without cost, obligation or important loss of time. THESE FEW DAYS may be the turning point in your life

DR. T. FRANK LYNOTT,
who will send medicine to any one
free of charge.

All who are interested enough to write me for the free medicine will also receive a copy of my large illustrated medical book which describes these diseases thoroughly. It is the largest book of the kind ever written for free distribution, and a new edition is just being printed. I will also write you a letter of diagnosis and medical advice that should be of great help to you; but in order to do this I must know that you need my medicine. Write me the numbers of the symptoms that trouble you, and your age, and I will promptly carry out my promises. Show an inclination to be cured and you will be.

These Are the Symptoms:

- 1—Pain in the back.
- 2—Too frequent desire to urinate.
- 3—Burning or obstruction of urine.
- 4—Pain or soreness in the bladder.
- 5—Prostatic trouble.
- 6—Gas or pain in the stomach.
- 7—General debility, weakness, dizziness.
- 8—Pain or soreness under right rib.
- 9—Swelling in any part of the body.
- 10—Constipation or liver trouble.
- 11—Palpitation or pain under the heart.
- 12—Pain in the hip joint.
- 13—Pain in the neck or head.
- 14—Pain or soreness in the kidneys.
- 15—Pain or swelling of the joints.
- 16—Pain or swelling of the muscles.
- 17—Pain and soreness in nerves.
- 18—Acute or chronic rheumatism.

Don't spend another needless day of suffering. I will send you my **REGULAR, FULL, COMPLETE, THREE-FOLD LEXOID, COMBINED COURSE OF TREATMENT—FREE TO TRY**. I don't mean a **SMALL WORTHLESS SAMPLE**, or a **TRIAL TEST TREATMENT**, that you can't tell anything about. I mean a **REGULAR, FULL TREATMENT**, and when I say a full treatment, I **MEAN A FULL TREATMENT**, just as I say. I will send it to you **COMPLETE—CHARGES PAID—DELIVERED TO YOUR DOOR—READY FOR YOU TO USE—SO YOU CAN COMMENCE YOUR CURE AT ONCE**.

You may not believe my offer, because you do not know me personally, and you do not know my word is good as gold. You may have seen ads. before offering full treatment, and then when you answered them, found out that in each case you got a small trial treatment, lasting a few days or a week, and that you had to send money first to get the full treatment, and you may think this offer is just like all the rest—**IT IS NOT**—please don't think I am trying to fool you—no—I don't do that kind of business. Don't think there is a "string" to this offer—There are no strings to this offer—**NO, INDEED**. I said I would send you a full, complete treatment, and **I WILL DO SO**. You won't be fooled. I will send you a **REGULAR FULL TREATMENT**, just as I say I will. I will send it charges paid, as soon as I hear from you—**THE SAME DAY—BY RETURN MAIL**. There are no promises to make—no papers to sign—no references to give—no charges or C. O. D.'s to pay, and you are not obligated to spend a penny.

I have helped thousands to regain their health. Those with tired, lame, aching backs, with unbearable bladder and urinary troubles, others stiff and bent with rheumatism—and I have made them well, the most chronic, severe, long standing obstinate cases, after all else had failed to cure them. I offer my wonderful treatment to you—**FREE TRY—TAKE IT—USE IT—AND GET WELL**.

If you have backache, **KIDNEY, BLADDER TROUBLE** or **RHEUMATISM**, dizziness, puffy swellings under the eyes or in the feet and ankles, nervousness, tired and worn out feeling, if the urine is light and pale, dark colored or cloudy, if you make water often, getting up during the night, if it smarts and burns in passing, if there is sediment or brick dust when it stands, **YOU NEED MY TREATMENT WITHOUT A MINUTE'S DELAY**.

I want you to have my regular **FULL COMPLETE TREATMENT**. My new scientific course, of the best remedies in the world for such diseases. Harmless, soothing, healing, penetrating remedies, that **REACH THE SPOT, DRIVES AWAY URIC ACID, CLEANSSES, PURIFIES, STRENGTHENS, INVIGORATES, AND ENCOURAGES THE KIDNEYS TO PROPERLY FILTER THE BLOOD. THAT STOPS THE PAIN, GIVES STRENGTH TO THE NERVES, NEW LIFE AND AMBITION TO THE MIND AND BODY, AND DOES IT QUICKLY, QUIETLY, WITHOUT LOSS OF TIME.**

STOPS BACKACHE

MY UNEQUALLED OFFER

Now, here is my offer—I will send you **A REGULAR, FULL, COMPLETE, THREE-FOLD LEXOID IN ADVANCE—CHARGES PAID—READY TO USE COURSE OF TREATMENT, WITHOUT A PENNY—FREE TO TRY.** I don't mean a **SAMPLE**, or a **TRIAL**, or a **TEST**, such as others call **PROOF TREATMENTS.** I mean a **REGULAR, FULL, COMPLETE COURSE OF REMEDIES—SO YOU CAN START YOUR CURE AT ONCE.**

Take it when it comes. Use half of it, **AND SEE JUST WHAT IT DOES.** Then when you know it has helped you, **WHEN YOU KNOW YOU ARE GETTING BETTER,** just send me a small amount, an amount within your easy reach—an amount you can easily afford to spare—that is all I ask. I know you'll be willing to do your part and send me some money—**WHEN IT HELPS YOU—AND YOUR WORD IS GOOD ENOUGH FOR ME.** It will help you quickly. But you are to pay nothing **UNTIL IT DOES.** Use it first, pay afterward when you know—**NOT BEFORE.** When you have used half of it, if you are not satisfied, return what's left, **AND PAY NOTHING. IT DOESN'T COST YOU A PENNY TO TRY MY TREATMENT—**I will send it to you charges paid. **TAKE IT, TRY IT FREE, AND FIND OUT.**

I am the only one to-day making this offer, sending a full treatment, for such diseases, **FREE TO TRY.** I could not afford to do it, if I was not sure it would help you—if I did not know it would cure—if I wasn't sure. That's why I can afford to send it first—**BUT YOU ARE THE ONE TO DECIDE,** you are the one to be the judge. It must help you, it must satisfy you—**BEFORE YOU SEND A PENNY.** And you are the one to say. **I WILL TAKE YOUR WORD.** It's all left right with you yourself. What you say goes. That's all I care for. I don't want a penny until it helps you. I would not take a cent that I am not entitled to. I believe in giving every one a square deal—in being honest—it's my religion—I want to do what's right—that's why I am making you the **BROADEST, MOST STRAIGHT-FORWARD, FAIREST, MOST LIBERAL ONE-SIDED OFFER EVER MADE.** When I have confidence enough in my treatment to send it to you this way, I know you'll **BE WILLING TO TRY IT FREE.** Don't send a penny in your letter. **NOT EVEN A POSTAGE STAMP.** Just your name and address and where to send the treatment. Address your letter to me personally, like this: **DR. H. MICHELL DEWERTH, 933 Lexoid Building, Cleveland, Ohio.**

DON'T SEND ANY MONEY—JUST SEND THIS COUPON.

Doctor H. Michell DeWorth,
933 Lexoid Bldg., Cleveland, Ohio.

Please send me your regular, full, complete three-fold Lexoid Course of Treatment as you promise above, all charges paid Free to try. Also your Free book about Uric Acid, Kidney, Bladder Trouble and Rheumatism.

TRUSS WEARERS, HERE'S GREAT GOOD NEWS,

Tiresome, torturous trusses can be thrown away forever, and it's all because of STUART'S PLAPAO-PADS, which are so different from the painful truss, being medicine applicators made self-adhesive purposely to prevent slipping and to afford an arrangement to hold the parts securely in place. Think what that means to YOU! No more a slave to the bonds that would hold you caged up forever. To prove this let us send you FREE, postpaid, a TRIAL of the marvelous PLAPAO together with Mr. Stuart's powerful, logical book for rupture sufferers. Write your name and address plainly on a postal card, send it to us, and by return mail we will send you

FREE TRIAL OF PLAPAO

NO STRAPS, BUCKLES OR SPRINGS—cannot slip, so cannot chafe or compress against the pubic bone.

RUPTURE

Soon disappears under proper MECHANICO-CHEMICAL treatment. No operation, pain, danger or hindrance from work.

Thousands suffering from most obstinate cases have successfully treated themselves in the privacy of the home. Soft as velvet—easy to apply—Inexpensive. Two International Juries of awards decided in favor of the Plapao-Pads. First, Gold Medal and Diploma International Exposition, Rome. Second, Diploma with Grand Prix at Paris. Process of recovery is natural, so no further use for trusses.

We will not only send you Free Trial of Plapao and Mr. Stuart's instructive book, but we will produce positive and invincible evidence that Plapao WILL help and cure you. Don't go on in the old way another day. Write to-day for the Big Free Treatment. Address

PLAPAO LABORATORIES, Inc., Block 99, ST. LOUIS, MO.

FREE TO ASTHMA SUFFERERS

A New Home Cure That Any One Can Use Without Discomfort or Loss of Time.

We have a New Method that cures Asthma, and we want you to try it at our expense. No matter whether your case is of long-standing or recent development, whether it is present as occasional or chronic Asthma, our method is an absolute cure. No matter in what climate you live, no matter what your age or occupation, our method will certainly cure you right in your own home.

We especially want to send it to those apparently hopeless cases, where all forms of inhalers, douches, opium preparations, fumes, "patent smokes," etc., have failed. We want to show every one at our own expense that this new method will end all difficult breathing, all wheezing, and all those terrible paroxysms at once and for all time.

This free offer is too important to neglect a single day. Write now and begin the cure at once. Send no money. Simply mail coupon below. Do It To-day.

FREE ASTHMA COUPON.

Republic Lawn Fence

is attractive, durable and inexpensive. Protects the grounds thoroughly, but does not obscure the view.

Spacing of pickets is close and uniform. Nicely finished and doubly strong at top. No jagged ends to catch on.

We Offer Highest Quality at Lowest Prices. Write for Free Catalog.

REPUBLIC FENCE & GATE CO., Manufacturers
NORTH CHICAGO, ILLINOIS

Original and Genuine

American Fence

and American Steel
Fence Post

This fence has the stiff, springy, **BIG WIRES**—greatest strength and durability. Most pounds of steel for the money.

Lead annealed and galvanized by the latest and best process for protecting the steel against weather conditions.

The fence with the **TENSION CURVE**—not merely a bend but a triple tension curve properly and **PERMANENTLY** set in the steel. Provides perfectly for expansion and contraction and always retains its elasticity.

The fence with the patented **HINGED JOINT**, the most substantial and flexible union mechanically possible. Adapted to every purpose and easy to erect on any farm, regardless of the lay of the land.

Made of tough steel, elastic enough to sustain all shocks and still spring back to its original shape and condition.

American Fence is now imitated. This is an endorsement of its superior structural features. But do not buy an imitation—get the original and genuine that we have fully developed in every detail of quality of metal and the weaving

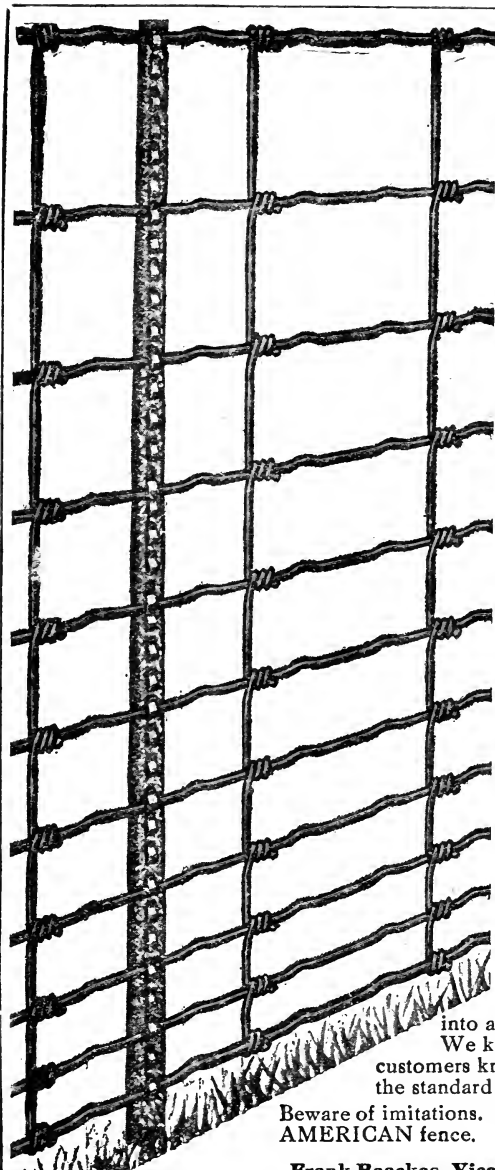

into a complete and massive steel fabric. We know and our tens of thousands of customers know it to be absolutely right, and the standard woven wire fence of the world.

Beware of imitations. Get the old, original, **GENUINE AMERICAN** fence. Dealers Everywhere. See Them.
